BEWARE OF COUNTERFEITS.
As Kunkel's Bitter Wine of Iron is the only sure and effectual remedy in the known world for the permanent cure of Dyspepsia and Debility, and as there are a number of imitations offered to the public, we would caution the community to purchase none but the genuine article, manufactured by S. A. KUNKEL & BRO., and has their stamp on the top of the cork of every bottle. The very fact that others are attempting to imitate this valuable remedy, proves its worth and speaks volumes in its favor.
The Bitter Wine of Iron is put up in 7 cent and \$1.00 bottles, and sold by all respectable druggists throughout the country. Be particular that every bottle bears the *fac simile* of the proprietor's signature.
This Wine includes the most agreeable and efficient Salt of Iron we possess; Citrate of Magnesia Oxide combined, with the most energetic vegetable tonics, Yellow Peruvian Bark. The effect, in many cases of debility, loss of appetite, general prostration, of an efficient Salt of Iron, combined with our valuable Nerve Tonic, is most happy. It augments the appetite, raises the pulse, takes off muscular flabbiness, removes the pallor of the face, and gives a florid vigor to the countenance.

U. S. 10-40 BONDS.
These Bonds are issued under the Act of Congress of March 3rd, 1864, which provides that EXEMPT FROM TAXATION by or under any state or municipal authority. Subscriptions to these Bonds are received in United States notes or notes of National Banks. They are TO BE REDEEMED IN COIN, at the pleasure of the Government, at any period not less than ten months nor more than forty years from their date, and until their redemption FIVE PER CENT INTEREST WILL BE PAID IN COIN, on Bonds of not over one hundred dollars annually and on all other Bonds semi-annually. The interest is payable on the first days of March and September in each year.
Subscribers will receive either Registered or Coupon Bonds, as they may prefer. Registered Bonds are recorded on the books of the U. S. Treasurer, and can be transferred only on the owner's order. Coupon Bonds are payable to bearer, and are more convenient for commercial uses.
Subscribers to whom I will have the option of having their Bonds draw interest from March 1st, by paying the accrued interest in coin (or in United States notes, or the notes of National Banks, adding fifty per cent. premium) or receive their drawing interest on the day of subscription and deposit.
As these Bonds are Exempt from Municipal or State Taxation, their value is increased from one to three per cent. per annum, according to the rate of tax levies in various parts of the country.
At the present rate of premium on gold they pay
Over Eight Per Cent Interest
in currency, and are of equal convenience as a permanent or temporary investment.
It is believed that no securities offer so great inducements to lenders as the various descriptions of U. S. Bonds. In all other forms of indebtedness, the faith or ability of private parties or stock companies or separate communities only is pledged for payment, while for the debts of the United States the whole property of the country is held to secure the payment of both principal and interest in coin.
These bonds may be subscribed for in sums from \$50 to \$1000 on the same terms, and are thus made equally available to the smallest lender and the largest capitalist. They can be converted into money at any moment, and the holder will have the benefit of the interest.
They are used to state in this connection that the total funded debt of the United States on which interest is payable in gold, on the 31st day of March, 1864, was \$788,365,000. The interest on this debt for the coming fiscal year will be \$45,937,126, while the payment of the interest for the current fiscal year, ending June 30th, 1864, has been so far at the rate of over \$100,000,000 per annum.
It will be seen that even the present gold revenues of the Government are largely in excess of the wants of the Treasury for the payment of the interest, while the present increase of the tariff will doubtless raise the annual receipts from customs on the same amount of importations, to \$150,000,000 per annum.
Instructions to the National Banks acting as loan agents were not issued from the United States Treasury until March 26, but in the first three weeks of April the subscriptions averaged more than TEN MILLIONS A WEEK.
Subscriptions will be received by the First National Bank of Philadelphia, Pa. Second National Bank of Philadelphia, Pa. Third National Bank of Philadelphia, Pa.
And by all National Banks which are depositaries of Public money, and all RESPECTABLE BANKS & BANKERS throughout the country, (acting as agents of the National Depository Banks.) Will furnish further information and an AFFRATON EVERY FACILITY TO SUBSCRIBERS. [3m inside.]

REFRIGERATORS.
The only method for preserving by means of Ice, free from the influence of damp air.
WILSON'S
Patent Air Circulating Refrigerators.
It is an acknowledged fact that articles of food placed in a sufficiently cool atmosphere, free from moisture and damp air, can be effectually preserved for indefinite periods during the warmest weather. These Refrigerators are the only ones manufactured, that can accomplish this object. No air from the ice-dry cold atmosphere is created in it, by circulating cold air around and outside of it.
Meats, Fish, Milk, Fruits, &c., are preserved in a fresh and natural state for as long as may be required, with a consumption of one third less ice than any other Refrigerator made. They are undoubtedly the best ever introduced.
For Farmers and Families residing in cities, villages, or the country, they are invaluable.
Special attention is called to our
DAIRY REFRIGERATORS,
made to order expressly for this purpose.—Where they are in use they save many times the cost of other kinds of coolers.
