

On our first page will be found a very interesting letter from William T. Strachan, formerly of this borough, but now of New Mexico, and a member of the New Mexico legislature. We can assure our friend that "The Mariettian" is regularly mailed to him every Saturday morning, and its non-receipt is no fault of ours. We shall be glad to hear from W. T. S. at any time.

U. S. 7-30 Loan. The sale of the second series of THREE HUNDRED MILLIONS, payable three years from the 15th day of June 1865, was begun on the first of April. In the very short space of 30 days over ONE HUNDRED MILLIONS of this series have been sold—leaving this day less than Two Hundred Millions to be disposed of. The interest is payable semi-annually in currency, on the 15th of December and 15th of June, by coupons attached to each note, which are readily cashed anywhere. It amounts to One cent per day on a \$50 note, Two cents " " " \$100 " " " " " \$200 " " " " " \$500 " " " " " \$1000 " " " " " \$5000 " " " " " " " " MORE AND MORE DESIRABLE.

The Rebellion is suppressed and the Government has already adopted measures to reduce expenditures as rapidly as possible to a peace footing, thus withdrawing from market as borrower and purchaser. This is the only Loan in Market now offered by the Government, and constitutes The Great Popular Loan of the People. The 7-30 Notes are convertible on their maturity, at the option of the holder, into U. S. 5-20 SIX PER CENT. GOLD BEARING BONDS. WHICH ARE ALWAYS WORTH A PREMIUM. FREE FROM TAXATION. The 7-30 Notes cannot be taxed by Towns, Cities, Counties or States, and the interest is not taxed unless on a surplus of the owner's income exceeding \$600 a-year. This fact increases their value from one to three per cent. per annum, according to the rate levied on other property.

Second—The bristles are inserted in the wood, or body of the brush, when green, which when dry, causes them to be held firmly in their place; any subsequent soaking or shrinkage fails to affect them. Third—They are made of British exclusive-ly, many kinds being composed, in part, of wool. Fourth—They contain more bristles for the size, and are as cheap as the ordinary kind. AGRICULTURAL CHEMICAL COMPANY'S Cheap Fertilizers. THE FERTILIZERS prepared by the Agricultural Chemical Company, [a company chartered by the legislature of Pennsylvania with a capital of \$250,000] have been proved in practice to be the cheapest, most profitable and best, for the Farmer, Gardener and Fruit Grower, of all concentrated manures now offered in any market. The Company's list embraces the following: PABLETTE. This Fertilizer is composed of night soil and the fertilizing elements of urine combined, chemically and mechanically with other valuable fertilizing agents and absorbents. It is reduced to a pulverized condition, ready for immediate use, and without loss of its highly nutritious fertilizing properties. Its universal application to all crops and soils, and its durability and active qualities, are well known to be all that agriculturists can desire. CHEMICAL COMPOST. This Fertilizer is largely composed of animal matter, such as meat, bone, fish, leather, hair and wool, together with chemicals and inorganic fertilizers, which decompose the mass, and retain the nitrogenous elements. It is a very valuable fertilizer for field crops generally, and especially for potatoes, and garden purposes. Its excellent qualities, strength and cheapness, have made it very popular with all who have used it. COMPOST FERTILIZER. This highly phosphatic fertilizer, is particularly adapted for the cultivation of Trees, Fruit, Lawns and Flowers. It will promote a very vigorous and healthy growth of wood and fruit, and largely increase the quantity and perfect the maturity of the fruit. For household and household plants and flowers, it will be found an indispensable article to secure their greatest perfection. It will prevent and cure diseased conditions of the peach and grape, and is excellent for grass and lawns. It is composed of such elements as make it adapted to the growth of all kinds of crops in all kinds of soils. The formula or method of combining its constituent fertilizing ingredients have received the highest approval of eminent chemists and scientific agriculturists. PHOSPHATE OF LIME. The Agricultural Chemical Company manufactures a Phosphate of Lime in accordance with a new and valuable formula, by which a very superior article is produced, so far as to be afforded at a less price than other manufacturers charge. Practical tests have proved that its value, as a fertilizer, is equal to the best Phosphate of Lime in the market.
