The Unibersal Clothes Miringer: "A child can readily wring out a tubful of clothes in a few minutes. It is really a *clothes* saver! A Time Saver! The saving of gar-ments will alone pay a large per centage on its cost. We think the machine much more than pays for itself every year in the saving of garments! There are several kinds, nearly slike in general construction, but we consider alike in general construction, but we consider it important that the Wringer be fitted with cogs, otherwise a mass of garments may cog the rollers, and the rollers upon the crank -shaft alip and tear the clothes, or the rubber break loose from the shaft. Our own is one of the first make, and it is as good as new after nearly four years constant use." It is a very yaluable fertilizer for held crops generally, and especially for potatoes, and garden purposes. Its excellent qualities, strength and chrap-ness, have made it very popular with all who have used it. Price, \$25 pen Ton. TREE & FRUIT FERTILIZER.
