By some misshap, in counting out per for our last week's edition, we biled to print enough and some twentyfit subscribers failed to receive papers. The we regret exceedingly, but "misples will happen in the best regulated polices;" we will prevent a recurrence, ad those missed shall have an additionjournber to make up their loss.

The fourth passed off very quietly in this place; "everybody and the rest nothind" having either "gone to the woods" or left the town, pleasure There was, however, a fight in erishtown" between a man and his rife, who were attending a ball of the first water," held in a stable. The asband and wife were brought before esquire Roath, who lectured the pair on connubial duties and then discharged them with his blessing and advice to "go and sin no more."

It appears that the hefore-to the side of his companion, and pulled the trigger, killing him almost instantly. This is another warning to parents of the recklessness of which none are genuine. allowing loaded fire arms within the much of children.

& The pic nic at Duffy's Park, on the fourth, was a grand affair, we learn, for unfortunately, we did not got there. preferring to witness the grand flag precotation in Philadelphia. But we learn everything passed off in the woods to the satisfaction of all. We looked for as much-knowing the managers would not do anything half-way.

The temperance meeting in Duffy's ther quite a crowd into that pleasant grove, many of whom, no doubt, leard, for the first time in a number of Jean, the gospel and temperance preached, Rev. Mr. Stringer having delivered a very able temperance sermon.

Special Notices:

A TIMELY WARNING TO THE SICK-It is specially important at this time, when the markets of the United States are flooded with the direst poisons, under the name of imported liquois, and when domestic compounds purporting to be medicinal, but not a whit less pernicious, are heralded to the world as "sovereign remedies," that the public should fully understand the facts. Be it known, then, that while all the diffusive stimulants called liquors are impure, and all the Tonics containing alcohol are manufactured with a fiery article containing amyl or fusel oil, a mortal poison, HOSTETTER'S CELEBRATED STOMACH BITTERS contain none of these things, but are a combination of pure essence of Rye with the pure juices of the most valuable stomachic anti-bilious and aperient herbs and plants, and that as a safe and rapid remedy for Dyspepsia and all its kindred complaints, this preparation stands before the world without a rival or competitor. Its sales to-day are equal to the combined sales of all the other tonics advertised in the United States, and the certificates which authenticate its usefulness are signed by individuals of the highest standing in every professional calling and walk of life. Beware of imitations and impostors.

Lyon's Periodical Drops. The great female Remedy for Irregularities .- These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of p aise of their good merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world, for the cure of all female complaints, the removal of all obstructions of nature, and the promotion bys were playing in a room when the of health, regularity and strength. REASONS WHY

The American Watch MADE AT WALTHAM, MASS. IS THE BEST.

It is made on the best principle. Its frame is composed of SOLID PLATES. No jar can interfere with the harmony of its working and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness) and is therefore properly made. The watch is what all mechanism i should be-ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by; women and boys. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "ancres," "lepines," and "English Patent levers," are perfectly well aware of the truth of this statement.

At the beginning of our enterprise, more than ten years ago, it was our first object to make a thoroughly good low priced watch for the million, to take the place of these foreign impositions-the refuse of foreign factorieswhich were entirely unsaleable at home and perfectly worthless everywhere.

How well we have accomplished this may be understood from the fact, that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGH-EST GRADE KNOWN TO CHRONOMET-RY, unequalled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We have erected an addition to our main buildings expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for less money than foreign watches, but we do assert without fear of contradiction that for the same money our product is incomparably superior. All our watches, of whatever grade, are fully warranted and his warrantee is good at all times against us or our

agents in all parts of the world, CAUTION .- The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted. ROBBINS & APPLETON,

N view of the coming elections, new and extensive arrangements have been made to give even greater variety and interest to

The Washington Weekly Chronicle. The necessity of maintaining the fruits of our great victory, and of strengthening those eternal principles upon which alone republican liberty car safely rest, will give extraordinary vitality to approaching political contests. Stationed here at the National Capital, the CHRONICLE possesses peculiar advantages to aid the common cause. Moving bear tages to aid the common cause. Having been conducted almost within the sound of the rebel cannon during all the war, and therefore rebel cannon during all the war, and therefore fully understanding the intrigues and projects of the traitors, it will not fear to speak out boldly in response to and in reflection of the sentiments of the free millions of America, and will defend them and their interests against all opposition, come from what quarter it may, Since the meeting of the present Congress of the United States, and the cuunciation of that thorough policy which has commanded the admiration and gratitude of the people, the CHAONICLE has maintained its position "solitary and alone." Traduced and misrepresented as these majorities have been, the Chronicle as their sincere and fearless defender, has been assailed with equal virulence fender, has been assailed with equal virulence and injustice. But it has been honored with the approval of the loyal people in all parts of the country. For the first time in the history of the Government, a prosperous weekly newspaper, opposed to human slavery, fully committed to the poiley and doctrines of the radical men of the Republic, has been firmly established in the District of Columbia. We are on the threshold of events not less important on the threshold of events not less important than those which astounded the civilized world and shook the Republic to its founda-

world and shook the Republic to its foundation. These will demand extraordinary energy and fidelity on the part of the public leaders, whether in Congress or the press.

The Weekly Chronicle is beautifully printed in quarto form. During the session of the present Congress, which promises to be a protracted one, the subjects debated will excite universal interest, and as they will be frankly and thoroughly examined and discussed in the Chronicle, as in both branches of Congress, this journal cannot fail to be a most useful and popular visitor to all loyal circles. useful and popular visitor to all loyal circles. I tkerefore cheerfully invoke the aid of the friends of the cause in the different States and

Territories.
