STOMACH ${f BITTERS}.$

A PURE AND POWERFUL TONIC, Corrective and alternative of wonderful efficacy in disease of the Stomach, Liver and Bowcy in disease of the Stomach, Liver and howels; cures Dyspensia, Liver Complaint, Headache, General Debility, Nervousness, Deprest sion of Spirits, Constipation, Colic, Intermitten-Fevers, Cramps and Spasms, and all complaints of either sex, arising from bodily weakness whether inherent in the system or produced by special causes.

popular preparation contains no mineral of any kind, no deadly botanical element; no fi-ery excitant, but it is a combination of the ex-tracts of rare balsamic herbs and plants with the purest and mildest of all diffusive stimu-

and so far as the human system can be protected by human means against maladies en-gendered by an unwholesome atmosphere, im-pure water and other external causes,

escape the scourge; and thousands who ne-glect ro avail themselves of its protective qual-ties in advance, are cured by a very brief course of this marvelous medicine. Fever and Ague patients, after being plied with quinine for months in vain, until fairly saturated with that dangerous alkaloid, are not unfrequently restored to health within a few daysby the use of Hotstands Patiens.

of Hostetter's Bitters.

The weak stomach is rapidly invigorated and the appetite restored by this agreeable to-nic, and hence it works wonders in cases of Dyspepsia and in less confirmed forms of Indi-Dyspepsia and in less confirmed forms of Indigestion. Acting as a gentle and painless apperient, as well as upon the liver, it also invariably relieves the Constipation superinduced by irregular action of the digestive and secretive organs. Persons of feeble habit, liable to nervous attacks, lowness of spirits and fits of langour, find prompt and permanent relief from the fitters. The testimony on this point is most conclusive, and from both sexes.

The agony of Bilious Colic is immediately assuaged by a single dose of the stimulant, and by occasionally resorting to it, the return of the

by occasionally resorting to it, the return of the complaint may be prevented.

Last, but not least, it is The Only Safe Stimulant, being manufactured from sound and innocuous materials, and entirely free from the acid elements present more or less in all the ordinary tonics and stomachics of the day.

These symptoms, if allowed to go on, which this medicine invariably removes, soon follows Impotency, Fatuity, Epileptic Fits, in one of which the patient may expire.
Who can say that they are not frequently followed by those "Direful Diseases;"
"Insanity and Consumption."
Many are aware of the cause of their suffering, but none will confess the records of the Insane Asylums.

Melancholy deaths by Consumption bear ample witness to the truth of the assertion.
The Constitution once effected with Organic weakness requires the aid of medicine to strengthen and invigorate the system, which HELMBOLD'S EXTRACT BUCHU in variably does. A trial will convince the most skeptical.

These Bonds are issued under the Act of Congress of March 8th, 1864, which provides that all Bonds issued under this Act shall be EX-EMPT FROM TAXATION by or under any state or municipal authority. Subscriptions to these Bonds are received in United States notes or notes of National Banks. They are TO BE REDEEMED IN COIN, at the pleaments of the Court sure of the Government, at any period not less than ten months nor more than forty years from their date, and until their redemption FIVE PER CENT. INTEREST WILL BE PAID IN COIN, on Bonds of not over one hundred dollars annually and on all other Bonds semi-annually. The interest is payable on the first days of March and Septem-

able on the first days of March and September in each year.

Subscribers will receive either Registered or Coupou Bonds, as they may prefer. Registered Bonds are recorded on the books of the U. S. Treasurer, and can be transferred only on the owner's order. Coupon Bonds are payable to bearer, and are more convenient for commercial uses.

Subscribers to this loan will have the option of having their Bonds draw interest from March 1st, by paying the accrued interest in coin—(or in United States notes, or the notes of National Banks, adding fifty per cent. for premium) or receive them drawing interest from the date of subscription and deposit.

in currency, and are of equal convenience as a permanent or temporary investment.
It is believed that no securities offer go great inducements to lenders as the various descriptions of U. S. Bonds. In all other forms of indebtedness, the faith or ability of private parties or stock companies or seperate communities only is piedged for payment, while for the debts of the United States the whole property of the country is holden to tsecure the payment of both principal and interest in coin erest in coin.

These bonds may be subscribed for in sums from \$50 up to any magnitude, on the same terms, and are thus made equally available to the smallest lender and the largest capitalist. They can be converted into money at any moment, and the holder will have the benefit of the interest.

It may be useful to state in this connection that the total Funded Debt of the United States on which interest is payable in gold, on the 3d day of March, 1864, was \$768,965,000. The interest on this debt for the coming fiscal year will be \$45.937,126, while the cus-These bonds may be subscribed for in sums

fiscal year will be \$46,937,126, while the cus-toms revenue in gold for the current fiscal year, ending June 30th, 1864, has been so far at the rate of over \$100,000,000 per annum. It will be seen that even the present gold revenues of the Government are largely in excess of the wants of the Treasury for the payment of the gold interest, while the recent increase of the tariff will doubtless raise the annual receipts from customs on the same amount of importations, to \$150,000,000 per
