No Wood-work to Swell or Split. No Thumb-screws to get out of order. Warranted with or with-out Cog-Wheels. It took the First Premium at Fifty-seven State and County Fairs in 1864, and is, with-out an exception, the best Wringer ever made. Patented in the United States, England, Canada, and Australia. Agents wanted in very town. norgetic agents can make from 3 to 10

Dollars per day. WHAT EVERYBODY KNOWS, viz: That Iron well galvanized will not rust; That a simple machine is better than a com-

plicated one;
That a Wringer should be self-adjusting, durable, and efficient;
That Thumb-Nerews, and Fastenings cause delay and to ouble to regulate and keep in order;
That wood soaked in hot water will swell,
shrink and split;
That wood bearings for the shaft to run in

will wear out;
That the Putnam Wringer, with or without cog: wheels, will not tear the clothes;
That cog-wheel regulators are not essential;
That the Putnam Wringer has all the advantages, and not one of the disadvantages

above named: That all will have tested it, pronounce it the best Wringer ever made;
That it will wring anything from a thread to a bed quilt without alteration;
We might fill the paper with testimonials,

but insert only a few to convince the skepti-cal, if such there be; and we say to all, test Putnam's Wringer.
