THE GREAT FEMALE REGULATOR,

whether innerent in the system by special causes. Nothing that is not wholesome, genial and restorative in its nature enters into the compo-tion of the system of the sys sition of Hostetter's Stomach Bitters. This popular preparation contains no mineral of any kind, no deadly botanical element; no fi-ery excitant, but it is a combination of the extracts of rare balsamic herbs and plants with the purest and mildest of all diffusive stimuants.

It is well to be forcarmed against diseaso, and so far as the human system can be protec-ted by human means against maladies en-gendered by an unwholesome atmosphere, impure water and other external causes. HOSTETTER'S BITTERS

may be relied on as a safeguard. In districts infested with Fever and Ague, i has been found infallible as a preventative and irresistible as a remedy, and thousands who resort to it under apprehension of an attack resort to it under apprendision of all attacs, escape the scourge; and thousands who ne-glect ro avail themselves of its protective qual-ities in advance, are cured by a very brief rourse of this marvelous medicine. REFRIGERATORS. The only method for preserving by means of Ice, free from the influence of damp air.

WILSONS'S

Patent Air Circulating Refrigerators. It is an acknowledged fact that articles of food placed in a sufficiently cold atmosphere, free from moisture and damp air, can be cf-fectually preserved for indefinite periods du-ring the warmest weather. These Refrigera-tors are the only ones manufactured that can accomplish that object. No air from the ice is admitted to the preserving chamber, but a dry cold atmosphere is created in it, by circu-

lating cold air around and outside of it. Meats, Fish, Milk, Fruits, &c., are preserved in a fresh and natural state for as long as may be required, with a consump-tion of one third less ice than any other Re-frigerator made. They are undoubtedly the pest ever introduced. For Farmers and Families residing in cities,

villages, or the country, they are invaluable. Especial attention is called to our

It may be useful to state in this connection that the total Funded Debt of the United States on which interest is payable in gold, on the 3d day of March, 1864 was \$768,965,-000. The interest on this debt for the coming fiscal year will be \$45,937,126, while the cus-toms revenue in gold for the current fiscal year, ending June 30th, 1864, has been so far at the rate of over \$100,000,000 per annum. It will be seen that even the present gold revenues of the Government are largely, in excess of the wants of the Treasury for the payment of the gold interest, while the recent increase of the tariff will doubtless raise the annual receipts from customs on the same annual receipts from customs on the same amount of importations, to \$150,000,000 per annum.
