MARIETTA, PA:

Saturday-Morning, June 9, 1866.

A very interesting, and to some extent amusing, ceremony has been going on at the freedmen's village, Arlington Heights, during the past few days. By order of the freedmen's bureau, two hundred and forty-seven couples have been regularly united in wedlock by clergymen detailed for that purpose. Many of these are old persons, who are the parents of grown-up children, but who were never legally married. Such were quite loth to comply with the order, regarding their relations as having been practically realized grotesque scenes were the result. On wreaths, if not of orange flowers, then while jewelry was not lacking, and a few of the females whose pecuniary resources warranted it, were arrayed in white dresses entire. They stood in semi-circles and were married en masse fifteen or twenty couples at a time.

A correspondent of the Maine Farmer writes that about sixteen years age he placed eight trout in a small brook which empties into a pond. For seven or eight years nothing was seen or heard of them, but since that time at least two hundred pounds of excellent trout have been taken every year from the pond. A little attention to this matter would easily propagate fish in many waters now comparatively destitute of them.

On the 27th of June the venerable Amos Kendall leaves this country for a pleasure tour in Europe. Thirty-two years ago, as Postmaster General of Andrew Jackson's Cabinet, Mr. Kendall permitted Southern postmasters to rifle the mails and burn the anti-Slavery matter contained therein; in 1865 the same Amos Kendall gave \$84,000 to found the most anti-slavery Baptist Church in Washington.

The widow of General Eaton. formerly Secretary of War, who married, several years ago, an Italian in New York, has been deserted by him, after he had got in his possession and speut or converted into cash all her property, amounting to \$100,000. She had two granddaughters living with her, with one of whom her husband has eloped and gone to Europe.

The Canadian people have learned by this time that curses, like chickens, come home to roost. They winked at organized attempts of rebels to invade our frontier, murder unarmed men and rob banks, but when an armed force lands on their shores and seeks battle with soldiers they profess great horror at the breach of neutrality.

Pickpockets enjoyed a golden harvest, on Friday, at West Point, on the occasion of General Scott's funeral. Many distinguished characters were relieved of their money and valuables. General Grant, it is stated, lost his watch and Schuyler Colfax his purse.

The novelty in petticoats is a single deep flounce, which assists to hold up the skirt, and prevents it from clinging. This deep flounce is trimmed with several rows of narrow ruches, which are well starched. Two petticoats made in this way are considered equal to one crinoline.

Dr. Andrews made his second trial of his flying machine, in New York a few days since. He ascended 2,500 feet, and when last seen was over Blackwell's Island, three miles from the place of starting.

Washington gossip runs that Senator Ben. Wade has hurled a forty pound oath at Secretary Stanton during a testy talk upon Reconstruction, and that the two are no longer friends.

A gang of robbers, deserters and other bad characters, have organized themselves into a company for mutual defence against the law, in Western

North Carolina. m In Richmond, last week, business was suspended and the graves of the rebel dead in Hollywood Cemetery were

strewn with flowers. W. B. Read, of Philadelphia, has

volunteered to assist Jeff Davis on his trial, which has just been put off until October next.

I wo negro women, hitched to a plow, and driven by a man, were seen breaking ground near Alexandria, Va. the other day.

Maj. Gen. Hooker is rapidly recovering his health, and thinks he will be entirely well within a month. Easil for Europe.

A STRANGE RESEMBLANCE.—There was recently in the Southwest a tragedy, somewhat similar to the murder of the Deering family, by which a family named Deerfield was murdered. The murderer of the latter family has been convicted. His name is Coovert, and the Memphis Ledger states that there is a most remarkable resemblance between him and Probst. Both are 5 feet 7 or 8 inches high, have blue eyes, light hair, and walk and a stoop in the shoulders, and both served in the army. The strangest resemblance of all, however, is, that Coovert, like Probst, has lost the thumb of his right hand, which was shot off whilst he was in the service.

WHEATON'S ITCH CINTMENT .- It has been said that to 'get the itch is no disgrace, but it is disgraceful to keep it.' No one need have the itch forty-eight hours if they will use 'Wheaton's Ointment,' for it is a sure cure! We saw it tried on the persons of several children and adults a few weeks since, and the itching at once ceased, and in two days and sanctified by time and faithful ob- not an eruption was visible. It is effectservance; but they were all remarried, ual in removing pimples, blotches, and and of course much excitement and many especially old sores. We used the Ointment on one of our own children, and the part of many the desire for finery the effect was magical. A supposed son of Napoleon I. ecently committed suicide at Dresden, by drowning himself. He was in features and person the exact image of his alleged father, and his claims to this il-Instrious parentage were at one time strongly supported, but they were never recognized by Napoleon III. His moth. | proceed was the beautiful and famous Countess Kielmansegge.

The Empress Eugenie is said to be rapidly approaching that uncertain age which leaders of fashion so much dread. The fifth of May was her fortieth birthday, and the once young and beautiful Eugenie is beginning to show her years. Time is writing his wrinkles on her face, and she is gradually losing the firmness and delicacy of her features.

GIVE NATURE A LIFT .- People expect too much of Nature. They trifle with their health and their constitutions, and then are surprised that they fall sick.

The pressure of constant mental or bodily labor upon the animal powers is tremendous. Very few systems and constitutious can bear up against this pressure unassisted. Add to this the unhealthy influences which lurk unseen in the air we breathe, the water we drink, the artificial heat with which we endeavor to chase away the cold and marrow-searching moisture of winter, and it would seem to require almost superhuman vigor to keep in perfect health at this rigorous season without reinforcing the physical energies.

But how reinforce them? Certainly not with adulterated stimu ants. There is no poison in the outer air, or in the atmosphere of furnace-heated rooms, or workshops, or factories, so pernicious as those deadly-burning fluids.

Why use them, when Hostctter's Stomach Bitters, a vegetable tonic without alloy, are everywhere obtainable? Nothing has ever been offered to the feeble and debilitated so harmless in its nature, so powerful in its in vigorating effects, as this celebrated Stomachic and Alterative. In the army and the navy, in new settlements, and in crowded cities, by old and young, rich and poor, it is used as Protective and Restorative Medicine, with the most gratifying results. J.

Lyon's Periodical Drops. The great female Remedy for Irregularities .- These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, specdy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of p aise of their good merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world, for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found care fully folded around each bottle, with the written signature of John L. Lyon, without which none are genuine.

Prepared by Dr. John L. Lyon, 195 Chapel street, New-Haven, Conn., who can be consulted either personally or by mail, (enclosing male weaknesses. Sold by Druggists every where. C. G. CLARK & Co., Gen'l Agts for U.S. and Canadas.

A Single Box of BRANDRETH'S PILLS contain more vegetable extractive matter than twenty boxes of any pills in the world besides: fifty-five hundred physicians use them in their practice to the exclusion of other purgatives. The first letter of their value is yet scarcely appreciated. When they are better known, udden death and continued sickness will be of the past. Let those who know them speak right out in their favor. It is a duty which will save life. Our race are subject to a redundancy of vitiated bile at this season, and it is as dangerous as it is prevalent; but Brandreth's Pills afford an invaluable and efficient protection. By their occasional use we prevent the collection of those impurities which when in sufficient quantities, cause so much danger to the body's health. They soon cure Liver Complaint, Dyspepsia, Loss of Appetite, Pain in the Head, Hartburn, Pain in the Breast bone, Sudden Faintness and Costiveness. Sold by all respectable Dealers in Medicines.

To Consumptives .- The advertiser having been restored to health in a few weeks by a very simple remedy, after having suffered several years, with a severe lung affection, and that dread disease, Consumption, is anxious to make known to his fellow-sufferers the means of cure. Reduction in Price of the American Watches, made at Waltham, Mass.

In consequence of the recent great decline in gold and silver and all the materials used in the manufacture of our goods, and in anticipation of a still further decline, we have reduced our prices to as low a point as they can be placed WITH GOLD AT PAR, so that n one need besitate to buy a watch now from the expectation that it will be cheaper at some future time; the test of ten years and the man-

ufacture and sale of MORE THAN 200,000 WATCHES, have given our productions the very highest rank among time-keepers. Commencing with the determination to make only thoroughly excellent watches, our business has steadily increased as the public became acquainted with their value, until, for months together, we have been unable to supply the demand. We have repeatedly enlarged our factory buildings until they now cover over three acres of ground, and give accommodation to more than eight hundred workmen.

We are fully justified in stating that we now Make more than half of all the Watches sold in the United States.

The different grades are distinguished by the following trade marks engraved on the plate: American Watch Co.," Waltham, Mass. 2.- "Appleton, Tracy & Co." Waltham, Mass. 3 .- " P. S. Bartlett." Waltham, Mass. 4.- "Wm. Ellery,"

5 .- Our Ladies' Watch of first quality is named "Appleton, Tracy & Co., Waltham,

6.—Our next quality of Ladies' Watch is named "P. S. Bartlett, Waltham, Mass. These watches are furnished in a great variety of sizes and styles of cases.

The American Watch Co. of Waltham, Mass authorize us to state that without distinction of trade marks or price,

All the Products of their Factory are FULLY WARRANTED to be the best timekeepers of their class ever made in this or any other country. Buyers should remember that, unlike the guarrantee of a foreign maker who can never be reached, this warrantee is good at all times against the Company or their agents, and that if, after the most thorough trial, any watch should prove defective in any particular, it may always be exchanged for another. As the American Watches made at Waltham, are for sale by dealers generally throughout the country, we do

not solicit orders for single watches. CAUTION .- The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted. ROBBINS & APPLETON, ~
