HORRIBLE SUFFERING:—The last lot of exchanged prisoners that landed at Annapolis bring some of the most heart-rending accounts of the sufferings of those of our men who are still in Libby Prison. Previous to the arrival of the stock of blankets sent by General Grant they suffered most from the cold. Many of them are destitute of shoes, socks, or under-clothing. Some thirty-six died on a single day, and were carried to the dead house in the morning. Wasted to skeletons from want of food, they could not endure the cold. But eighteen officers and some three thousand men being left there, this mortality was one and a quarter per cent. of the whole number in a single night. When remonstrated with for such cruelty the authorities replied, "If your government does not like this why does it not exchange you? We are willing." The poor starving souls could make no answer. One hundred and sixty of them who had been there the longest time had been induced by the offer of double rations to go out of the prison by day and work at mending shoes and clothing for the rebel army.

The United States Christian Commission, last week, proposed to the rebel authorities to send Bishops McIlvaine, Jayne, and Lee, and Horatio Jones, of Philadelphia, to visit all the rebel prisons and ascertain the condition of the Union prisoners. General Grant forwarded the application to General Lee, with his approval, endorsed and giving permission for an equal number of clergymen and other civilians from the South to visit the military prisons in the North on a like errand. These visits, General Grant added, would do much to relieve the anxiety in the public mind on both sides, caused by exaggerations or misrepresentations as to the treatment of prisoners. Yesterday a reply was received from the rebel Government, through Commissioner Ould, declining to permit the visit of the Bishops as "inexpedient."

The New York Ledger contains a sketch of Mr. Everett's life, from the pen of the great historian, the Hon. George Bancroft, written expressly for the Ledger. Mr. Bancroft was Mr. Everett's life-long friend, and for that reason Mr. Bonner requested him to write this sketch. The fourth page of the Ledger—the page on which Mr. Everett's articles were usually printed—is in mourning, and the entire contents of that page devoted to the memory of the departed statesman.

We notice that some of the New York papers are giving circulation to a rumor to the effect that Maj. Gen. Meade is to be removed from command of the Army of the Potomac. The report is entirely without foundation, and does great injustice to an officer who has attained his present position by constant service in the field, and whose name is historical as leader in our most important victory and identified with most of the battles of the army which he now commands.

Daniel Webster was born January 18, 1782, and died October 24, 1852, aged 70 years, 9 months and 6 days; Edward Everett was born April 11, 1794, and died January 15, 1865, aged 70 years, 9 months and 4 days. The difference between their ages at the time of their death was therefore only two days.

The first decision of Chief Justice Chase, in the Supreme Court of the United States, was that West Virginia is legally a State. The decision was given on the question placing the name of that State on the list when calling the docket.

A colored lawyer named J. S. Rock, of Massachusetts, was on Wednesday last, admitted on motion of Hon. Charles Sumner, to practice in the Supreme Court of the United States.

Among those who have been banished from the South for entertaining loyal sentiments, is a grandson of General Israel Putnam, renowned in the Revolutionary war. He is now living in Philadelphia.

There is much speculation as to who is to succeed Mr. Fessenden as Secretary of the Treasury. The indications point most strongly to the appointment of Hon. Robert J. Walker.

Two medical students got into a quarrel about negroes riding in the cars at the Continental Hotel, Philadelphia, yesterday, when one deliberately fired a pistol at the other, but without effect.

RESULT OF THE BLAIR MISSION:—The result of old Frank Blair's volunteer visits to Richmond is this: That Jefferson Davis is willing to waive formalities and send to Washington or receive from these commissioners a treaty of peace upon the basis of separation. The President of the United States on the other hand is willing to give a hearing to any person of influence who may come from the States in rebellion, with or without Davis' authority, to treat for peace on the basis of submission to the laws and government of the U. States.

The last mission of Blair we hope will end this farce of sending peace negotiations to Richmond. The only road to real and substantial peace is the destruction of the confederate government, and the dispersion of its armies. For this work Grant, Sherman, Sheridan and their gallant armies are the only effective Commissioners.

The Anti-Slavery Constitutional amendment passed the lower house on Tuesday last by a two-third vote. Slavery, the curse of American civilization, the cause of the war, the victim of the war, is now not only abolished by military necessity, but prohibited by law. The passage of the joint resolution of the House, submitting to the Legislatures of the States the amendment to the Constitution forbidding slavery within the limits of the nation, is equivalent to its adoption. Three-fourths of the Legislatures will vote for the amendment, and in this year of 1865 will be completed the formal regeneration of the Republic. In these simple words America has written her repentance for the past and her solemn pledge for the future:

Neither slavery nor involuntary servitude, except as a punishment for crime whereof the party shall have been duly convicted, shall exist within the United States, or any place subject to their jurisdiction. Congress shall have power to enforce this article by appropriate legislation.

It is expected that post office cars of the latest improved style, will be placed upon the Pennsylvania Railroad about the first of February. The cars are nearly completed. They will prove a great convenience to the public, as letters can be mailed at a later hour than under the old arrangement.

S. B. Davis, identified at Newark, Ohio, some days since, as the keeper of the Andersonville (Georgia) military prison, and who confessed, on his arrest, to being a bearer of despatches from Richmond to Canada, has been sentenced to be hung at Johnson's Island on the 17th of February.

The one and two-dollar notes to be issued by the Treasury Department to the national banks will soon be delivered by the treasury.

Every deserter from our armies, or those who fled from their homes to avoid the draft, will be forever disenfranchised.

Special Notices.

SPECIAL NOTICE.—Prospectus and Report of the Committee sent to West Virginia, to examine and select lands for "The West Virginia National Petroleum Association," (an Oil enterprise on new principles) can be had by addressing the undersigned, James Lynd, esq., No. 57 South Sixth street, Philadelphia, or publisher of this paper, or J. C. Webster, No. 50 North Fifth street, Philadelphia, authorized Agent to receive all subscriptions from this county, to above association.

Subscription price for the present, \$1 per share, fully paid up. Subscriptions for 100 shares or less, cash at the time of subscribing, and over this number of shares 3-5th on the whole amount—balance in two separate instalments. Subscribers are notified that the third instalment is now payable.

Report.—The Committee appointed to visit and examine the lands for the Association, made their report at a general meeting of the Association, held at No. 57 South Sixth street, Philadelphia, January 30, 1865, that they had visited, carefully examined and selected three separate tracts, comprising in all 6,492 acres, at a cost of from \$55 to \$83 per acre—making an average of \$65.13 per acre. These prices are much below those usually paid for Oil Lands in West Virginia, owing to the fact that the committee have personally visited the locations, and purchased from bona fide owners, thus saving the large profit that is generally placed on lands by agents before selling to Companies.

The whole of these lands have been selected by the committee as first-class Oil Territory, having in view an easy access to market, so necessary for their early development. We believe that no property is better situated or has more reliable indications of an abundance of oil.

Some of these tracts are well improved farms, and all contain fine timber in large quantities. They are situated on what is called "Oil Break," or Great Upheaval, and are well intersected by streams and ravines.

Oil has been found within a short distance of the most of these localities, so that the committee are satisfied from personal examination, that they believe all the tracts now presented will yield oil in paying quantities.

The committee would further report that they have arranged to purchase all these tracts in fee-simple, clear of incumbrance.

Yours, Respectfully, Mahlon Gillingham, Jos. T. Rowand, Wm. H. Ackley, Wm. Griffiths, Matthew I. Brady, D. McCleary, J. H. Wheeler. Philadelphia, February 4, 1865.

REEVES' Original, Genuine and RELIABLE AMBROSIA For the Growth, Beauty and Preservation OF THE HAIR. [ESTABLISHED 1860.] Price 75 Cents Per Bottle.

Mrs. L. M. Neil—hair five feet in length—using the Ambrosia 18 months.

MRS. WALLACE E. MAXWELL. Her hair is four feet and ten inches in length—the result of using Reeves' Ambrosia about two years.

These photographs taken from life, have been awarded to extend the knowledge of the merits of this wonderful discovery. Hundreds have seen these ladies and heard the facts from their own lips.

Mrs. Maxwell's Testimonial. New-York, December 23, 1863. Knowing positively that Reeves' Ambrosia produced a beautiful head of hair for Mrs. Lizzy Schreyer of Brooklyn, New-York, I was induced, thereby, to use it thoroughly. I needed something for my hair, it being short and thin; I had used one half-dozen bottles when I could plainly notice an increase in its length, strength and beauty. An expert of about two years. No charges made for examination. My hair is now, by measurement, four feet ten inches in length, reaching nearly to the floor. I have allowed my photograph to proclaim the merits of REEVES' AMBROSIA to the WORLD.

Mrs. WALLACE E. MAXWELL. All enterprising Druggists have these Photographs and keep for sale REEVES' AMBROSIA AT 75 CENTS PER BOTTLE. Druggists who may not have our preparation, will send for it—if applied.

LYONS' PURE OHIO CATAWBA BRANDY, AND SPARKLING CATAWBA WINES. EQUAL IN QUALITY and Cheaper in price than the Brandy and Wines of the Old World.

For Summer Complaint, Cholera Infantum, Bowel Complaint, Cramp, Colic and Diarrhoea. A sure cure guaranteed, or the money refunded.

In support of the above statements, are presented the Certificates of Dr. James R. Chitt-on, New-York; Dr. Hiram Cox, Chemical Inspector, Ohio; Dr. James B. Nichols, Chemist, Boston; Dr. E. N. Jones, Chemical Inspector, Circleville, Ohio; Prof. C. T. Jackson, Chemist, Charleston, S. C.; and J. V. Z. Blaney, and G. A. Mariner, Consulting Chemist, Chicago, all of whom have analyzed the Catawba Brandy, and commend it in the highest terms, for medicinal use.

Analysis of the Mass. State Assayer. [1858.] When evaporated through clean linen it left no oil or offensive matter. In every respect it is a pure spirituous liquor. The oil which gives to this Brandy its flavor and aroma, is wholly unlike flax or grain oil. Its odor parts with both the fruit and oil of grapes. With acids it produces ethers of a high fragrance. The substitution of this Brandy for Cognac Brandy will do away with the manufacture of spurious spirits sold under this name both at home and abroad. Respectfully, A. A. HAYES, M. D., State Assayer, 16 Boylston-st. Boston, July 30, 1864. [Mass.]

By the same, in 1864. I have analysed "L. LYONS' Pure Ohio Brandy," with reference to its composition and character, being the same as that produced in past years. A sample taken from ten casks afforded the same results with regard to purity; a slightly increased amount of the principle on which its flavor depends was determined by comparison with former samples. The indications of analysis show that this Brandy is produced by the same process as most of the imported Brandy. Respectfully, A. A. HAYES, M. D., State Assayer, 16 Boylston-st. Boston, July 30, 1864. [Mass.]

PUTNAM'S CLOTHES WRINGER. It is the only reliable self-adjusting Wringer.

No WOOD-WORK TO SWELL OR SHRINK. No Thumb-screws to get out of order. Warranted with or without Cog-Wheels. It took the First Premium at Fifty-seven State and County Fairs in 1864, and is, without an exception, the best Wringer ever made. Patented in the United States, England, Canada, and Australia. Agents wanted in every town.

WHAT EVERYBODY KNOWS, viz: That iron well galvanized will not rust; That a simple machine is better than a complicated one; That a Wringer should be self-adjusting, durable and efficient; That Thumb-Screws, and Fastenings cause delay and trouble to regulate and keep in order; That wood soaked in hot water will swell, shrink and split; That wood bearings for the shaft to run in will wear out; That the Putnam Wringer, with or without cog-wheels, will not tear the clothes; That cog-wheel regulators are not essential; That the Putnam Wringer has all the advantages, and not one of the disadvantages above named; That all who have tested it, pronounce it the best Wringer ever made; That it will wring anything from a thread to a 600 quilt without alteration; We might fill the paper with testimonials, but insert only a few to convince the skeptical. If such there be; and we say to all, Test Putnam's Wringer. Test it thoroughly with any and all others, and if not entirely satisfactory, return it. Putnam Manufacturing Co. GENTLEMEN: I know from practical experience that iron well galvanized with zinc will not oxidize or rust one particle. The Putnam Wringer is as near perfect as possible, and I can truly and confidently recommend it to be the best in use. Respectfully yours, J. W. WHEELER, Cleveland, Ohio.

Many years' experience in the galvanizing business enable me to indorse the above statements in all particular. J. W. WHEELER, 100 Beckman St. New York, January, 1864.

We have tested Putnam's Clothes Wringer by practical working, and know that it will do. It is cheap; it is simple; it requires no room, whether at work or at rest; a child can operate it; it does its duty thoroughly; it saves time and it saves wear and tear. We earnestly advise all who have much washing to do, with all intelligent persons who have any, to buy this Wringer. It will pay for itself in a year at most.

PRICES—\$8, \$9, and \$10. Sample Wringer sent and express paid on receipt of price. Manufactured and sold, wholesale and retail, by the PUTNAM MANUFACTURING CO., No. 13 Platt Street, New York; Bennington, Vermont; Cleveland, Ohio. [May 28, '64.]
