CONSTITUTIONAL AMENDMENTS.

Special Election, August 2d, 1864. In favor of Soldiers voting.

A MUNIFICENT DONATION.—The Pennsylvania Railroad Company paid over on Wednesday, to the Christian Commission, five thousand dollars, which sum was a donation to the cause of the soldier. The Pennsylvania Company, from the beginning, has carried free the delegates and the stores forwarded by the Commission. The donation is a liberal one. This corporation since the war began, has been generous in money and service to a degree hitherto unparalleled. All thanks to it.

A very horrible means of securing the payment of pension has been attempted by a poor woman living near Castlebar, in Ireland. Her husband, who was the pensioner, was taken ill, and as he lived with his wife in a remote locality, she was not missed for some time. Inquiries being at last made, it was found that he had been dead for several weeks, his body being hidden, in a horrible state of decomposition, by his wife, who had hoped thereby to conceal the fact of his death until after quarter-day, when she would have received his quarter's pension.

Charles Miffin, of Pennsylvania, a resident of New Orleans for forty-five years, died there recently. He belonged to the Miffin family of the revolution—a grandson of Thomas Miffin, who was a revolutionary officer and Governor of Pennsylvania at the close of the war of Independence. He was also a cousin to George M. Dallas. But, during a long life in New Orleans disaster followed the heels of misfortune, and his existence was rendered wretched by many failures. Within the last three years he was near to utter poverty.

A local paper in Iowa threw the Copperheads into the most furious rage and denunciation of the demoralization produced by Abolitionism, by publishing a statement that a soldier's wife had given birth to an African infant. The next issue observed that the editor forgot to remark in the former item that the father and mother were both negroes.

A local reporter of the Dayton Journal was cowhided in the streets of that city by a woman on Tuesday. He made an item of it in the Journal, but treats the whole thing with levity. The cause of his flagellation was a statement of his that the woman was a "she rebel," and blatant in support of the Jeff Davis dynasty.

A fire broke out in the pines in Olean county, N. J., on Saturday, June 24, and raged for four days. It started about three miles northeast of Ferrago, and extended to Tom's river, making a sweep of about nine miles in a direct line, and destroying every vestige of timber and vegetation over an area of probably twenty-five square miles.

James P. Simmons, formerly United States Senator, died on Thursday, at his residence in Johnston, R. I., at the age of about sixty-nine years. He was for many years connected with important manufacturing enterprises in Rhode Island, was a prominent Whig politician, and was a member of the upper branch of Congress in 1840.

Rev. Daniel Waldo, nearly one hundred and two years old, fell down a flight of stairs at his house, N. Y., on Saturday, and received a shock which may prove fatal. He was chaplain to the army quite recently.

It is not forgotten to go to the election next week, and vote for the amendment to the constitution giving Whites the right to vote.

The Illustrated Phrenological Journal for July.—Vol. 40 begins with a double No., now ready, containing Portraits, Characters and Biographies of leading men, living and dead, such as Hancock, Sedgwick, Wadsworth, Hawthorn, Murillo, President of Colombia, S. A.; the Dying Gladiator, with Portraits, Characters, and Biographies. Also, Ethnology, or the races. Physiology, the Laws of Life and Health. Phrenology, with choice of pursuits. Physiognomy, or "signs of Character." Psychology, the Science of the Soul, and much other matter, to be found in no other publication. It is a handsomely illustrated monthly, with ninety-six columns of rich reading matter. News-men have it. Sold at 20 cents, or \$2 a year, by Fowler & Wells, No. 389 Broadway, New York.

Of all the ingenious ways of raising money for the Sanitary Commission, that devised by the people of the town of Catawissa, Pennsylvania, is probably the oddest. The male citizens agreed to decide by vote who was the prettiest girl in town, and it was declared in favor of Miss Hattie S. Reitsnyder, by a majority of two hundred and eighty votes. Each vote was accompanied by the sum of seventy-five cents, and the proceeds were given to the Sanitary Fair as the contribution of the favorite beauty. What makes the matter more interesting is the fact that Miss Reitsnyder is nursing wounded soldiers in the Army of the Potomac.

New York proposes another Cabinet for the President, when he is re-elected. Here it is:—C. F. Adams, Secretary of State; General Dix, Secretary of the Treasury; General McClellan, Secretary of War; Admiral Dupont, Secretary of the Navy; Alexander Randall, Assistant Postmaster General; Postmaster General; Reverday Johnson Attorney General. It thinks that such a Cabinet would unite radical and democrat, administration and anti-administration men. President Lincoln may have his own views on such matters. Will New York go for his re-election? That precedes Cabinet making.

A young married lady, travelling a few days since from New York to Syracuse, and suffering from consumption, had been laid carefully on a pillow on the cars by her husband, while her little girl remained by her side. At Little Falls she fell asleep, and the child commenced fanning her, saying "Mamma is sleeping." A passenger, however, noticed the peculiar whiteness of her lips, and, on looking closely at her, discovered that she was dead.

Keep your eyes on the Copperheads on election day. Some of them pretend they are the friends of the soldier. Make them face the music. Give them a chance to vote for the soldier. The soldiers want to know how they vote.

It is stated that we shall receive from internal revenue, this year, the sum of three hundred millions of dollars. Can men who read this believe that a country with such resources can be overthrown by a miserable rebellion?

John Morrissey, the notorious gambler and prize-fighter, who was in this city for two or three days previous to the boat race, for the purpose of getting bets, is said to be one of the shrewdest and most successful gamblers in the United States. How he succeeded here, we have no means of knowing, but it is asserted that he had \$10,000 deposited to his order here, and that he had nearly \$100,000 in his pocket when he left New York two months ago. He has since lost in gambling about these claims is for \$11,750, and other for \$23,000.—Pittsburg paper.

The New York Times publishes a lengthy account of a meeting which lately took place in Canada, between certain Rebelgentlemen purporting to be "Commissioners" from Jeff Davis and Horace Greeley, to agree upon terms of peace.—They wanted permission to go to Washington and from there to Richmond. But it turns out that they had no authority to act, but were willing to submit any terms our Government would propose, to Jeff Davis. Of course the whole thing ended in nothing, nor is it believed that any thing ever was meant by it, except to get up a peace diversion in favor of the Copperhead party of the North. But in this it will prove as miserable a failure as was the attempt at negotiation.

The Richmond papers persist in asserting that General Grant is dead. They announce the fiction very soberly, saying that the flags of our shipping have been at half-mast in his honor, and that our pickets confirm the intelligence. One of them asserts that the only consolation the Confederacy can draw from his death is the fact that it will dishearten the Yankees, who think him a wonderful General. Anyway, it don't believe he came to his death by a wound. Such a butcher as he is more likely, it thinks, to have died of mania-a-potu.

Attempts at assassination are not common in New Hampshire, but here is a case: Hon. Edmund Berke, while riding in his carriage in Claremont, last week, was waylaid by one Baron S. Noyes, who, failing to stop the horse, fired three shots from a revolver at Mr. Burke in the carriage. Noyes confesses his intent to take the life of Mr. Burke. The assault was made because M. Burke was counsel for the wife of Noyes in a proceeding for divorce for ill-assage.

We have already stated that the price of the New York dailies is to be raised from three cents to five on the 1st of August. We now learn that the price of all the daily papers in Boston will be increased at the same date. The increased cost of paper and of all printing materials and of labor renders this course a necessity.

The death of Gen. James B. McPherson takes from the army one of its ablest commanders. In all the Western campaigns he held important positions, and never failed to distinguish himself and do good service to the country. In the army he had the reputation of a great soldier. Atlanta will be dearly purchased by his life.

A company has been organized in New York with \$500,000 capital, and is now making 200 pairs daily of shoe soles from vulcanized rubber. They are moulded in a single piece, under a high pressure, with separate rivets imbedded in the solid gum. They are said to wear much longer than leather.

A number of years have elapsed since the introduction of Hostetter's Celebrated Bitters to the public. The prejudice existing in the minds of many persons against what are denominated patent medicines at first greatly retarded its sale; but as its virtues and merits became known, this barrier of prejudice was overthrown, and the demand increased so rapidly that in a few years scarcely a village existed in the United States in which the afflicted had not experienced the benefits arising from the use of the "Bitters," and at the present day there are to be found, in all parts of the world vouchers for the great merits of the article. No greater cure for Dyspepsia can be found. See advertisement. For sale by Druggists and Dealers generally.

Friends and Relatives of the brave SOLDIERS & SAILORS.

HOLLOWAY'S PILLS & OINTMENT

ALL WHO HAVE FRIENDS AND Relatives in the Army or Navy, should take special care, that they be amply supplied with these Pills and Ointment, and where the brave Soldiers and Sailors have neglected to provide themselves with them, no better present can be sent them by their friends. They have been proved to be the Soldier's never-failing friend in the hour of need.

Coughs and Colds affecting Troops Will be speedily relieved and effectually cured by using these admirable medicines, and by paying proper attention to the Directions which are attached to each Pot or Box.

Sick Headache and want of Appetite Incident to Soldiers!

Those feelings which so sicken us, usually arise from trouble or anxiety, or a protracted perspiration, or eating or drinking whatever is unwholesome, thus disturbing the healthy action of the liver and stomach. These organs must be relieved, if you desire to do well.—The Pills, taking according to the printed instructions, will quickly produce a healthy action in both liver and stomach, and as a natural consequence a clear head and good appetite.

Weakness and Debility induced by OVER FATIGUE.

Will soon disappear by the use of these invaluable Pills, and the Soldier will quickly acquire additional strength. Never let the bowels be either confined or unduly acted upon. It may seem strange that Holloway's Pills should be recommended for Dysentery and Flux; many persons supposing that they would increase the relaxation. This is a great mistake, for these Pills will correct the liver and stomach and thus remove all the acrid humors from the system. This medicine will give tone and vigor to the whole organic system however deranged, while health and strength follow as a matter of course. Nothing will stop the relaxation of the bowels so sure as this famous medicine.

VOLENTAINS ATTENTION!

Sores and Ulcers, Blisters and Swellings can with certainty be radically cured if the Pills are taken night and morning, and the Ointment be freely used as stated in the printed instructions. If treated in any other manner they dry up in one part to break out in another. Whereas this Ointment will remove the humors from the system and leave the patient a vigorous and healthy man. It will require a little perseverance in bad cases to insure a LASTING CURE.

For Wounds either occasioned by the Bayonet Sabre or the Bullet, Sore or Bruise.

To every Soldier and Sailor are liable there are no medicines so safe, so convenient as Holloway's Pills and Ointment.—The poor wounded and almost dying sufferer might have his wounds dressed immediately, if he would only provide himself with this marvellous Ointment, which should be thrust into the wound and smeared all around it, then cover it with a piece of linen from his Knapsack and compressed with a handkerchief.—Taking night and morning 6 or 8 Pills, would correct the system and prevent inflammation.

Every Soldier's Knapsack, Seaman's Chest should be provided with these invaluable Remedies. IMPORTANT CAUTION.—None are genuine unless the words "HOLLOWAY'S, NEW YORK, and LONDON" are discernible as a Water-mark in every leaf of the book of directions, around each pot or box; the same may be plainly seen by holding the leaf to the light.—A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

Sold at the Manufactory of Professor Holloway, 80 Maiden Lane, New York, and by all respectable Druggists and Dealers in Medicine throughout the civilized world, in pots or boxes, at 30c. 75c. and \$1.10 each.

N. B.—Directions for the guidance of patients in every disorder are affixed to each Pot. Dealers in any useful London medicines can have SHOW CARDS, CIRCULARS, &c., and their FREE OF EXPENSE, by addressing THOMAS HOLLOWAY, 80 Maiden Lane, New-York.

There is considerable saving by taking the larger sizes. [Dec 25-1v]
