

The Mariettian.

F. L. Baker, Editor.

MARIETTA, PA.

Saturday Morning, January 27, 1866.

Previous to its adjournment for the holidays, the United States Senate confirmed the appointment of Charles Durkee, of Wisconsin, to be Governor of the Territory of Utah. Gov. Durkee is already in the Mormon land, and has discovered, no doubt, that his honor is an uneasy one. He may be the United States Governor, but Brigham Young is Governor in fact. Hitherto the Representatives of the United States in that Territory have been unable to command respect. The United States District Judge, John Titus, has an office which he cannot exercise, because the United States Attorney General is a Mormon, and manages affairs so that no business can be brought before the Court. Until a new policy is adopted, and all the offices are given to "Gentiles," the United States will receive neither respect nor obedience in Utah.

The latest gossip of the capital is to the effect that Mr. Fessenden recently had an interview with the President in which Mr. Johnson said: "I must look to the Republicans for support and not to the opposition. I am familiar with the history of John Tyler and Millard Fillmore, and do not intend to follow in their footsteps. We will wait for the report of the joint committee, and if it comes within the bounds of reason I will be satisfied."

Ex-President Pierce has been received into the Episcopal Church, in Concord, Hon. John Bell connected himself with the First Presbyterian church, in Nashville, a short time since. Ex-President Buchanan was received into the First Presbyterian church, in Lancaster, Pa., a few weeks ago. "While the lamp holds out to burn, the vilest sinner may return."

A State Convention will be held in the Hall of the House of Representatives, in Harrisburg, Pa., on Wednesday the seventh day of March, A. D. 1866, at 12 o'clock, M., for the purpose of nominating a candidate for Governor to be supported by the friends of the Union.

Dr. Randolph, formerly a noted spiritualist, says, now, that after an experience of five years as a medium, it is his candid opinion that spiritualism is one-third imposture, one-third insanity, and one-third diabolism; and that insanity is the usual fate of trance-mediums.

A Richmond paper wants an act of the Legislature, passed forbidding widows from marrying a second time, until all the young maidens have secured husbands. Such a law was actually passed by the Virginia House of Representatives.

The estate of the late President Lincoln is stated to be worth about eighty-five thousand dollars, seventy-five thousand dollars of which is invested in 5-20 bonds. His real estate in Springfield, Illinois, is valued at five thousand dollars.

A fellow in St. Cloud, (Minn.) lately ate six dozen raw eggs in one hour and offered to bet he could eat four dozen more. He was afterwards taken to the hospital.

A FITTING REBUKE.—Last week, as a railroad train was stopping at Gordonsville, Va., to put off a mail, quite a crowd who had assembled there made an assault upon the mail agent, who was a Northern man as the Post Office Department appoints none who cannot take the oath. They informed him that they would not allow any Yankee to run on their roads. Words led to blows; and, the train moving off, the mail agent escaped with his life. On reporting this to the Post-office Department, Governor Randall immediately struck Gordonsville from the list of post-offices, and trains now run by that point.

A singular instance occurred at Breslau on the occasion of the funeral of a student named *Attors*, who had been killed in a duel. The coffin had been laid down in the grave when a voice was heard apparently proceeding from the inside of it, exclaiming, "Let me out, I am being suffocated." The coffin was immediately brought up and opened, but the body being found to be quite dead. The author of the hoax was then discovered to be a ventriloquist present, who was arrested for disturbing a religious service.

A clerk in the Quartermaster General's office, Washington, named Jones, remarked the other day, on hearing of the threats of assassination to Senator Sumner, that he was not exactly in favor of decapitation, but that he would like to see him sent to his long home. The Secretary of War, on hearing of it, immediately dismissed him from the service.

An exchange truly says that "you may insert a thousand excellent things in a newspaper, and never hear a word of approbation from its readers; but just let a line or two not suited to their taste slip in, (though by accident), and you will be sure to hear of it." There is more trouble in keeping a newspaper free from an objectionable thing than filling it twice over.

Maj. Gen. Hancock and Hartranft have been mustered out of the volunteer service; the former takes his rank as Brigadier in the regular army, and the latter returns home to assume the office of Auditor General. It is said Gen. Hartranft was offered the rank of Colonel in the regular army, and that he relinquished military life with regret.

The ice-house of Lyman R. Lyon, of Lyons, N. Y., has not been empty for twenty years, nor has a pound of ice been put into it. The building is constructed after the ordinary method, and when it is designed to fill it, a hose jet is placed upon the water-pipe, and as the water comes through it is chilled and drops into the ice house, where it forms in one solid mass.

Washington city has been divided into districts, in each one of which is a proper person who sees that the colored people do not suffer from cold or hunger. There are two soup-houses, from which 325 rations a day are now distributed; and fuel, clothes, shoes, blankets, and medical attendance are furnished to all in want.

The citizens of Washington are much excited at the prospect of negro suffrage. Bowen, the present incumbent, who is President of the Universal Suffrage Association.

A HEAVY DIVIDEND.—The Gettysburg

National Bank, on Tuesday of last week, declared an extra dividend of fifty per cent. on the capital stock, out of a surplus fund. This dividend is free of all taxation, and is payable to stock holders in United States 7-3-10 Treasury Notes at par. It will be recollected that this same institution in May last declared a dividend of 8 per cent. and in November following another of 10 per cent.; and now comes an extra dividend of 50 per cent. paying an interest on the capital stock of sixty-eight per cent. since May last, a period of less than eight months. These figures speak for themselves. Whilst they prove the Bank to be eminently sound, they also show what can be accomplished by judicious management and careful financing.—*Gettysburg Star.*

SMALL QUANTITY.—One teaspoonful of that world renowned remedy, Coo's Dyspepsia Cure, taken after meals, will enable the most confirmed dyspeptic, to eat anything he chooses, without fear of any distressing effects. It is a blessing to all who are troubled with diseases pertaining to the stomach and bowels. The proprietors of Coo's Cough Balsam say, take little and often. Doctor the throat and bronchial tubes, not the stomach. This is the secret of its success. It will not harm you to take it often, and every time you take it, you will see its beneficial effects.

Correspondence.

From Dr. R. Shelton McKenzie, the Literary Editor and Critic.

"Some years ago Evans' Gift Book Store was accepted as one of the institutions of the City, and was conducted with a great deal of fairness. After a prosperous reign of seven or eight years Mr. Evans 'came to grief,' as the saying is. He had been robbed on all sides—plundered to a vast extent. One of his employees, his confidential clerk, built half a street with money which he eventually confessed, he had abstracted from letters addressed to Mr. Evans and received by mail. Mr. E. could have stood this, but the warbored him to close even of his branch offices in the South by which he was a heavy loser."

"Mr. Evans has manfully struggled since his business eclipse; latterly as agent for the Florence Sewing Machines. He has just recommenced his old gift book business, advertising liberally (which was the secret of his former success), and is likely to make a fortune again."—*Philadelphia correspondence of New-York Round Table.*

Is HEALTH WORTH HAVING? If it is, protect it. It is a jewel as easily lost as virtue, and in some cases as difficult to recover. Nature, in our climate, and especially at this season, requires to be occasionally reinforced. But every thing depends upon the tonic used for this purpose. The medicinal tincture, all of which are based on common alcohol, are dangerous. Quinine, as everybody finds out who takes much of it, is a slow poison. "One safe protective from all unhealthy atmospheric influences exists, and one only. This powerful preventive is Hostetter's Celebrated Stomach Bitters, a compound of the purest stimulant ever manufactured, with the most effective tonics, alteratives, regulators, and depurators that chemistry has yet extracted from the botanical kingdom. Convalescents, languid and feeble from recent sickness, will find the Bitters an incomparable Restorative, not discreditable to the taste, and eminently invigorating. No other stimulant produces the same effect as this. Stomachics! It does not excite or flutter the nerves, or occasion any undue artificial action; but at once soothes and strengthens the nervous system, and the animal spirits.
