The recent appointment of Jay Cooke to dispose of the Seven Thirty. United States loan is already producing most gratifying fruits. The Philadelphia Inquirer says Mr. Cooke has not yet had time to fully organize his agencies, but his success in obtaining subscriptions has been truly remarkable, Mr. Cooke has energy, great experience, and possesses the confidence of the citizens of all parts of the country. The Government has done a wise thing in placing the negotiation of this loan in his hands, and the national treasury will be benefited to a degree which will gladden the heart of every patriotic citizen." The New York Daily Tribune says, a friend writing to us from Philadelphia, says: "I saw this afternoon many, very many working man and women in their working clothes, bring in to Jay Cooke's office their little savings of \$50 and \$100 and buy the \$50 and \$100 7.30 bonds. I)on't let anybody hereafter talk to me about the permanency of a Government in whose permanency the working clases are depositors! Unshakable and eternal is the State which is in debt to those of its citizens who depend upon their daily labor for their daily bread."

Generals Crook and Kelley and a Captain Theyer were captured in Cumberland, Md., on the morning of the 21st, by a party of rebels, and carried off prisoners. When it is considered that there are several thousand troops there, and these officers were sleeping at hotels in the town, the military discipline observed may be imagined, These negligents deserve, their captivity, and we do not think that the service will suffer in the least by it. The government has, within the past two or three weeks, pretty nearly accomplished the work of repossessing the United States property which was taken from it by the secessionists in 1861. One after another the forts, custom houses and navy yards have come back into our hands, until there remains very little indeed to be taken.

The inauguration of President Lincoln passed off in Washington, on Saturday last, very grandly-said to have been the grandest one since the formation of the Republic. A vagabond named Clements was arrested for threatening to assassinate the President -all else was quiet and peaceful term

A man was found sleeping on the sidewalk in New York, on Saturday night, and was taken to the police station. He had nothing on but a shirt, and his that he had gone comfortably to bed.

The will of the late James W. Wallack has been admitted to probate in the Surrogate's Court in New York. It divides his estate between his sons John Lester Wallack, the actor, and Capt. Henry Wallack, of the British army, the theatre being included in the portion of the former.

The North Bridgewater Gazette tells of a man in Freetown, who, when a member of his family dies procures a gravestone for the deceased, which, instead of being erected by the grave, is kept in his house. His father died about fifty years ago, one sister about forty years. and another more than thirty years since. and the grave stones for them all are still in his house.

The General had doubtless drop: ped these letters slyly from his pocket that the pursuers might know the direction the rebels were taking.

The value of the Mariposa estate, for merly Gen. Fremont's estate, is returned to the Internal Revenue Assessors, by the company now owners, at \$427,-000. The Assessor thinks it should be rated at \$3,000,000.

Major General Carl Schurz has been assigned to a command in Hancock's Corps, and will command a division when it is raised. He will in a few days proceed to inspect the system of recruiting for that corps in the west,

The Richmond Enquirer relates that the rebel expedition for the release of the prisoners on Johnson's Island was organized through the "Help" column of the New York Herald, and that the capture of the Chesapeake was planned through the same medium. Evidently the "Personals" of the New York News were not suppressed too soon. The freedmen in Louisiana, in charge of Thomas W. When the rebel Senator Foote was at Winchester under guard, he spoke very freely concerning matters in the confederacy. He said there were several members of Congress, and a large majority of the southern people, who thought Jeff. Report :- The Committee appointed to visit and examine the lands for the Association, made their report at a general meeting of the Association, held at No. 52 South Sixth street, Philadelphia, January 3d, 1865, that they had visited; carefully examined and selected - bixteen seperate tracts, comprising in all 6,4921 acres, at a cost of from \$35 to \$83 per acremaking an average of \$55.13 per acre. These prices are much below those usually paid for Oil Lands in West Virginia, owing to the fact locations, and purchased from bona fide, owners; thus saving the large profit that is generally placed on lands by agents before selling to Companies. The whole of these lands have been select-

ed by the committee as first-class Oil Territo-HAUKE FOREMANS & CO., Sail. so necessary for their early developement .-We believe that no property is better situated or has more reliable indications of an abund-

ance of oil. Some of these tracts are well improved farms, and all contain fine timber in large mantities. They are situated on what is called "OIL BREAK," or Great Upheaval, and are well intersected by streams and ravines.

Oil has been found within a short distance of the most of these localities, so that the committee are satisfied from personal examination, that they believe all the tracts now presented will yield oil in paying quantities. The committee would further report that they have a) ranged to purchase all these tracts in fee-simple, clear of incumbrance.
