GRICULTURAL CHEMICAL COMPANY'S Cheap Fertilizers.

THE FERTILIZERS prepared by the Agricultural Chemical Company, [a company chartered by the legislature of Pennsylvania with a capital of \$250,000,] have been proved in practice to be the cheapest, most profitable and best, for the Farmer, Gardener and Fruit Grower, of all concentrated ma-nures now offered in any market. The Com-pany's list embraces the following:

PABULETTE. This Fertilizer is composed of night soil and the fertilizing elements of urine combined, chemically and mechanically with other valuable fertilizing agents and ab-

It is reduced to a pulverized condition, ready for immediate use, and without loss of its highly nitregenous fertilizing properties. Its universal application to all crops and soils, and its durability and active qualities, are well known to be all that agriculturists

CHEMICAL COMPOST. This Fertilizer is largely composed of animal matter, such as meat, bone, fish, leather, hair and wool, together with chemicals and inorganic fertilizers, which decompose the mass, and re-tain the nitrogenous elements.

It is a very valuable fertilizer for field crops

generally, and especially for polatoes and

garden purposes.

Its excellent qualities, strength and cheap-ness, have made it very popular with all who have used it.

YOMPOSITE FERTILIZER. This highly phosphatic fertilizer, is particularly adapted for the cultivation of Trees, Fruits, Lawns and Flowers. It will promote a very vigorous and healthy growth of wood and fruit, and largely increase the quantity and perfect the maturity of the fruit. For hot-house and household plants and flowers, it will be found an indispensable article to secure their greatest perfection. It will prevent and cure diseased conditions of the peach and grape, and is excellent for grass and lawns. It is composed of such elements as make it adapted to the growth of all kinds of crops in all kinds of soils.

The formula or method of combining its constituent fertilizing ingredients have received the highest approval of eminent chemists and scientific agriculturists.

Phosphate Of LIME. The Agricultural Company The Agriculturists.

rai Chemical Company manufacture a and valuable formula, by which a very superior article is produced, so far as to be afforded at a less price than other manufacturers charge. Practical tests have proved that its value, as a fertilizer, is equal to the best Phosphate of Lime in the market.

HEADLEY'S HISTORY OF THE

GREAT REBELLION! HE late rebellion stands out peculiar and extraordinary in human events; and the magnificent scale upon which the war has been conducted, constitute it one of the grandest and most brilliant chapters of the world's

Mr. Headley, of all writers, is perhaps best qualified to portray the the stupendous features of the mighty contest. His previous works on less momentous themes have placed him in the first position, as a graphic and powerful deleniator of war scenes and characters, erfut delentator of war scenes and characters, and the magnitude and grandeur of the present subject, impart to his pen the fire and vigor of a yet more exacted inspiration, and fur nish ample scope for the highest exhibition of his peculiar genius for military description. Under his powerful pen the stirring scenes of the War pass in review with the vividness and distinctness of a present and living reality while his great talent for condensation enables him to embody everything of importance in a compass just suited to the public want. From no other source can so clear and comprehensive an impression of the grand march of events be obtained, so easily and agreeably as from Mr. Headley's work.

Other histories have been issued before

Grant's Report and other official documents were submitted to the government, and therefore unreliable. Mr. Headley has delayed the completion of this till those documents so essential to authenticity and correctness could

The second volume, completing this work, will be issued ir March, 1866. Agents wanted to engage in its sale in every town and county in the United States. Liberal inducemeats offered. For particulars apply to or address AMERICAN PUBLISHING CO., No. 148 Asylum-st., Hartford, Conn. Scranton & Burr, Agents.

BLACKWELL & CO., No. 171 Broadway, New-York. BOHLEN'S long celebrated GIN, Consumptives,

CAD WHAT DR. SCHENCK IS DOING.

DR. J. H. SCHENCK. DEAR SIR:—I feel it a duty I owe to you, and to all who are suffering under the diseases known as Consumption and Liver Complaint, to let them know what great benefits I have received from your Pulmonic Syrup and Sea-

weed Tonic in so short a time. By the bless-ing of God it has cured me thus far. Dr. Schenck, I will now make my statement to you, as follows:—About eighteen months ago I was attacked with a severe cough, and it settled on my lungs; I could not retain anything I ate, and suffered with not retain anything I are, and suitered with evening fevers and night sweats. I was very much reduced. The whites of my eyes were very yellow; likewise my skin; my appetite sll gone, and unable to digest what I did eat; bowels swollen, irregular and costive. I was very low spirited, and had such violent spells of countier when I lear down as wight and of coughing when I lay down at night and when I arose in the morning that they would last one or two hours.

I then would be nearly exhausted, and was

entirely unable to lie on my left side. I can-not describe my wretched suffering as I would not describe my wretched suffering as I would wish to do. Every organ in my body was diseased or deranged. Such was my situation at this time, and I was confined to my bed from the last of Pebruary, 1862, to June 1862, not able to sit up. I had the best of medical attendance the whole of the time. My cough was so very bad that it racked me very much. I at this time raised a large quantity of thick, yellow, offensive matter, sometimes with blood and it was generally accompanied by nausea, and a furred and thick coated tongue. At the time of coughing so badly I would have sharp, shooting pains in my left side and heart, night sweats, and soreness all through my whole chest; had much inward fever, pain in whole chest; had much inward fever, pain in my back and under my shoulder blades and in the small of my back, and at times so severe that it would throw me into spasms. my physician gave me up to die. Others I had, and the best of them, but they could do nothing for me, and at that time I was nothing ing for me, and at that time I was nothing but skin and bone. I then was in the western par' of Missouri. In June last we left there for the East, and in August last we came to New York, and I was so reduce! that I could only walk a little with my husband's help. After I had been here a short time the sait water breez made me feel much better for ter breeze made me feel much better for a time and then I had again to call a physician for aid. We had four of the best physicians of New York on the diseases of the large, and doctors of all kinds, but of no avail. They said I was past cure, and that my lungs were too far gone for any one to cure me. But at this time I was now the said I was past to the the beautiful to the said I was past to the the beautiful time I was now for the the beautiful time I was now for the the beautiful time I was now for the said I was now for the the beautiful time I was now for the said I was now for t this time I was on my feet about the house, not able to do much of anything. In November last I grew worse, and the consumption diarrhea set in and lasted about eight weeks. We had tried all and everything that I could grasp at like a dying person for my disease consumption and liver complaint—but of no

In January, 1863, I was brought down In January, 1863, I was brought down again on my bed, and was not expected to live the night out. My husband stayed at my side, and other friends, and they all gave me up to die. At this time every one who saw me did not think I would ever leave my bed a living woman. The first night I was attacked with spasms, and was deranged most of the time. A friend, Mrs. Harris, came to see me the last of the week, and brought the Sunday Mercury. In it was an account of a great cure performed by Dr. Schenck. She read it to me, and it was so much like my disease that I asked my husband to go and see him for me. At this time I had given up all hopes of ever gerting well again, and made

see him for me. At this time I had given up all hopes of ever gerting well again, and made my peace with God, to be ready whenever he called for me.

On the 27th of January, 1865, my husband called on Dr. Schenck, 32 Bond street, New York, and stated to him my case, with a request for him to call and see me, which he did, and examined me with the respirometer. When he was about to go I asked him if he could cure me? His reply was: "I cannot tell, both lungs are diseased, and the bronchial tubes are affected on both sides." And yet he seemed to think there were lungs enough left to effect a cure if the diarrhea could be stopped. He said in order to do this, he would have to give me Mandrake Pills in small doses at first, to carry off the morbid matter, and then, with astringents, he hoped to check it, which he did, but the constant coughing, night sweats, and diarrhea had prostrated me so that he was afraid my vital powers were too much prostrated ever to rally, and yet he seemed to think if I could live to get enough Pulmonic Syrup through my system to cause Pulmonic Syrup through my system to cause expectoration there were lungs enough left for me to recover. He wished me to try the Pulmonic Syrup and Seaweed Tonic at once, saying it would do me no harm, if it did me no good. The first week it seemed to give me strength, so that on Sunday after I sat up in bed and ate hearty for a sick woman; but the next week I lost all hope and wished my husband not to give me any more medicine. but the doctor had warned him of this, and when the medicine was clearing out the system it made them feel somewhat restless, and to persevere; and he insisted on my taking it; and now I feel the benefit of it. For after eight days I began to gain my strength, and with the exception of a cold that put me back some, I have been gaining strength of body, my cough is going away, and all my pains are gone; no soreness of the body, my bowels are regular, and my breath is sweet, and I thank God that I am now going about, and sew and read as well as ever I could. I have taken sixteen bottles of the medicine, eight of each. I now have a good appetite and rest well at night; my cough does not trouble me in getting up or lying down. I would here say to the afflicted with consumption or liver complaint, that Dr. Schenck is no humbug You can rely on what he says. Delay not; it is dangerous to trifle with these diseases. If you would be cured, go at once; and any one wishing to know the facts as herein stated can call at my residence, 117 West Houston

street, New York city.

NEW SKIRT FOR 1866!

The Gret Intention of the Age in HOOR SKIRTŠ. J. W. BRADLEY'S

New Patent Duplex Elliptic (or double) Spring Skirt. Spring Skirt.

THIS Invention consists of Duplex (or two)
Elliptic pure refined steel springs, ingeniously
braided tightly and firmly together, edge to
edge, making the toughest, most flexible, elastic and durable spring ever used. They seldom bend or break, like the single springs,
and consequently preserve their perfect and
beautiful shape more than twice as long as
any single spring skirt that ever has or can be
made.

made.

The wonderful flexibility and great comfort and pleasure to any lady wearing the Dupler Elliptic skirt will be experienced particularly in all crowded Assemblies, Operas, carriages railroad cars, church pews, arm chairs, for promenade and house dress, as the skirt can be folded when in use to oc cupy a small place as easily and conveniently as a silk or muslin

dress.

A lady having enjoyed the pleasure, comfort and great convenience of wearing the du-plex elliptic steel spring skirt for a single day will never afterwards willingly dispense with

their use. For children, Misses, and young ladies they ar superier to all others.
The hoops are covered with 2 ply double twisted thread and will wear twice as long as twisted threat and will wear twice as not as the single yearn covering which is used on all Single steel hoop skirts. The three bottom rods on every skirt are also double steel, and twice or double covered to prevent the covering from wearing off the rods when dragging down stairs, stone steps, &c., &c., which they are constantly subject to when in use.

are constantly subject to when in use.

All are made of the new and eegant corded tapes, and are the best quality inl every part giving to the wearer the most graceful and perfect shape possible, and are unquestionably the lightest, most derirable, comfortable and economical Skirt ever made.
