of the holder at maturity, into six per cent. gold bearing bonds, payable not less than five nor more than twenty years from their date, as the Government may elect. They will be issued in denominations of \$50, \$100, \$500, \$1,000 and \$5,000, and all subscriptions must be for fifty dollars or some multiple of fifty

notes will be transmitted to the owners free of transportation charges as soon after the receipt of the original Certificates of De-

posit as they can be prepared

As the notes draw interest from August 15, persons making deposits subsequent to that date must pay the interest accrued from date of note to date of deposit.

Parties depositing twenty-five thousand dol-lars and upwards for these notes at any one time will be allowed a commission of one quarter of one per cent. which will be paid by the Treasury Dapartment upon the receipt the Treasury Department upon the receipt a bill for the amount, certified to by the officer with whom the deposit was made. No deductions for commissions must be made

Special Advantages of this Loan. It is a National Savings Bank, offering a higher rate of interest than any other, and the best security. Any savings bank which pays its depositors in U. S. Notes, considers that it is payinn best circulating medium of the country, and it cannot pay in anything better, for its own assets are either in government securities or in notes or bonds payable in govern-

ment paper.
It is equally convenient as a temporary or permanent investment. The notes can always be sold for within a fraction of their face and accumulated interest, and are the best security with banks as colaterals for discounts. Convertable into a Six per cent, 5-20 Gold

Bond. In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth, about 3 per cent. per annum, for the current rate for 5-20 Bonds is not less than 9 per cent. premium, and before the war the premium on 6 per cent. U. S. Stocks was over 20 per cent. It will be seen that the actual profit on this loan, at the present market rate, is not less than ten per cent. per analysis. num. Its exemption

From State or Municipal Taxation. But aside from all the advantages we have enumerated, a special Act of Congress exempts all Bonds and Treasury Notes from local taxall Bonds and Treasury Notes from local tax-ation. On the average, this exemption is worth about two per cent. per annum, accord-ing to the rate of taxation in various parts of the country.

It is believed that no securities offer so great

inducements to lenders as those issued by the government. In all other forms of indebtedness, the faith or ability of private parties, or stock companies, or seperate communities, on-ly, is pledged for payment, while the whole property of the country is held to secure the discharge of all the obligations of the United States

While the government offers the most liberal terms for its loans, it believes that the very strongest appeal will be to the loyalty; and patriotism of the people.

Duplicate certificates will be issued for all

deposits. The party depositing must endorse upon the original certificate the decomination of notes required, and whether they are to be issued in blank or payable to order. When so endorsed it must be left with the officer receiving the deposit, to be forwarded to the

Treasury Department.
Supscriptions will be received by the Treasurer of the United States, at Washington, the several Assistant Treasurers and designated Depositaries, and by the

First National Bank of Marietta, and by all National Banks which are deposi-taries of public money, and all respectable BANKS AND BANKERS

throughout the country will give further information and afford every facility to subscribers.

In many affections peculiar to females the Extract Buchu is uncaqualed by any other remedy, as in Chlorosis or Retention, Irregularity, Painfulness or suppression of customary evacuations, Ulcerated or Scirrhous state of the Uterus, Leuchorrhoea or Whites, Sternlitz, and for all complaints incident to the rility, and for all complaints incident to sex, whether arising from indiscretion, habits of dissipation, or in the decline or change of life. The war, which has toppled down whatever is shallow and baseless, has written no wrinkle on the bright ægis of our success. Our features for the issue of 1865 shake the pillars of whatever has heretofore been deemed im-perial in serial literature. Both sides of the Atlantic render us tribute. We shall continue the thrilling romances of Miss M. E. Bradon, necromancer of the strong dark passions, to whom we pay more money annually than the entire capital of our imitators, and add to our American staff the champion jester of the can and bells, Josh Billings, who will commence with the first of January a series of his well-known inimitable comic papers, written expressly for us, in his irresistably convulsive vein.
