A new article in this market, and far superior to any other in 'sec'. A few reasons why:

First.—They are free from twine; which is affected by the lime, and liable to rot, causing the falling out of the bristles.

Second.—The bristles are inserted in the wood, or body of the brush, when green, which when dry, causes them to be held firmly in their place; any subsequent soaking or shrinking fails to affect them.

I do this more readily in regard to Hoofland's German Bitters, prepared by Dr. C. M. Jackson because I was prejudiced against them for a number of years, under the impression that they were chiefly an alcoholic mixture. I amindebted to my friend Rob't Shoemaker, esq., for the removal of this prejudice by proper suffering from great and long debility. The use of three bottles of these bitters, at the beginning of the present year, was followed by evident relief; and restoration to a degree of bodily and mental vigor which I had not felt for six months before, and had almost dispaired of regaining. I therefore thank God and roy friend for directing me to the use of them.
