THE NEW TAX LAW :- Both-branches of the Legislatore have passed, with unusual promptitude and unanimity, the bill embodying the financial scheme recommended by State Treasurer, Kemble. so that it now only needs the signature of the Governor to become a law. As it will andoubtedly be approved by Governor Gurtin, we may treat it as in fact complete and a law. Lts mains feature, and one which must commendeit to the good wishes of all the people of the State, is its abolition of the State tax on real estate, which under the existing financial embarrossments of the country. is a measure of relief for which we all have reason to be thankful. Local tax. es are chiefly levied on real estate, while the national taxes are levied on everything else. Hence, when the State tax on real estate is superadded to all the other burdens we have to bear, it is no elight imposition.

By good management the State finances have been brought to a very prosperons condition, owing to which the State Treasurer Kemble has felt himself warranted in presenting his scheme to abolish the tax on real estate. At the same time, however, he has recommended other taxes of a very substantial character upon banks and other corporations. The former he proposes to tax upon the capital stock. This is what the State did under the old State bank system, and it constituted so important a source of revenue that when the act to enable the banks to reorganize as national institutions was pending in the Legisla ture, it came near being defeated through opposition arising from an indisposition to part with so large an item of revenue. The present proposal is based on sundry decisions by courts of law pronouncing it perfectly legal for States to tax national banks, and the tax will, therefore, be duly assessed and collected, notwithstanding any doubts that may have been entertained on the subject. We are aware that one of the inducements for the transfer of the State banks to the national system was the provision in the national banking law exempting nationol banks from State or local taxation. But it has become obvious that in the present financial condition of the country. it would be improper to exempt so large an amount of cetive oppital from all burdens of taxation. It would make other taxpayers restive and dissatisfied, and hence it has been generally agreed that the national banks would have to be า.ธอไปสุร์กระกับจากตัวสามองช่วง เ

The other new tax, upon the gross receipts of the railroad and other corporations of that kind, is a perfectly proper source of revenue, as these corporations are mostly of a character owing all their enormous receipts to their acts of incorporation and other legislative favors. By these two new texes the place of the real estate will be more than supplied and the State finances kept prosperous.

The President has vetoed the freedman's bureau bill. It was raturned to the Senate accompanied by a message in which the President states his objections. The points made by the Presi dent are these :- First, That the bill gives the Executive too much power. Second, That the measures provided for in the bill would entail too much expense upon the Government. Third, That the legislation provided for in the bill is not necessary. Fourth, That the bill is unconstitutional.

Major General Geary, of West moreland county, will unquestionably be nominated by the National Union party as their candidate for Governor of this State, at the Convention which will be held at Harrisburg on the 7th proximo. Perhaps no better man could be selected. His record pronounces him to be unexceptionable in every qualification involved in the position to which he will be assuredly elevated. In point of availability, too, no one excels

A NEW METHOD OF ROBBERY .- Cultivating the acquaintance of a moneyed stranger, and familiarly handing him an apple filled with strychnine to eat, is the latest mode of preparing him to be quietly robbed. Some robbers handled a returaed Californian in this way, a night or two ago at Wellsville, Ohio, on the Cleveland and Pittsburg railroad. In a short time the strychnine, previous_ ly placed in the apple, began to take effect, causing the gentleman to fall in a helpless condition on the pavement, where he was discovered at a late hour in great agony, robbed of all his money and everything of value about his person. Apples familiarly dealt out by straugers should hereafter be considered unheal-

Silly Hoax.—The engineer of a train near Newburyport discovered a man standing between the rails one evening last week. The locomotive bell and whistle failing to remove him the engine was reversed, but it was too late. The train went over the figure and some distance beyond before it could be arrested. The trainmen then hastened back for the mangled remains and discovered themselves the victims of a heartless sell. It was a suit of old clothes stuffed and arranged to human resemblance. The affair is being investigated, and if the perpetrators are discovered it will prove a sorry joke for somebody.

To all ages and in all climes dancing has been a favorite amusement with the young and oftentimes with the aged. We remember, says the Norfold Day Book, hearing the Rev. Dr. Hoge deliver a lecture in Richmond during the war. He had just returned from Europe. Whilst abroad he spent sometime in Scotland, and one evening in Edinburg being invited to take tea at the house of an eminent divine, where he met with a number of preachers and their wives, after supper the room was cleared and these good people had a good old fashioned reel, all to them-3-1 -5 2 2 3

death than the diseases which they profess to cure. And yet this corrosive mineral so denounced by the allopathic doctors, is prescribed by them almost universally in Liver Complaint, Consumption of Lungs, &c. THE MANDRAKE PILLS
are composed entirely of roots and herbs ob-

tained from the great storehouse of Nature, and their salutary effects will appear as soon as the medicine is brought to the test of a fair experiment. SCHENCK'S MANDRAKE PILLS do not produce at y nausea or sickness of the stomach; but when given for Dyspensia, it may be proper to use them in connection with SCHENCK'S SEAWEED TONIC. By this judicious treatment the digestive faculties are speedily restored to their full vigor, and the worst cases of indigestion may be

cured. When we reflect that the liver is the largest internal organ of the body, that to it is assigned the important duty of filtering the blood and preparing the bile, that it is subject to many disorders, and that when it is diseased or inactive the whole body suffers sympathet. ically, it is not surprising that a medicine which can restore the healthy operations of the Liver should produce wonderful changes in the general health, and effect cures which may appear to be almost miraculous. Headache of long continuance, severe pains in the side, breast and shoulders, aching of the limbs, a feeling of general weakness and wretchedness, and other alarming and distressing symptorus, indicative of imperfect or disordered action of the liver, are speedily removed by the use of SCHENCK'S MANDRAKE PILLS.

Costiveness, piles, bitter or sour eructations, and that indescribable feeling of oppression? mental anxiety, languor, lethargy, and de pression of spirits, which unfit a man for thet management of business and the enjoyment of life, are all relieved by the use of SCHENCK'S MANDRAKE PILLS.

Dr. Schenck .- Dear Sir : I take pleasure in sending you a certificate in addition to many you have already received from suffering humanity. I can acure ly find language sufficiently strong to express my hearifelt gratification of the wonderful cures your MANDRAKE PILLS and SEAWEED TON-IC have effected in the entire cure of one of the most stubborn cases of the effection of the liver. For three years I suffered beyond description; all my friends, as well as myself, came to the conclusion that my time in this life was short. Such was the terrible condition to which I was reduced that life to ;me had become a burthen; my whole system was in a state of inflammation; I could not cat, I ould not eleep; my whole body was filled with pain; swelling would arise in my writer and ankles, rendering them totally uscless. On several occasions I was attacked with a rush of blood to the head, which would fell me to the ground, and I would be carried away for dead. I applied to several eminent physicians of our city, who administered all the medicines that they thought would teach

my case, but of no avail. One of them said he could do no more for me, and advised me, as a last resort, to drink cod liver oil. Not relishing the horrid trush I declined to take it. Accident put your advertisement in my hands. I called on you; you examined me and told me the nature of my Tonic with an observance of diet, pledging your word that in one week I would find my-self another man. I followed your advice, and, as you predicted, an astonishing cure was I continued your Pills and Tonic for some time, and now thank God for his goodness, and your invaluable medicine. goodness, and your invaluable medicine; a am once more restored to perfect healths; it most earnestly reccommend those who are suffering from affection of the liver of give your Pils and Tonic a lair trial, and as foure will be effected.
