MARIETTA, PA.

Saturday, July 15, 1865.

The conspirators, Mrs. Surratt, Payne, Atzerott and Harold were executed on Friday last. The announcement of the sentence to the criminals did not appear to surprise them.

The bodies hung until life was extinct, and were afterwards given over for burial, the rough coffins being already at hand for that purpose.

Thus ended the lives of the most abandoned scoundrels the world ever saw.

Mr. Secretary Seward has so far recovered from all his injuries, as to attend the regular sittings of the Cabinet. His son Frederick, who was so dangerously injured by the assassin Payne, in his assault upon the father, and whose life had so long been despaired of, was enabled to visit his home in the interior of New York, last week.

It is stated that the parties who own the house in Washington in which President Lincoln died have put in a claim in the office of the auditor of the Treasury, for losses incurred by the damaging of "beds, pillow cases, and carpets," caused by the ebbing of the life-blood of the great American martyr.

Ford's theatre has not been purchased by the Young Men's Christian Association or anybody else. The money for the first payment could not be raised by the 1st inst., the time fixed.

Jeff. Davis' trial, it is again reported from Washington, will be by a military commission. The charge will be that he was the leader and instigator of the assassination conspiracy, and some new evidence against him is said to have been discovered.

All the armies, excepting those on the Gulf and in Texas, the armies of the Tennessee and Potomac, and Hancock's Corps, are at once to be reduced to the minimum required by the army regulations.

Senator from Nevada, that the committee of the rebel Congress to investigate these alleged cruelties, had "obtained positive facts and data, proving beyond a shadow of doubt that the system of inhuman treatment and starvation of our prisoners was decided upon in a Cabinet meeting at Richmond, for the express purpose of breaking down the constitution of the men, and making them useless as soldiers when exchanged."

Government is rapidly dismantling the fortifications at Richmond and Petersburg, and shipping the cannon, &c., to the Washington and other northern yards and arsenals. The number of cannon of all kinds, siege and field, is much larger than was originally supposed.

A Washington correspondent of the Boston Advertiser, says: "The last words spoken by Mrs. Surratt, before she left the prison, were to her brother, Mr. Jenkins—'Good bye, take care of Anna.' What the poor girl, whom sorrow and pain have strangely touched in these long weeks since that eventful night of her mother's arrest, will do, no one yet knows.

The Secretary of State continues in almost perfect health. The novel and extraordinary splint was removed from his face, by order of his surgeons, and proves to have been a marvellous success, and very few traces are to be seen of the original accident and subsequent assault of the baffled assassin, with the exception of a slight swelling on the side of his right cheek.

The President's car, containing a number of distinguished personages from the Gettysburg celebration, ran into a freight car at the depot at Baltimore, on the evening of the 4th, owing to a misplaced switch.

An orphan boy, living in St. Sylvester, Lower Canada, eleven years of age, was sent by his master to drive some cows through the woods. He did not return, and when search was made for him a few bones and parts of his clothing were found. He had been eaten by bears.

It is astonishing, says a Charleston correspondent, to see how affectionate and loving the southern ladies are to the Yankee soldiers, turning up their noses at the rebel grayback in contempt—showing that their love is for the victor, not the vanquished.

Quite a number of buildings were burned and the loss is estimated at one million and a quarter dollars—partly covered by insurance.

He was tied up by the thumbs; when, in his torture, he admitted he had stolen the money, and said if his thumbs were untied, he would show where he had hid it. He was securely handcuffed, and started with an officer to find the money. While crossing Mill Creek bridge, the negro, handcuffed as he was, bounded over the parapet into the water below. With his hands shackled, he sank at once, and rose no more. Whether guilty or innocent, mortal judges can never decide.

In Albany, on Monday, a man named Major and his son were arraigned in the police court for having ravished two young girls on Friday last. As the proceedings were about to commence the brother of the girls shot the elder Major in the arm and leg, and the mother followed up the attack by beating him on the head with a hatchet. Major was taken to his home, and an infuriated mob was only prevented from lynching him by a strong force of policemen. His assailants were arrested.

A butcher in New York died, on Friday last, from the bite of a fly, which flew from the back of a diseased bullock and bit him under the eye-lid. In a few hours a swelling covered his face and extended down the breast. In a few days he became delirious, and died in great agony. The medical examination showed that death resulted from the absorption of morbid animal matter deposited by the fly.

It seems that \$50,000 have been raised in New York in relief of the rebel Gen. Lee. The subscription paper ought to be passed round among the Federal prisoners who were confined at Andersonville, Salisbury, Belle Isle and Libby. Let those whose feet rotted off in these vile prisons have a chance to aid the old hoary-headed traitor and parjared villain.

A special despatch from Washington to the Press positively denies that Admiral Dupont will his prize-money (reported at \$175,000) to a fund for the erection of a home for honorably discharged soldiers and sailors and their orphans. U. S. 7-30 LOAN!

THIRD SERIES, \$280,000,000.

By Authority of the Secretary of the Treasury, the undersigned, the General Subscription Agent for the sale of United States Securities, offers to the public the third series of TREASURY NOTES, bearing Seven-and-Three-Tenths per centum interest per annum, known as the

7-30 Loan.

These Notes are issued under date of July 15, 1865, and are payable three years from that date, in currency, or are convertible at the option of the holder into

U. S. 5-20 SIX PER CENT. GOLDBEARING BONDS.

These Bonds are now worth a handsome premium, and are exempt, as are all the Government Bonds, from State, County, and Municipal taxation, which adds from one to three per cent. per annum in their value, according to the rate levied on other property. The interest is payable semi-annually, by coupons attached to each note, which may be cut off and sold to any bank or banker.

The interest at 7.30 per cent. amounts to One cent per day on a \$50 note, Two cents " " " \$100 " Ten " " " " \$500 " 20 " " " " \$1000 " \$1 " " " " \$5000 "

Notes of all the denominations named will be promptly furnished on receipt of subscriptions.

The Notes of this Third Series are precisely similar in form and privileges to the Seven-Thirties already sold, except that the Government reserves to itself the option of paying interest in gold coin at 6 per cent. instead of 7.30ths in currency. Subscribers will deduct the interest in currency up to July 15th, at the time when they subscribe.

The delivery of the notes of this third series of the Seven-thirties will commence on the 1st of June, and will be made promptly and continuously after that date.

The slight change made in the conditions of this THIRD SERIES affects only the matter of interest. The payment in gold, if made, will be equivalent to the currency interest of the higher rate.

The return to specie payments, in the event of which only will the option to pay interest in Gold be availed of, would so reduce and equalize prices that purchases made with six per cent. in gold would be fully equal to those made with seven and three-tenths per cent. in currency.

This is the only Loan in Market now offered by the Government, and its superior advantages make it

The Great Popular Loan of the People.

Less than \$230,000,000 of the Loan authorized by the last Congress are now in the market. This amount at the rate at which it is being absorbed, will all be subscribed for within two months, when the notes will, undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other Loans.

In order that citizens of every town and section of the country may be afforded facilities for taking the loan, the National Banks, State Banks, and Private Banks throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive orders.

JAY COOKE, SUBSCRIPTION AGENT, Philadelphia.

Subscriptions will be received by The First National Bank of Marietta.

Of the worst disorders that afflict mankind arise from the corruption that accumulates in the Blood. Of all the discoveries that have been made to purge it out, none can equal the effect

HELMBOLD'S

Compound Extract of Sarsaparilla.

It cleanses and renovates the Blood, infuses the vigor of HEALTH into the system, and purges out the humors which make disease. Such a remedy that could be relied on, has long been sought for, and now, for the first time, the public have one on which they can depend. Two table-spoonsful of the Extract of Sarsaparilla, added to a pint of water, is equal to the Lisbon Diet Drink, and one bottle is equal to a gallon of the Syrup of Sarsaparilla, of the detection as usually made.
