NEW SKIRT FOR 1866

The Great Invention of the Age in HOOP SKIRTS.

J. W. BRADLEY'S New Patent Duplex Elliptic (or double) Spring Skirt.

THIS Invention consists of Duplex (or two) Elliptic pure refined steel springs, ingeniously braided lightly and firmly together, edge to edge, making the toughest, most flexible, elastic and durable spring ever used. They will bend or break, like the single springs, and consequently preserve their perfect and beautiful shape more than twice as long as any single spring skirt that ever has or can be made.

The wonderful flexibility and great comfort and pleasure to any lady wearing the Duplex Elliptic skirt will be experienced particularly in all crowded Assemblies, Operas, carriages, railroad cars, church pews, arm chairs, for promenade and house dresses, as the skirt can be folded when in use to occupy a small place as easily and conveniently as a silk or muslin dress.

A lady having enjoyed the pleasure, comfort and great convenience of wearing the duplex elliptic steel spring skirt for a single day will never afterwards willingly dispense with their use. For children, Misses, and young ladies they are superior to all others.

The hoops are covered with 2 ply double twisted thread and will wear twice as long as the single-iron covering which is used in all Single steel hoop skirts. The three bottom rods on every skirt are also double steel, and twice or double covered to prevent the covering from wearing off the rods when dragging down stairs, stone steps, &c., &c., which they are constantly subject to when in use.

All are made of the new and elegant corded tapes, and are the best quality in every part giving to the wearer the most graceful and perfect shape possible, and are unquestionably the lightest, most desirable, comfortable and economical skirt ever made.

West's BRADLEY & CARY, Proprietors of the invention, and Sole Manufacturers, 97 Chambers, and 79 & 81 Reade streets, New York.

For sale in all first-class stores in this City, and throughout the United States, Canada, Havana, Cuba, Mexico, South America, and the West Indies.

LADIES TAKE PARTICULAR NOTICE.

The Real Whisky Female Pills. [WARRANTED FRENCH.] These Pills, so celebrated many years ago in Paris, for the relief of female irregularities, and afterwards so notorious for their criminal employment in the practice of abortion, are now offered for sale for the first time in America.

They have been kept in comparative obscurity from the fact that the originator, Dr. VALPAU, is a Physician in Paris, of great wealth and strict conscientious principles, and has withheld them from general use, lest they should be employed for unlawful purposes. In curing female obstructions they seem to be truly omnipotent, bursting open the flood gates from whatever cause may have stopped them; but they are offered to the public only for legitimate uses, and all agents are forbidden to sell them when it is understood that the object is unlawful.

For sale by Dr. F. Hinkle, Marietta; P. A. Pyle, Mountjoy; H. D. Parry and R. Williams, Columbus, and druggists generally.

Ladies can procure a box, sealed from the eyes of the curious, by enclosing \$1 and six postage stamps to O. G. STAPLES, General Agent for us, Watertown, New-York, or to any of the above agents. [No. 25-ly]

AGRICULTURAL CHEMICAL COMPANY'S Cheap Fertilizers.

THE FERTILIZERS prepared by the Agricultural Chemical Company, [a company chartered by the legislature of Pennsylvania with a capital of \$250,000] have been proven in practice to be the cheapest, most profitable and best for the Farmer, Gardener and Fruit Grower, of all concentrated manures now offered in any market. The Company's list embraces the following:

PABULETTE. This Fertilizer is composed of eight soils and the fertilizing elements of urine combined, chemically and mechanically with other valuable fertilizing agents and absorbents.

It is reduced to a pulverized condition, ready for immediate use, and without loss of its highly nitrogenous fertilizing properties.

Its universal application to all crops and soils, and its durability and active qualities, are well known to be all that agriculturists can desire.

CHEMICAL COMPOST. This Fertilizer is largely composed of animal matter, such as meat, bone, fish, leather, hair and wool, together with chemicals and inorganic fertilizers, which decompose the mass, and retain the nitrogenous elements.

It is a very valuable fertilizer for field crops generally, and especially for potatoes, and garden vegetables.

Its excellent qualities, strength and cheapness, have made it very popular with all who have used it.

COMPOSITE FERTILIZER. This highly phosphatic fertilizer, is particularly adapted for the cultivation of Trees, Fruits, Lawns and Flowers. It will promote a very vigorous and healthy growth of wood and fruit, and largely increase the quantity and perfect the maturity of the fruit. For household and household plants and flowers, it is found an indispensable article to secure their greatest perfection. It will prevent and cure diseased conditions of the peach and grape, and is excellent for grass and lawns.

It is composed of such elements as make it adapted to the growth of all kinds of crops in all kinds of soils.

The formula or method of combining its constituent fertilizing ingredients have received the highest approval of eminent chemists and scientific agriculturists.

PHOSPHATE OF LIME. The Agricultural Chemical Company manufacture a Phosphate of Lime in accordance with a new and valuable formula, by which a very superior article is produced, so far as to be afforded at a less price than other manufacturers charge. Practical tests have proved that its value, as a fertilizer, is equal to the best Phosphate of Lime in the market.

HEADLEY'S HISTORY OF THE GREAT REBELLION!

THE late rebellion stands out peculiar and extraordinary in human events; and the magnificent scale upon which the war has been conducted, constitute it one of the grandest and most brilliant chapters of the world's history.

Mr. Headley, of all writers, is perhaps best qualified to portray the stupendous features of the mighty contest. His previous works on less momentous themes have placed him in the first position, as a graphic and powerful delineator of war scenes and characters, and the magnitude and grandeur of the present subject, impart to his pen the fire and vigor of a yet more exacted inspiration, and furnish ample scope for the highest exhibition of his peculiar genius for military description.

Under his powerful pen the stirring scenes of the War pass in review with the vividness and distinctness of a present and living reality; while his great talent for condensation enables him to embody everything of importance in a compass just suited to the public want. From no other source can so clear and comprehensive an impression of the grand march of events be obtained, so easily and agreeably as from Mr. Headley's work.

Other histories have been issued before Grant's Report and other official documents were submitted to the government, and therefore unreliable. Mr. Headley has delayed the completion of this till those documents so essential to authenticity and correctness could be obtained.

The second volume, completing this work, will be issued in March, 1865. Agents wanted to engage in its sale in every town and county in the United States. Liberal inducements offered. For particulars apply to our address: AMERICAN PUBLISHING CO., No. 148 Nassau-st., Hartford Conn. Scranton & Burr, Agents.
