AGRICULTURAL CHEMICAL COMPANY'S Cheap Fertilizers.

THE FERTILIZERS prepared by the Agricultural Chemical Company, [ a com-pany chartered by the legislature of Pennsy]vania with a capital of \$250,000,] have been proved in practice to be the cheapest, most profitable and best, for the Farmer, Gardener

and Fruit Grower, of all concentrated ma-nures now offered in any market. The Company's list embraces the following : PABULETTE. This Fertilizer is composed

of night soil and the fertilizing elements of urine combined, chemically and mechanically with other valuable fertilizing agents and absorbents. It is reduced to a pulverized condition, rea-

It is reduced to a pulverized condition, rea-dy for immediate use, and without loss of its highly nitregenous fertilizing properties. Its universal application to all crops and soils, and its durability and active qualities, are well known to be all that agriculturists can disire.

Can distre. CHEMICAL COMPOST. This Fertilizer is largely composed of animal matter, such as meat, bone, fish, leather, hair and wool, together with chemicals and inorganic forthlizers, which decompose the mass, and re-tain the nitrogenous elements. It is a very valuable fortilizer for field crops

generally, and especially for potatoes, and

garden purposes. Its excellent qualities, strength and cheapness, have made it very popular with all who have used it.

COMPOSITE FERTILIZER. This high-by phosphatic fertilizer, is particulurly adapted for the cultivation of Trees, Fruits, Lawns and Flowers. It will promote a very vigorous and healthy growth of wood and fruit, and largely increase the quantity and perfect the maturity of the fruit. For hot-house and household plants and flowers, it will be found an indispensable article to se-cure their greatest perfection. It will prevent and cure diseased conditions of the peach and grape, and is excellent for grass and lawns. It is composed of such elements as make it adapted to the growth of all kinds of crops in

all kinds of soils. The formula or method of combining its constituent fertilizing ingredients have re-ceived the highest approval of eminent chem-ists and scientific agriculturists.

PHOSPHATE OF LIME. The Agricultu-ral Chemical Company manufacture a Phosphate of Lime in accordance with a new and valuable formula, by which a very supe-tior article is produced, so far as to be afforded at a less price than other manufacturers charge. Practical tests have proved that its value, as fertilizer, is equal to the best Phosphate o Lime in the market.

## AN IMPROVED LANTERN.

THIS is the most desirable Lantern in the market. It burns Coal Oil without a market. It burns Coal Oil without Chimney, emitting neither smoke nor smell. It gives a pure white light. It stands quick motions in any direction. The flame is regulated from the outside. It is near and compact in form and size. It is free from solder in the upper parts, and is otherwise very substantial in its structure. *PRICE, ONE DOLLAR.* For sale at JOHN SPANGLER'S
