U.S.7-30 LOAN.

The Secretary of the Treasury gives notice that subscriptions will be received for Coupon Treasury Notes, payable three years from August 15th, 1864 with semi-annual interest at the rate of seven and three-tenths per-cent. per annum,—principal and interest both to be paid in lawful money. These notes will be convertible at the option

of the holder at maturity, into six per cent. gold bearing bonds, payable not less than five nor more than twenty years from their date, as the Government may elect. They will be issued in denominations of \$50, \$100, \$500, \$1,000 and \$5,000, and sall subscriptions must be for fifty dollars or some multiple of fifty

dollars.

The notes will be transmitted to the owners free of transportation, charges as soon after the receipt of the original Certificates of De-

posit as they can be prepared As the notes draw interest from August 15, persons making deposits subsequent to that date must pay the interest accrued from date of note to date of deposit.

Parties depositing twenty-five thousand dollars and upwards for these notes, at any one time will be allowed a commission of one quarter of one per cent. which will be paid by the Treasury Department upon the receipt of a bill for the amount, certified to by the officer with whom the deposit was made. No from the deposits.

Special Advantages of this Loan. It is a National Savings Bank, offering a higher rate of interest than any other, and the best security. Any savings bank which pays its depositors in U. S. Notes, considers that it is payinn best circulating medium of the country, and it cannot pay in anything better, for its own assets are either in government securities or in notes or bonds payable in government.

ment paper.

It is equally convenient as a temporary or permanent investment. The notes can always be sold for within a fraction of their face and accumulated interest, and are the best security with banks as colaterals for discounts. Convertable into a Six per cent, 5-20 Gold

Bond. In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about 3 per cent. per annum; for the current rate for 5-20 Bonds is not

num; for the current rate for 0-20 bonus is not less than 9 per cent. premium, and before the war the premium on 6 per cent. U. S. Stocks was over 20 per cent. It will be seen that the actual profit on this loan, at the present market rate, is not less than ten per cent. per annum. Its exemption From State or Municipal Taxation.

But aside from all the advantages we have But aside from all the advantages we have enumerated, a special Act of Congress exempts all Bonds and Treasury Notes from local taxation. On the average, this exemption is worth about two per cent. per annum, according to the rate of taxation in various parts of the country.

At is believed that no securities offer so great inducements to lenders as those issued by the government. In all other forms of indebtedness, the fatth or ability of private parties, or stock companies, or severate communities on

ness, the faith or ability of private parties; or stock companies, or seperate communities, only, is pledged for payment, while the whole property of the country is held to secure the discharge of all the obligations of the United Central

I'do this more readily in regard to Hoofland's German Bitters, prepared by Dr. C. M. I am indebted to my friend Rob't Shoemaker, esq., for the removal of this prejudice by proper tests, and for encouragement to try them, when suffering from great and long debility. The use of three bottles of these bitters, at the beginning of the present year, was followed by ginning of the present year, was followed by evident relief, and restoration to a degree of bodily and mental vigor which I had not felt for six months before, and had aimost dispaired of regaining. I therefore thank God and my friend for directing me to the use of them.
