dens, at the west end of this Borough, and South America? ste well worth a visit. Mr. E. bas every. thing in the fruit line in fine condition. His Peach and Pear orchards, numbering between three and four thousand trees, are in particularly fine order. He will have at least one thousand busbels of Peaches, a large portion of which he is sending to Pittsburg market, where 1 to size. they are regarded as the finest sent, and command the highest price paid. In addition to Mr. E's fruit sights, it is a treat to be entertained as Mr. E. and his estimable lady alone can entertain largely engaged in the fruit culture. These farms, almost all adjoining, present a beautiful horticultural sight. Lancaster county has long since been styled the "Garden of the State," and we think East Donegal township may as justly be called the Garden spot of the County. Whilst in this connection we may mention that the "Farmer's and Gardener's Society of East Donogal" is making preparations to have, very shortly, a fruit exhibition that will eclipse anything this society has yet had, which is saying a vast deal. Timely public notice will be given of the day.

🐨 Just as we were about going to press we learn that a young lady, of ample means, of this borough, who is without a near male relative in the service of the government and feeling a strong desire for the success of our forces and a determination that her family should be represented, placed a representative recruit in the army on Thursday. This is commendable and the example might be followed, with credit by some in our place, who are abundantly able to do so.

G Quite a relic, in the coin way, was found a few days since, by Rudolph Armold, on General Glatz's farm, on the opposite side of the river. A silver found on the hill where the old "Anderson Ferry House" stood, which was torn down over sixty years since. It is in fine condition and was evidently a new piece at the time lost, as the face is bardly any worn.

U. S. 7-30 LOAN.

The Secretary of the Tiensury gives notice that subscriptions will be received for Coupon Treasury Notes, payable three years from August 15th, 1864 with semi-annual interest at the rate of seven and three-tenths per-cent. per annum,-principal and interest both to be paid in lawful mcney.

These notes will be convertible at the option of the holder at maturity, into six per cent. gold bearing bonds, payable not less than five nor more than twenty years from their date, as the Government may elect. They will be issued in denominations of \$50, \$100, \$500, \$1.000 and \$5,000, and all subscriptions must be for fifty dollars or some multiple of fifty dollars.

The notes will be transmitted to the owners free of transportation charges as soon after the receipt of the original Certificates of Deposit as they can be prepared

As the notes draw interest from August 15, persons making deposits subsequent to that date must pay the interest accrued from date of note to date of deposit.

Parties depositing twenty-five thousand dollars and upwards for these notes at any one time will be allowed a commission of one quarter of one per cent. which will be paid by the Treasury Department upon the receipt of a bill for the amount, certified to by the officer with whom the deposit was made. No deductions for commissions must be made from the deposits.

Special Advantages of this Loan. It is a National Savings Bank, offering a righer rate of interest than any other, and the best security. Any savings bank which pays its depositors in U. S. Notes, considers that it is paying the best circulating medium of the country, and it cannot pay in anything better, for its own assets are either in government securities or in notes or bonds payable in government paper.

It is equally convenient as a temporary or permanent investment. The notes can always he sold for within a fraction of their face and accumulated interest, and are the best security with banks as colaterals for discounts.

Convertable into a Six per cent, 5-20 Gold Bond.

In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about 3 per cent. per annum, for the current rate for 5-20 Bonds is not less than 9 per cent. premium, and before the war the premium on 6 per cent. U. S. Stocks was over 20 per cent. It will be seen that the actual profit on this loan, at the present maiket rate, is not less than ten per cent. per annum. Its exemption

From State or Municipal Taxation. But aside from all the advantages we have enumerated, a special Act of Congress exempts all Bonds and Treasury Notes from local taxation. On the average, this exemption is worth about two per cent. per annum, according to the rate of taxation in various parts of the country.

It is believed that no securities offer so great inducements to lenders as those issued by the government. In all other forms of indebtedness, the faith or ability of private parties, or stock companies, or seperate communities, on
