It cleanses and renovates the Blood, instilal the vigor of HEALTH into the system, and purges out the humors which make disease. It stimulates the healthy functions of the body, and expels the disorders that grow and rankle in the Blood. Such a remedy, that could be relied on, has long been sought for, and new, for the first time, the public have one on which they can depend. Our space here does not admit of certificates to show its effects, but the trial of a single bottle will show to the sick that it has virtues surpassing anything they have ever taken.

NEW HOOP SKIRT FOR 1865-61

The Great Invention of the Age in

HOOP SKIRTS.

J. W. BRADLEY'S New Patent Duplex Elliptic (or double) Spring Skirt.

THIS Invention consists of Duplex (or two) Elliptic pure refined steel springs, ingeniously braided tightly and firmly together, edge to edge, making the toughest, most flexible, elastic and durable spring ever used. They seldom bend or break, like the single springs, and consequently preserve their perfect and beautiful shape more than twice as long as any single springs skirt that twice as long as any single spring skirt that ever has or can be made.

The wonderful flexibility and great comfort and pleasure to any lady wearing the Duplex Elliptic skirt will be experienced particularly in all crowded Assemblies, Operas, carriages, railroad cars, church pews, arm chairs, for promenade and house dress, as the skirt can be folded when in use to occupy a small place as easily and conveniently as a silk or musling

dress.

A lady having enjoyed the pleasure, comfor and great convenience of wearing the du-plex elliptic steel spring skirt for a single day will never afterwards willingly dispense with their use. For children, Misses, and young ladies they ar superior to all others. The hoops are covered with 2 ply double twisted thread and will wear twice as long as

twisted thread and will wear twice as long as the single yarn covering which is used on all Single steel hoop skirts. The three bottom rods on every skirt are also double steel, and twice or double covered to prevent the covering from wearing off the rods when dragging down stairs, stone steps, &c., &c., which they are constantly subject to when in use.

All are made of the new and eegant corded tapes, and are the best quality inl every part giving to the wearer the most graceful and perfect shape possible, and are unquestionably the lightest, most derirable, comfortable and economical Skirt ever made.

WALL BRUSHES,
A new article in this market, and far superior to any other in use. A few reasons why:

First.—They are free from twine, which is affected by the lime, and liable to rot, causing the falling out of the bristles.

Second.—The bristles are inserted in the wood, or body of the brush, when green, which when dry, causes them to be held firmly in their place; any subsequent soaking orshrinkage fails to affect them.

Third.—They are made of Bristles exclusively; many kinds being composed, in part, of whalebone.

Fourth.—They contain merchanistic for the second of WALL BRUSHES,

hatecone. Fourth.—They contain more spristles for the ze, and are as cheap as the ordinary kind.
