The Constitutional Republic of Mexico, through its President, Benito Juarez, and his Commissioner, Gan. Jose M. J. Carvajal, has contracted with a gentleman in New York for the negotiation and sale of thirty millions of dollars in bonds, in denominations of \$50, \$100, \$500. \$1000, payable twenty years from October 1, 1865, with interest at seven per cent. per annum, payable semiannually in the city of New York, principal and interest payable in gold. It is to be hoped that every lover of liberty will assist in this loan and thus add his mite towards driving the Austrian usurper from his present position and teach "Nep, the 3" a lesson which he richly deserves from every Unionman. The New York Post's Washington correspondent says that Edward McPherson, the clerk of the U. S. House of Representatives, says he will not put on the list of members the names of any members claiming to be elected from a State that was in rebellion, and says he would be deciding one of the most important questions before Congress, and that eighty Southern members at the ontset to vote upon the subject of their own recognition, would end the controversy in their favor at

The Cincinnati Enquirer says it has from good anthority that President Johnson has sent to Europe to General McClelian to return to this country to take charge of the War Department and that Montgomery Blair has been tendered the Post Office department and Thomas B. President Juarez still remains on Mexican soil, and so vehement is the feeling in his favor on the part of many influential Mexicans, both in the country and abroad, that some of them are rapidly raising outside forces on their own funds. Among others, Santa Anna is said to be raising troops for him at St. Thomas, where he has already enrolled about 150 Italian fighting men.

THE TRIAL OF DAVIS .- A statement is now current and believed to be well founded, that the trial of Jeff Davis, the chief author of all our woes, has at last been determined upon. He is to be tried for treason in the United States Supreme Court, at Washington, Chief Justice Chase presiding. Attorney General Speed will be assisted in the prosecution by Major General Rousseau, W. M. Evarte, and John H. Clifford. Charles O'Connor, of New York, will be the principal attorney for the defence. This trial will commence in a few days. The trial and mode of proceeding was decided upon in cabinet council in August last, and the Government has only been waiting the conclusion of the Wirz case to commence proceedings.

STEPHENS AND REAGAN.—The New York papers contain full details of the disgusting admiration paid to these halfpardoned rebels upon their arrival in that city. Fortunately for the cause of humanity and decency, it was confined to the copperhead puliticians and snobs of New York, and the objects of it were as thoroughly disgusted at it as the other sensible witnesses of it. It is plain these fellows would make a perfect lion of Jeff Davis, if they could get hold of

The Fenians are said to be very active in Canada. The Order is said to have lodges-or "centres"-scattered all through the Provinces, and that if ever any real mischief against the British government is meditated, Canada not Ireland, will be the initiatory scene of operations. It is also said that the 'Orangemen " are helping the Government detectives in ferreting out the Fenians.

The Hon. WIRZ AT HOME. - Now that the trial of Captain Wirz, of Andersonville notori v. is ended, and the disclosures him no harm, we may mention that, most assuredly, he is not very highly esteemed in his own native Switzerland. A paper published near Zurich, and call-

Being liquid, their action is direct and naming a battalion of troops "The and positive, rendering them a reliable, spee-Iturbide." Don Augustin has, however, dy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their good merits. THE HORRORS OF INDIGESTION .- You complain of your stomach, unfortunate dyspeptic; but ought not your stomach to complain of you? Possibly the pangs you endure are simply the stomach's method of taking revenge upon you for neglecting and abusing it. Perhaps you have never made an effort to i aprove its condition, but on the other hand are con tinually cramming it with unwholesome and incongruous food. Have you ever tried Hostetter's Stomach Bitters, a proper diet, and regular meals? The bitters in a week would put your digestive apparatus in perfect order, regulate the flow of bile in accordance with the laws of health, and produce just so much aperient action as would be necessary for your good; and when you were once all right, judicious and regular dieting, with a little of the Tonic now and then, would keep you so. If you have neglected these means of cure, don't blame your stomach for its rebellion. It is merely nature's hint that she wants help. If you neglect it. the next thing may be inflammation, or Scirrhus Cancer or some other violent and dangerous disease. There is such a thing as being too late in these matters. Hestetter's Bitters will cure Dyspepsis; but Dyspepsia may engender disease which defy all restoratives.
