By their use the system is kept continually under their use the system is kept continually under the influence of alcoholic stimulants of the worst kind, the desire for liquor is created and kept up, and the result is all the horrors at-tendant upon a drunkard's life and death. No person in a fever and ague district should be without them. From Rev. J. Newton Brown, D. D., Editor of the Encyclopedia of Religious Knowledge.

Although not disposed to favor or recommend Patent Medicines in general, through distrast of their ingredients and effects; I yet know of no sufficient reason why a man may not tes-tify to the benefits he believes himself to have received from any simple preparation, in the hope that he may thus contribute to the bene-

fit of others. I do this more readily in regard to Hoofland's popular preparation contains no mineral of German Bitters, prepared by Dr. C. M. Jackson because I was prejudiced against them for a cry excitant, but it is a combination of the exbecause I was prejunited against them for a number of years, under the impression that they were chiefly an alcoholic mixture. I am indebted to my friend Rob't Shoemaker, esq., for the removal of this prejudice by proper tests, and for encouragement to try them, when suffering from great and long debility. The use of three bottles of these bitters, at the believing of the present year, was followed by ginning of the present year, was followed by evident relief, and restoration to a degree of bodily and mental vigor which I had not felt for six months before, and had almost dispaired of regaining. I therefore thank God and my friend for directing me to the use of them.

U. S. 7-80 LOAN.
The Secretary of the Treasury gives notice that subscriptions will be received for Coupon Treasury Notes, payable three years from August 15th, 1864 with semi arousl interest at the rate of seven and three-tenths per-cent. per annum,—principal and interest both to be paid in lawful money.

These notes will be convertible at the option

of the holder at maturity, into six per cent. gold bearing bonds, payable not less than five nor more than twenty years from their date, as the Government may elect. They will be issued in denominations of \$50, \$100, \$500, \$1.000 and \$5,000, and all subscriptions must be for fifty dollars or some multiple of fifty dollars.

The notes will be transmitted to the owners free of transportation charges as soon after the receipt of the original Certificates of Deposit as they can be prepared

As the notes draw interest from August 15,

persons making deposits subsequent to that date must pay the interest accrued from date of note to date of deposit. Parties depositing twenty-five thousand dollars and upwards for these notes at any one time will be allowed a commission of one quarter of one per cent. which will be paid

by the Treasury Department upon the receipt of a bill for the amount, certified to by the officer with whom the deposit was made. No deductions for commissions must be made from the deposits. Special Advantages of this Loan. It is a National Savings Bank, offering a

higher rate of interest than any other, and the best security. Any savings bank which pays its depositors in U. S. Notes, considers that it country, and it cannot pay in anything better, for its own assets are either in government se-curities or in notes or bonds payable in government paper. It is equally convenient as a temporary or

permanent investment. The notes can always be sold for within a fraction of their face and accumulated interest, and are the best security with banks as colaterals for discounts.

Convertable into a Six per cent, 5-20 Gold Bond.

In addition to the very liberal interest on the iotes for three years, this privilege of conversnotes for three years, this privilege of conversion is now worth about 3 per cent. per annum, for the current rate for 5-20 Bonds is not less than 9 per cent. premium, and before the war the premium on 6 per cent. U. S. Stocks was over 20 per cent. It will be seen that the actual profit on this loan, at the present markets are the second of the secon ket rate, is not less than ten per cent. per an-

num. Its exemption From State or Municipal Taxation. But aside from all the advantages we have enumerated, a special Act of Congress exempts all Bonds and Treasury Notes from local tax-ation. On the average, this exemption is worth about two per cent. per annum, accord-

ing to the rate of taxation in various parts of he country.

It is believed that no securities offer so great inducements to lenders as those issued by government. In all other forms of indebtedness, the faith or ability of private parties, or stock companies, or seperate communities, on-ly, is pledged for payment, while the whole property of the country is held to secure the discharge of all the obligations of the United

States.

While the government offers the most liberal terms for its luans, it believes that the very strongest appeal will be to the loyalty and patriotism of the people. Duplicate certificates will be issued for all

Augustate certificates will be issued for all deposits. The purty depositing must endorse upon the original certificate the decomination of notes required, and whether they are to be issued in blank or payable to order. When so endorsed it must be left with the officer receiving the deposit, to be forwarded to the Treasury Department. Treasury Department.

Supscriptions will be received by the Treasurer of the United States, at Washington, the several Assistant Treasurers and designated Depositaries, and by the First National Bank of Marietta,

S. C. NORTHROP, Agent. WHAT EVERYBODY KNOWS, viz:

That Iron well galvanized will not rust; That a simple machine is better than a com-

olicated one: That a Wringer should be self-adjusting, durable, and efficient; That Thumb-Screws, and Fastenings cause delay and trouble to regulate and keep in order; That wood soaked in hot water will swell,

shrink and split;
That wood bearings for the shaft to run in will wear out;
That the Putnam Wringer, with or without

That the Futuam Wringer, and the cookies;
That cog-wheel regulators are not essential;
That the Putuam Wringer has all the ad-

vantages, and not one of the disadvantages above named; That all who have tested it, pronounce it the best Wringer ever made;
That it will wring anything from a thread to a bed quilt without alteration;
We might fill the paper with testimonials, but insert only a few to convince the skeptical; if such there be; and we say to all, test Puttanna Wringer.

Putnam's Wringer.
Test it thoroughly with any and ALL others, and if not entirely satisfactory, return it.
