A correspondent who was in the terrible railroad catastrophe at Thompsontown, a few days since, says : The gas suddenly escaped took fire, which immediately communicated with the rubbish and consumed everything together. Some forty human beings were consumed with the baggage or otherwise injured. The charred remains were gathered up the next morning and filled seven boxes. One lady got half anthorities have made arrangements-by out of the rubbish, when her clothes took fire and she fell back suffocated. One gentleman lost a wife and five children, and a lady lost an aunt and three children. Of the vast number burned to ashes with their baggage, the names will probably never be known. Military buttons, watch cases and wheels, breastpins, copper and silver coin, hairpins, pen knives, with melted gold, and bundies of half-burned greenbacks, were found in the rubbish.

🐨 Hon. Montgomery T. Blair, Postmaster-General, has retired from the Cabinet. It is understood that Ex-Governor Dennison, of Obio, has been tendered the appointment, and will accept. The cause of Mr. B's resignation was a want of harmony with the other members of the Cabinet on certain questions. He parts with the President on the most cordial terms. He is now stump ing Maryland for Lincoln.

"FEMALE GENTLEMAN."-A COFFOSDONdent writes :-- "Miss Sallie M. Monroe, of New Berlin, Chenango county, N. Y., apractising physician of the hydropathic school, has permanently adopted the masculine attire-not merely bloomers. but the veritable dress of a gentleman, from hat to boots. So, the ultima thule of the dress reform has been reached at last ! Miss Monroe, who makes a fine

looking cavalier, either on horseback or on foot, usually wears a blue coat and buff waistcoat, with plain flat gilt buttons, blue trowsers, boots and bat, all good cut. She is a young lady of irreproachable character, skillful in her profession, brave, energetic, ambitious, and eminently self-reliant. She wears the masculine in preference to the feminine dress because she conceives the former to be better adapted to the active duties of her profession."-Home Journal.

BROWNLOW'S SONS .- Col. James P. Brownlow, a son of the brave Parson Brownlow, after fighting from Chattanooga to Atlanta, and even in the Stoneman raid, was sent back to Nashville to meet the Wheeler raid, where a ball passed through both thighs, as he sat in his saddle, making a desperate charge at the head of his gallant regiment. As we learn by a letter from Parson Brownlow to Mr. George Childs, of this city, the wound is very severe, but the colonel "is game to the last." This young officer entered the service in his 19th year as a private, and in the last two and a half years has been in seventy engagements. The Parson's other son led his regiment of cavalry in the Greenville fight, at which Morgan was killed by Andrew Campbell, a private of a Tennessee regiment -Phila.

The New York Post publishes the following : "It is reported that our which the rebels, in future exchanges, will be furnished with men as nearly as possible in the condition in which our soldiers are returned to us, thus making the exchanges comparatively equal, and preventing the rebels getting soldiers whom they, can put at once into the ranks in exchange for the emaciated and dying men they bring to us.

James Kelly has been appoin- thought, as he was to die, he was justi- Treasury Notes, payable three years from August 15th, 1864 with semi.annual interest at the rate of seven and three-tenths pei-cent. great hopes of saving the man. He first per annum,-principal and interest both to be paid in lawful mcney.

> These notes will be convertible at the option of the holder at maturity, into sixtper cent. gold bearing bonds, payable not less than five nor more than twenty years from their date. as the Government may elect. They will be issued in denominations of \$50, \$100, \$500, \$1,000 and \$5,000, and all subscriptions must be for fifty dollars or some multiple of fifty dollars.

The notes will be transmitted to the owners free of transportation charges as soon after the receipt of the original Certificates of Deposit as they can be prepared.

As the notes draw interest from August 15, persons making deposits subsequent to that date must pay the interest accrued from date of note to date of deposit.

Parties depositing twenty-five thousand dollars and upwards for these notes at any one time will be allowed a commission of one quarter of one per cent. which will be paid by the Treasury Department upon the receipt of a bill for the amount, certified , to by the officer with whom the deposit was made. No deductions for commissions must be made from the deposits.

Special Advantages of this Loan. It is a National Savings Bank, offering a higher rate of interest than any other, and the best security. Any savings bank which pays its depositors in U. S. Notes, considers that it is payinn best circulating medium of the country, and it cannot pay in anything better, for its own assets are either in government securities or in notes or bonds payable in government paper.

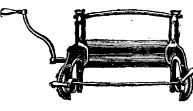

It is equally convenient as a temporary or permanent investment. The notes can always be sold for within a fraction of their face and accumulated interest, and are the best security with banks as colaterals for discounts.

Convertable into a Six per cent, 5-20 Gold Bond.

In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about 3 per cent. per annum, for the current rate for 5-20 Bonds is not less than 9 per cent. premium, and before the war the premium on 6 per cent. U. S. Stocks was over 20 per cent. It will be seen that the actual profit on this loan, at the present market rate, is not less than ten per cent. per annum. Its exemption

From State or Municipal Taxation. But aside from all the advantages we have enumerated, a special Act of Congress exempts all Bonds and Treasury Notes from local taxation. On the average, this exemption is worth about two per cent. per annum, according to the rate of taxation in various parts of the country. It is believed that no securities offer so grea inducements to lenders as those issued by the lic that he is now prepared to furnish anything in his line of business, such as t At Salunga, Lancaster county, on the -th government. In all other forms of indebted-Capta ness, the faith or ability of private parties, or stock companies, or seperate communities, only, is pledged for payment, while the whole property of the country is held to secure the discharge of all the obligations of the United States. While the government offers the most liberal terms for its loans, it believes that the very strongest appeal will be to the loyalty and patriotism of the people. Duplicate certificates will be issued for all deposits. The party depositing must endorse upon the original certificate the decomination of notes required, and whether they are to be issued in blank or payable to order. When so endorsed it must be left with the officer receiving the deposit, to be forwarded to the Treasury Department. Supscriptions will be received by the Treasurer of the United States, at Washington, the several Assistant Treasurers and designated Depositaries, and by the First National Bank af Marietta, and by all National Banks which are depositaries of public money, and all respectable BANKS AND BANKERS throughout the country will give further information and afford every facility to subscribers.
