**THE ELECTION.**—Pennsylvania, has, from all accounts, gone Union by over ten thousand. Lancaster county gives Lincoln 5600 majority; Berks county gives McClellan 6775 majority. Maine, New Hampshire, Connecticut, Rhode Island, Illinois, Maryland, Tennessee, Wisconsin, Ohio, Indiana, West Virginia, Minnesota, Iowa, Michigan and Kansas, have all gone Union, by decisive majorities, with the strong probability of three more states, making nineteen, whilst McClellan has only Kentucky and Delaware for certain with the probability of New Jersey. Was there ever a more complete route?

New York is claimed by both parties; the Cops by 1600; the Union party claim it by 8,000.

**A NORTHWESTERN CONFEDERACY.**—Judge Advocate General Holt, who had been appointed to make the investigation, has published a report making eight columns in the Washington Chronicle, in relation to the secret associations and conspiracy against the Government in the Western and Northwestern States. The actual number of persons in these secret lodges he supposes is 500,000, which is the number Vallandigham stated it to be. It is an armed force, the arms being purchased in Eastern markets, and consist of revolvers and carbines. One of the principles of the Order is that Federal authority cannot coerce a sovereign State, the Federal power being without sovereignty itself. Another is that when the Government is administered contrary to the strict letter of the Constitution it is the inherent right and imperative duty of the people to resist the authorities and compel them by force of arms to act constitutionally. The specific purpose of the Order at present is to encourage desertion, to resist the draft, to circulate disloyal documents to give intelligence to the enemy, and aid him by recruiting for his army, and furnishing him with arms and ammunition, and aiding in destroying Government and private property, and the establishment of a Northwestern Confederacy in alliance with the South. Judge Holt professes to have abundant and reliable testimony establishing these facts.

A special despatch from Washington to New York stated that Gen. McClellan had sent his resignation to the War Department on Tuesday night, but an answer was received from the Department on Wednesday morning stating that no such letter had been received by that department.

**GEN. GRANT'S FATHER.**—The Cincinnati Gazette announces that Mr. J. R. Grant, the General's father, was one of the Vice-Presidents of a Lincoln meeting recently held in that city, and was called up by the enthusiastic crowd. He made a few remarks, which, for the noise and his feeble voice, could not be heard, and closed by inviting Cincinnatians to the grand Union meeting in Covington, at which Dr. Breckinridge delivered an address. Gen. Grant's father was an old Henry Clay Whig. So was Gen. Grant, himself, but he did not like Fremont, and refused to support him, and cast his vote for Buchanan in 1856, and Douglas in 1860, while the "old man" voted for Fremont and Lincoln. But father and son will both support the same ticket this fall.

The comments of the Richmond Examiner on our October elections are highly amusing. Its sapient editor confesses to utter disgust of the entire system of popular suffrage. We doubt not he vastly prefers the old Virginia mode, which restricts the right of suffrage to property holders, or even the South Carolina arrangement, by which the choice of President was not enjoyed by the masses at all (black or white), but was vested in the members of the Legislature, always wealthy and aristocratic slaveholding nabobs! They will relish the November vote still less.

The Governors of Virginia, North Carolina, South Carolina, Georgia, Alabama and Mississippi held a meeting in Augusta, Georgia, on the 17th, and passed resolutions which declare that it is necessary that every male person of suitable age, and without regard to color, shall at once be put in the southern armies, and that all details of men as special agents, provost and other guards throughout the country shall be at once called in and placed in the ranks.

It appears to have been climbing over the log, when it fell off and caught by its clothing. PUTNAM MANUFACTURING CO., No. 13 Platt Street, New York, and Cleveland, Ohio. S. C. NORTHROP, Agent.

**WHAT EVERYBODY KNOWS, viz:** That iron well galvanized will not rust; That a simple machine is better than a complicated one;

That a Wringer should be self-adjusting, durable and efficient; That Thumb-Screws, and Fastenings cause delay and trouble to regulate and keep in order; That wood soaked in hot water will swell, shrink and split; That cog-wheels for the shaft to run in will wear out;

That the Putnam Wringer, with or without cog-wheels, will not tear the clothes; That cog-wheel regulators are not essential; That the Putnam Wringer has all the advantages, and not one of the disadvantages above named;

That all who have tested it, pronounce it the best Wringer ever made; That it will wring anything from a thread to a bed quilt without attention;

We might fill the paper with testimonials, but insert only a few to convince the skeptical, if such there be; and we say to all, test Putnam's Wringer.

Test it thoroughly with any and all others, and if not entirely satisfactory, return it to Putnam Manufacturing Co.

## CATAWBA BRANDY,

AND SPARKLING CATAWBA WINES. EQUAL IN QUALITY and Cheaper in price than the Brandy and Wines of the Old World. For Summer Complaint, Cholera Infantum, Bowel Complaint, Champs, Colic and Diarrhoea. A sure cure guaranteed, or the money refunded.

In support of the above statements, are presented the Certificates of Dr. James R. Chittenden, New York; Dr. Hiram Cox, Chemical Inspector, Ohio; Dr. James R. Nichols, Chemist, Boston; Dr. E. N. Jones, Chemical Inspector, Circleville, Ohio; Prof. C. T. Jackson, Chemist, Boston; Dr. Charles Union Shepard, Charleston, S. C.; and J. V. Z. Blaney, and G. A. Mariner, Consulting Chemist, Chicago, all of whom have analyzed the Catawba Brandy, and commend it in the highest terms, for medicinal use.

*Analysis of the Mass. State Assayer.* [1853.] When evaporated through clean linen it left no oil or offensive matter. In every respect it is a pure spirituous liquor. The oil which gives to this Brandy its flavor and aroma, is wholly unlike that of grain oil. Its odor partakes of both the fruit and oil of grapes. With acids it produces ethers of a high fragrance. The substitution of this Brandy for Cognac Brandy will do away with the manufacture of spurious spirits, sold under this name both at home and abroad. Respectfully,

A. A. HAYES, M. D., State Assayer, 16 Boylston-st.

**BY THE SAME, IN 1864.** I have analyzed "L. Lyons' Pure Catawba Brandy," with reference to its composition and character, being the same as that produced in past years. A sample taken from ten casks afforded the same results with regard to purity; a slightly increased amount of the principle on which its flavor depends was determined by comparison with former samples.

The indications of analysis show that this Brandy is produced by the same process as most of the imported Brandy. Respectfully,

A. A. HAYES, M. D., State Assayer, 16 Boylston-st. [Mass.]
