U. S. 7-30 LOAN!

THIRD SERIES, \$230 000 000.

By Authority of the Secretary of the Treasury, the undersigned, the General Subscription Agent for the sale of United States Securities, offers to the public the third series of TREASURY NOTES, bearing Seven-and-Three-Tenths per centum interest per annum, known as the

7-30 Loan.

These Notes are issued under date of July 15, 1865, and are payable three years from that date, in currency, or are convertible at the option of the holder into

U. S. 5-20 SIX PER CENT. GOLD BEARING BONDS.

These Bonds are now worth a handsome premium, and are exempt, as are all the Government Bonds, from State, County, and Municipal taxation, which adds from one to three per cent. per annum in their value, according to the rate levied on other property. The interest is payable semi-annually, by coupons attached to each note, which may be cut off and sold to any bank or banker.

The interest at 7.30 per cent. amounts to One cent per day on a \$50 note Two cents " " " \$100 " Ten " " " \$500 " 20 " " " \$1000 " \$1 " " " \$5000 "

Notes of all the denominations named will be promptly furnished on receipt of subscriptions. The Notes of this Third Series are precisely similar in form and privileges to the Seventy-Thirds already sold, except that the Government reserves to itself the option of paying interest in gold coin at 6 per cent. instead of 7-3-10ths in currency. Subscribers will deduct the interest in currency up to July 15th, at the time when they subscribe.

The delivery of the notes of this third series of the Seventy-Thirds will commence on the 1st of June, and will be made promptly and continuously after that date. The slight change made in the conditions of this THIRD SERIES affects only the matter of interest. The payment in gold, if made, will be equivalent to the currency interest of the higher rate.

The return to specie payments, in the event of which only will the option to pay interest in Gold be availed of, would so reduce and equalize prices that purchases made with six per cent. in gold would be fully equal to those made with seven and three-tenths per cent. in currency.

This is the only Loan in Market now offered by the Government, and its superior advantages make it

The Great Popular Loan of the People.

Less than \$230,000,000 of the Loan authorized by the last Congress are now in the market. This amount at the rate at which it is being absorbed, will all be subscribed for within two months, when the notes will, undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other Loans.

In order that citizens of every town and section of the country may be afforded facilities for taking the loan, the National Banks, State Banks, and Private Banks throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive orders.

Price in a sealed envelope, only 6 cents. This lecture should be in the hands of every youth and every man in the land.

Ether administered to proper persons.

TO HOUSE-CLEANERS.

WALL BRUSHES, A new article in this market, and far superior to any other in use. A few reasons why:

First--They are free from resin, which is affected by the lime, and liable to rot, causing the falling out of the bristles.

Second--The bristles are inserted in the wood, or body of the brush, when green, which when dry, causes them to be held firmly in their places; any subsequent soaking or shrinkage fails to affect them.

Third--They are made of Bristles exclusively; many kinds being composed, in part, of whalebone.

Fourth--They contain more bristles for the size, and are as cheap as the ordinary kind. Sold exclusively by JOHN SPANGLER, AT HIS HARDWARE STORE.
