Special Advantages of this Loan. It is a National Savings Bank, offering higher rate of interest than any other, and the best security.

Any savings bank which pays its depositors in U.S. Notes, considers that it is payinn best circulating medium of the country, and it cannot pay in anything better, for its own assets are either in government securities or in notes or bonds payable in govern-

ment paper.

It is equally convenient as a temporary of permanent investment. The notes can always be sold for within a fraction of their face and accumulated interest, and are the best security with banks as colaterals for discounts. Convertable into a Six per cent, 5-20 Gold

Bond.In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about 3 per cent. per annum, for the current rate for 5-20 Bonds is not less than 9 per cent. premium, and before the war the premium on 6 per cent. U. S. Stocks was over 20 per cent. It will be seen that the actual profit on this loan, at the present mar-ket rate, is not less than ten per cent. per annum. Its exemption

From State or Municipal Taxation. But aside from all the advantages we have enumerated, a special Act of Congress exempts all Bonds and Treasury Notes from local taxation. On the average, this exemption is worth about two per cent. per annum, accord-ing to the rate of taxation in various parts of

ne country. It is believed that no securities offer so great inducements to lenders as those issued by the government. In all other forms of indebted government. In all other tonic or independences, the faith or ability of private parties, or atock companies, or seperate communities, only, is pledged for payment, while the whole property of the country is held to secure the discharge of all the obligations of the United

Nothing that is not wholesome, genial and restorative in its nature enters into the composition of Hostetter's Stomach Bitters. This popular preparation contains no mineral of any kind, no deadly butanical element; no fiery excitant, but it is a combination of the extract of rare halesmic herbs and ulants with tracts of rare balsamic herbs and plants with the purest and mildest of all diffusive stimu-

Fever and Ague patients, after being plied with quinine for months in vain, until fairly satu rated with that dangerous alkaloid, are not unfrequently estored to health within a few daysby the use

of Hostetter's Bitters.

The weak stomach is rapidly invigorated and the appetite restored by this agreeable to-nic, and hence it works wonders in cases of Dyspepsia and in less confirmed forms of Indigestion. Acting as a gentle and painless apperient, as well as upon the liver, it also invariably relieves the Constipation superinduced by irregular action of the digestive and secretive organs. Persons of feeble habit, liable to neryous attacks, lowness of spirits and fits of lan-gour, find prompt and permanent relief from the Bitters. The testimony on this point is

Although not disposed to favor or recommend Patent Medicines in general, through distrast of their ingredients and effects; I yet know of no sufficient reason why a man may not tes-tify to the benefits he believes himself to have received from any simple preparation, in the hope that he may thus contribute to the benefit of others.

I do this more readily in regard to Hoofland's German Bitters, prepared by Dr. C. M. I am indebted to my friend Rob't Shoemaker, esq., for the removal of this prejudice by proper tests, and for encouragement to try them, when suffering from great and long debility. The use of three bottles of these bitters, at the be-ginning of the present year, was followed by gining of the present year, was followed by evident relief, and restoration to a degree of bodily and mental vigor which I had not felt for six months before, and had almost dispaired of regaining. I therefore thank God and my friend for directing me to the use of them.
