Truths that defy Contradiction. Read the following facts in relation to Christadoro's Excelsior flair Dye, and then say if it has any equal in the world:

It neither burns the skin nor hair. It colors every hair nicke.

Its Placks and browns are Nature's dupli-

cates. It is applied in a few minutes. It leaves a gloss upon the hair. It is more permanent than other dyes.

It contains no corrosive ingredient. And lastly, its inventor challenges a trial between this dye and any other in existence, whether of native or foreign origin.

Will soon disappear by the use of these invaluable. Pills, and the Soldier will quickly acquire additional strength. Never let the howels be either confined or unduly acted upon. It may seem strange that Holloway's Pills should be recommended for Dysentery and Flux, many persons supposing that they would increase the relaxation. This is a great mistake, for these Pills will correct the liver and stomach and thus remove all the acrid humours from the system. This medi-cine will give tone and vigor to the whole organic system however deranged, while health and strength follow as a matter of course. Nothing will stop the relaxation of the Bowels so sure as this famous medicine. VOLUNTEERS ATTENTOIN!

Sores and Ulcers, Blotches and Swellings can with certainty be radically cured if the Pills are taken night and morning, and the Unitment be freely used as stated in the printed instructions. permanent or temporary investment. It is believed that no securities offer so reat inducements to lenders; as the various descriptions of U. S. Bonds. In all other forms of indebtedn ess, the faith or ability; of private parties or stock companies or seperate communities only is pledged for payment, while for the debts of the United States the whole property of the country is holden to secure the payment of both principal and in-

These bonds may be subscribed for in sums from \$50 up to any magnitude, on the same erms, and are thus made equally available to the smallest lender and the largest capitalist. They can be converted into money at any moment, and the holder will have the benefit of the interest.

It may be useful to state in this connection that the total Funded Debt of the United States on which interest is payable in gold, on the 3d day of March, 1864, was \$768,965,-000. The interest on this debt for the coming fiscal year will be \$45,937,126, while the customs revenue in gold for the current fiscal year, ending June 30th, 1864, has been so far at the rate of over \$100,000,000 per annum.

As only \$200,000,000 of this Loan can be issued, we would urge upon persons having surplus money, to subscribe promptly and secure the investment at par. . .

It will be seen that even the present gold revenues of the Government are largely in excess of the wants of the Treasury for the payment of the gold interest, while the recent payment of the gold interest, while the recent increase of the tariff will doubtless raise the annual receipts from customs on the same amount of importations, to \$150,000,000 per
