WALL BRUSHES,

A new article in this market, and far superior to any other in use. A few reasons why:

First.—They are free from twine, which is affected by the lime, and liable to rot, caus-ing the falling out of the bristles. Second.—The bristles are inserted in the wood, or body of the brush, when green, which when dry, causes them to be held firmly in their place; any subsequent soaking or shrinkage fails to affect them.

Third.—They are made of Bristles exclusive-ly; many kinds being composed, in part, of Fourth.—They contain more bristles for the size, and are as cheop as the ordinary kind.

NEW HOOP SKIRT FOR 1865-61

The Great Invention of the Age in HOOP SKIRTS.

J. W. BRADLEY'S New Patent Duplex Elliptic (or double) Spring Skirt.

THIS Invention consists of Duplex (or two) Elliptic pure refined steel springs, ingeniously braided tightly and firmly together, edge to edge, making the toughest, most flexible, clastic and durable spring ever used. They seldom bend or break, like the single springs, and consequently preserve their perfect and beautiful shape more than twice as long as any single spring skirt that ever has or can be made.

The wonderful flexibility and great comfort and pleasure to any lady wearing the Duplex Elliptic skirt will be experienced particularly in all crowded Assemblies, Operas, carriages, railroad cars, church pews, arm chairs, for promenade and house dress, as the skirt can folded when in use to occupy a small place as easily and conveniently as a silk or muslin

A lady having enjoyed the pleasure, com-fort and great convenience of wearing the du-plex elliptic steel spring skirt for a single day will never afterwards willingly dispense with

their use. For children, Misses, and young ladies they are superier to all others.

The hoops are covered with 2 ply double twisted thread and will wear twice as long as the single yarn covering which is used on all Single steel hoop skirts. The three bottom rods on every skirt are also double steel, and twice or double covered to prevent the cover-ing from wearing off the rods when dragging down stairs, stone steps, &c., &c., which they are constantly subject to when in usc.

All are made of the new and elegant corded All are made of the new and clegant corded tapes, and are the best quality in every part, giving to the wearer the most graceful and perfect shape possible, and are unquestionably the lightest, most desirable, comfortable and economical Skirt ever made.
