The January thaw is a "capital institution" for producing colds, coughs and kindled ailments-much worse than severe cold weather, and we advise our readers, particularly those predisposed to any pulmonary weakness, to see to it that they are well shod, and allow no change of clothing. To those who have been living on the fat of the land through the holidays, and have got their stomachs out of order, we would prescribe COE'S Dyspepsia Cure; it has cured some very bad cases of Dyspepsia.
