PAYMENT OF COMMUTATION DONS NOT EXEMPT FROM BOUNTY TAX.—An important case, and one in which the public in general are interested to a considerable extent, was disposed of in the District Court of Allegheny county, a few weeks ago. It was presented in the form of a stated case in which the school directors of Plam township, were plaintiffs, and John Ewer was defendant. The facts of the case are as follows: John Ewer, a citizen of said township was drafted in July 1863, under the act of Congress, paid the \$300 commutation and was discharged from further liability. In 1864, a Bounty tax, under the provision of the Bounty acts of Pennsylvania, was assessed and levied on him, amounting to \$55, by the School Directors of said township, which he refused to pay, claiming that he was exempted under the exemptions in said Bounty act, and hence this stated case. The point of law submitted to the Court for its decision was, whether he, having paid the commutation in 1863, was liable to pay a bounty tax under the provisions of said act. Messrs. Moffit and Cochran appeared for the School Directors, and B. G. Childs, Esq. for the defendant. After hearing the arguments of the counsel, the Court decided that the payment of commutation did not bring the defendant within the exceptions contained in the fourth section of said act, therefore he was liable to pay said tax, and ordered judgement to be entered in favor of the plaintiffs for \$55, the amount of tax assessed and levied on him, as a citizen of said township.

E. M. Black, Secretary of the Home for Friendless Children of Lancaster county, appeals to the citizens of the County in its behalf. "Our number of destitute children is greater than at any former period," and although we receive Soldier's orphans' room is reserved, so that none destitute of the proper care shall be turned away, but all may find a Home; consequently we are obliged to call upon you to help us in providing for them the necessities of life. Some of you have already contributed freely of your means, for which we feel gratefully, and know you will not turn a deaf ear to our appeal in this our time of need. We earnestly invite all the friends of this institution to visit it and see for themselves how it is conducted. We wish them to feel that the Home belongs to the people of Lancaster county. From our country friends we particularly solicit potatoes. We require a great many, and as yet have had no adequate supply for the winter."

The Northern Copperhead still plied his vocation vigorously. Instead of accepting the issues of the war, and devising means to produce harmony between the sections North and South, he belches forth his "flame and fury" as follows through the "Metropolitan Record" of New York: "Let the Southern people, having paid the price demanded for restoration, claim all their rights and privileges in full, and submit to no abatement willingly or even gently. Let them not recede one inch before the tide of radicalism, but hold their ground as steadfastly as they did upon the field of battle. Let them thunder at the doors of Congress, and cease not until every vacant seat is filled. The Republic is in straits, and can spare no man, least of all, those whose councils have guided her through many a danger in the days gone by."

Paper has risen nearly one hundred percent since August, and is now quite as high as it was at any time last year, and the tendency is still upward and upward. The materials which go to make a newspaper, are so high that no one can well afford to publish a paper for less than double the price received before the war.

Mr. Candlish and wife, aged respectively 60 and 66 years, were murdered in their home in Otsego county, N. Y., on Thanksgiving day, but the murderers failed to get \$30000 which they were evidently after.

General Whittier, arrested in Havana on account of supposed complicity in the murder of Castro, has been released.

Oil has been struck on Duck creek, by Marietta, Ohio.

Gen. J. M. Fisher, of Columbia, La., has been promoted a Brigadier General of volunteers, for courage and meritorious services.

DIRECT VOTE FOR PRESIDENT.—Mr. Jencks of Rhode Island has submitted to Congress the following simple amendment of the Constitution, for effecting, it will be seen two prominent objects, viz: the election of President by direct vote, instead of the present cumbersome machinery, and the establishment of uniform suffrage:

ARTICLE I.— Sect. 1. In all elections of President and Vice President the ballots shall be cast directly for persons to fill said offices, and the person having the highest number of votes for each office shall be declared elected to each office.

Sect. 2. In the election of President and Vice President, and of members of the House of Representatives, the following described persons, and those only shall have the right to vote, to wit: Male citizens of the United States of the age of twenty-one years, not under conviction for infamous crime, who can read, and who shall have resided for one year in the State and for six months in the district in which they shall offer to vote.

Sect. 3. Congress shall have power to pass laws providing for the registration of voters, for ascertaining their qualifications, for the times and manner of conducting such elections, and for preventing frauds therein, and for declaring their result.

SINGULAR AND REMARKABLE OPERATION.—A very difficult surgical operation was performed on Mr. Charles Hoffman, residing near Cherryville, Hunterdon county, N. J., by Dr. Fields of Easton, a few days since. Mr. Hoffman had been ill for several months, and his physician pronounced him in the last stage of consumption; at this crisis, Mr. Hoffman expressed a desire to have his body opened—believing that his lungs were not affected, but that there was an abscess forming within his body. Accordingly the above named physician was called in—his body was opened, and a large bladder-like sack of matter, weighing four pounds and eleven ounces, was detached from one of his lungs and brought out through the incision made into his body. At last accounts, the patient, though very weak, was doing well, with strong hopes of his ultimate recovery.

Cure yourself of Dyspepsia. This most aggravating of all complaints—a disease from which more people suffer and die than almost any other—has at last found its master. Coe's Dyspepsia Cure controls and completely cures it in its worst stages; no one who suffers from dyspepsia, sick headache, souring and rising of the food, should be without it. Whilst in all cases of hard colds, stubborn coughs, sore throat, and all bronchial affections, Coe's Cough Balsam is the cheapest and best. These two articles are deservedly very popular with the masses.

Among the failures through unfortunate speculation in oil is A. B. Longaker, President of the Montgomery National Bank of Norristown. He is about concluding arrangements with his creditors, which will be entirely satisfactory to all parties. As there is nothing to necessitate any change, he will remain President of the Montgomery National Bank.

Edwin Forrest has taken steps to be re-married to his former wife. She some times since procured a decree of divorce, and a large allowance of her husband's estate, but he has recently taken an appeal to the Supreme Court of the United States, to have the decree annulled. The effect of the reversal of the Court below would, of course, be to re-unite the parties in the "holy bonds of wedlock."

When the war ended in April last, the government owned and used for military purposes 330 locomotives, 4000 cars, and 70,000 tons of iron. All the locomotives have been sold but 32 and there are about 1000 cars yet on hand; some have been sold for cash at auction, and some on six months and two years time to southern railroads. All will be sold before January 1st.

Ex-Governor William A. Graham recently elected United States Senator for North Carolina, is an unpardoned rebel, and yet in the very face of this fact, his election was almost unanimous. As long as the whipped traitors show no better evidence of repentance than is exhibited in such acts, just so long will re-construction be delayed.

It is stated that, at no remote period, a bill will be introduced into Congress authorizing the issue of bounty land warrants of 160 acres of the public lands in honorably discharged and the heirs of deceased soldiers who had borne arms in defence of the government.

Mr. Murdoch was taken suddenly ill on Friday evening, while performing in the "Stranger," at Grover's Theatre, Washington, and had to be removed to his home.

John Stoddard, aged 87 years, one of Bonaparte's veterans, and the keeper of a larger beer saloon near Little Falls, Herkimer county, New York, was brutally assaulted on Friday evening last. The ruffians hoped to secure some money which they supposed the old man had in his possession.

The horse "Daddy," formerly owned by the late General Corcoran, was disposed of by raffling, a few days since, in New York, for the sum of \$1500. "Daddy," as it will be judged from the amount of his purchase money, was a very fine horse. Singularly enough, the proceeds of this not too regular kind of sale go to the Church of the Transfiguration, and the winner of the prize is the brother of the priest.

The quacks are already taking advantage of the threatened approach of the cholera, and expect to reap a harvest if it really comes. All sorts of nostrums and specifics, liquid and solid, in pills and powders, are making their appearance, each warranted to cure. The intelligent public need not be warned against these dangerous medicaments. Some of them may be harmless, but far the greater part are really injurious.

Families sometimes have the misfortune to get a barrel of poor flour. They cannot make good bread out of it. This is especially the case at this season of the year. Such flour when used for bread-making with yeast, will sour before it is ready for baking. A lady correspondent says this difficulty may be remedied by mixing a little finely pulverized saleratus with the dry flour, and then mix the yeast, and it will make sweet bread. This is a fact certainly worth knowing.

Books for the Young.—Just the kind to elevate and do them good, to be had of Messrs. J. C. Garrigue & Co., 148 South Fourth street, Philadelphia. For real excellence and worth their stock has not its superior in the country, and it has already acquired a widespread reputation. In addition to their own publications, their collection includes the very best and most interesting juvenile books that have issued from the prominent publishing houses in this country during the past three or four years. Each book is carefully examined and none passes muster and finds its way to their shelves that is not of the highest order of merit. Parents and instructors of the young may rely upon it that no better books can be found to put in the hands of their children.

A case is before one of the courts in Hartford, Conn., which reveals the brutal conduct of a man towards his wife, Timothy E. Goodrich, of Farrington, some time ago wanted to get rid of his wife, and hired a fellow to make insulting propositions to her. She resented the insult and threatened to kill him, if he repeated his proposition, whereupon he had her arrested on a charge of threatening his life, and of course her husband refused to give bonds, and she was placed in jail and gotten out by the state attorney after her health had been ruined. Goodrich refused to take care of her, and Mr. Moses McKee took her and cared for her a year and a half and buried her, her husband all the while refusing to do anything at all for her. Now McKee sues Goodrich for her board and funeral expenses.

WHAT ABERNETHY SAID.—"Well, sir, what is the matter?" said Abernethy, the great English surgeon, to a cadaverous-looking patient, who had called to consult him. "Oh, nothing serious," was the reply, "my stomach and liver are out of order, that's all." "Do you call that nothing serious?" said Abernethy; "I tell you, sir, that when these two organs are out of order, as you call it, there's not a square inch of the body that is not more or less diseased, nor a drop of blood in it that is in a healthy condition." Nothing can be more true, therefore it is of the very highest importance to keep the stomach and liver in a vigorous condition. If the one is weak and the other irregular in its action, you control them with Hostetter's celebrated Stomach Bitters—the most genial vegetable Restorative and Alternative that has ever been administered as a cure for Dyspepsia and Liver disease. It is recommended by distinguished surgeons and physicians of the United States Army, by officers of the Army and Navy, by our first authors, by eminent clergymen—in fact, by thousands of the most intelligent of every class, as an unequalled protective against epidemic and malarious disease, and as a perfectly innocuous, but at the same time powerful, invigorant and alternative. ANOTHER GREAT CURE.

IN THE CITY OF NEW YORK, Of a highly respectable citizen, with known to the Mercantile Community, by DR. J. H. SCHENCK, THE GREAT LUNG DOCTOR OF PHILADELPHIA.

OFFICE N. Y. AND GALENA LEAD CO., No. 28 Nassau St., New York, June 1, 1865. Dr. J. H. SCHENCK—Dear Sir:—For over fifteen years I have been troubled with a very cough, and usually two or three times a week with more or less vomiting, which I get together, for the last few years, has kept me thin in flesh and too weak to do business, a kind without suffering. In August last I had the judgment of a good New York physician, and was advised to be prepared for a very short notice. The physician (and some of his friends) said that the first cold I took in New York proved fatal. I thought about it, and in January I procured a bottle of your Pulmonic Syrup, and commenced taking it freely. My feet and limbs were very much swollen, and all the symptoms of a very severe case of pulmonary disease, and I was advised to be prepared for a very short notice.
