Nobility Plaids,

BY THE SAME, IN 1864. I have analysed "L. LYONS' Pure Catawba Brandy," with reference to its composition and character, being the same as that produced in past years. A sample taken from ten casks afforded the same results with regard to puri-ty; a slightly increased amount of the princi-ple on which its favor depends was determined by comparison with tormer samples.

The indications of analysis show that this Drandy is produced by the same process as how of the imported Brandy.
