THE extensive and comprehensive facilities in its possession enables the proprietor of THE WEEKLY HERALD to guarrantee the latest and most reliable in-formation possibly to be obtained, not only from all parts of the United States, but from

all parts of the world.

Its home correspondents, engaged at heavy cost, and connected with each new naval and military expedition of the government, prove that it is determined to leave no spot uncovered by its operations and no event can occur that the shall not find immediate report in its col-

corps of correspondents in the field.

In its collation of Foreign News the Herald
has for years held a high position, and it will
endeavor in the future to maintain the stand
it has assumed. It has special correspondents
stationed in all the principal cities of the world.

Its telegraphic arrangements extend to

whether inherent in the system or produced by special causes.

Nothing that is not wholesome, genial and restorative in its nature enters into the composition of Hostelter's Stomach Bitters. This popular preparation contains no mineral of any kind, no deadly botanical element; no fiery excitant, but it is a combination of the extracts of rare balsamic herbs and plants with the nurest and mildest of all diffusive sumuthe purest and mildest of all diffusive sumu-

It is well to be forearmed against disease, and so far as the human system can be protected by human means against maladies engendered by an unwholesome atmosphere, impure water and other external causes.

HOSTETTER'S BITTERS may be relied on as a safeguard.

In districts infested with Fever and Ague, it has been found infallible as a preventative and irresistible as a remedy, and thousands who resort to it under apprehension of an attack, escape the scourge; and thousands who ne-glect to avail themselves of its protective qualgiectro avait themselves of its protective quai-ties in advance, are cured by a very brief course of this marvelous medicine. Fever and Ague patients, after being plied with quinine for months in vain, until tairly saturated with that dangerous alkaloid, are not unfrequently restored to health within a few daysby the use of Hostetter's Bitters.

The weak atomach is rapidly invigorated

The weak atomach is rapidly invigorated and the appetite restored by the agreeable tonic, and hence it works wonders in cases of Dyspepsia and in less confirmed forms of Indigestion. Acting as a gentle and painless apperient, as well as upon the liver, it also invariably relieves the Constigution superinduced by irregular action of the digestive and secretive organs. Persons of feeble habit, liable to generate the constant of the digestive and secretive organs. organs. Persons of feeble habit, liable to peryous attacks, lowness of spirits and fits of langour, find prompt and permanent relief from
the Bitters. The testimony on this point is
most conclusive, and from both sexes.

The agony of Bilious Colic is immediately
assuaged by a single dose of the stimulant, and
by occasionally resorting to it, the return of the
complaint may be prevented.

Last, but not least, it is The Only Safe Stimulant, being manufactured from sound and
innocuous materials, and entirely free from the
acid elements present more or less in all the
