Fever and Aque.—The chills will not return if these Bitters are used. No person in a fever and ague district should be without them. From Rev. J. Neuton Brown, D. D., Editor of the Encyclopedia of Religious Knowledge. Although not disposed to favor or recommend Patent Medicines in general, through distrast of their ingredients and effects; I yet know of no sufficient reason why a man may not tes-tify to the benefits he believes himself to have received from any simple preparation, in the hope that he may thus contribute to the bene-

I do this more readily in regard to Hoofland's German Bitters, prepared by Dr. C. M. Jackson because. I was prejudiced against them for a number of years, under the impression that they were chiefly an alcoholic mixture. I am indebted to my friend Rob't Shoemaker, esq., for the removal of this prejudice by proper tests, and for encouragement to try them, when suffering from great and long debility. The use of three bottles of these bitters, at the beginning of the present year, was followed by evident-relief, and restoration to a degree of todily and mental vigor which I had not felt for six months before, and had almost dispaired of regaining. I therefore thank God and the same and the saving in cost over coal fires. * * * N. Y. Evening Post

I have analysed "L. Lyons' Pure Catawba" to proclaim the merits of

Brandy," with reference to its composition and REEVES' AHBROSIA to the WORLD. Brandy," with reference to its composition and character, being the same as that produced in past years. A sample taken from ten casks afforded the same results with regard to purity; a slightly increased amount of the principle on which its flavor depends was determined by comparison with former samples.

The indications of analysis show that this Brandy is produced by the same process as most of the imported Brandy.
