CONSUMPTIVES,

KEAD WHAT DR. SCHENCK IS DOING.

DR. J. H. SCHENCK. DEAR SIR :--- I feel it a duty I owe to you,

and to all who are suffering under the diseases known as Consumption and Liver Comptain 1,

and to an whet something inter the dominant, known as Consumption and Liver Complaint, to let them know what great benefits 1 have received from your Pulmonic Syrup and Sea-weed Tonic in so short a time. By the bless-ing of God it has cured me thus far. Dr. schefck. I will now make my state-ment to you, as follows:-- About eighteen months ag, 1 was stacked with a severe cough, and it settled on my lungs; I could not retain anything 1 ate, and suffered with evening fevers and night sweats. I was very much reduced. The whites of my eyes were very yellow; likewise my sain; my appetite all gone, and unable to digest what I did est; bowels syndlen, irregular and costive I was very low spirited, and hal such violent spells of coughing when 1 hay down at night and when I arose in the morning that they would last one or two hours.

when I arose in the morning that they would last one or two hours. I then would be nearly exhausted, and was entirely unable to lie on my left side. I can-not describe my wretched suffering as I would wish to do. Every organ in my body was dis-eased or deranged. Such was my situation at this time, and I was confined to my bed from the list of i ebruary, 1862, to June 1802, not able o sit up. I nad the best of medical at-tendance the whole of the time. My cough was so very bad that it racked me very muca-I at this time raised a targe quantity of thick, yellow, offensive matter, sometimes with blood and it was generally accompanied by nausea, and a furred and thick costed tongue. At the time of coughing so badly I would have sharp. time of coughing so badly i would have sharp, shooting pains in my left side and heart, night sweats, and soleness all through my whole coest; had much inward fever, pain in my back and under my shoulder blades and in the small of my back; and a; times so severe that it would throw me into chasms. Now my back and under my shoulder blades and in the small of my back; and a: times so severe that it would throw me into spasms. Now my physician gave me up to die. Others I had, and the best of them, but they could do noth-ing for me, and at that time I was nothing but skin and bone I then was in the western par' of Missouri. In June hast we left there for the East, and in August last we came to New York, and I was an reduced that I could only walk a little with my husband's help. After I had been here a short time the sait wa-ter breeze made me feel much better for a time and then I had again to call a physician for aid. We had four of the best physicians of New York on the diseases of the langs, and doctors of all kinds, but of no avail. They s id I was past cure, and that my lungs were too far gone for any one to cure me. But at this time I was on my feet about the house, not able to do much of anything. In Novem-ber last I grew worss, and the consumption diarthes act in and lasted about eight weeks. We had the a diver complaint—but of no avait. In January, 1863. I was brought down

avait In January, 1863, I was brought down again on my bed, and was not expocted to hve the night out. My husband stayed at my suc, and other friends, and they all gave me up to die. At this time every one who saw me did not think I would ever leave my bed a living woman. The first night I was at-tacked with spasms, and was deranged most of the time. A friend, Mrs. Harris, came to see me the last of the week, and, brought the sunday Mercury. In it was an account of a great care periormed by Dr. Schenck. She read it to me, and it was so much like my disease that I asked my husband to go and see him for me. At this time I had given up all hopes of ever getting well again, and made my peace with God, to be ready whenever he called tor me. On the 27th of January, 1865, my husband called on Dr. Schenck, 32 Bond street, New York, and stat d to him my case, with a re-quest for him to call and see me, which he did, and examined me with the respirometer. When he was about to go I asked him if he could care me? His reply was: "I cannot tell, both Jungs are diseased, and the oronchi-al tubes are alfected on both sides." And yet he seemed to think there were lungs enough tet to effort a cure if the duarrhea could be vait. In January, 1863, I was brought down

AN IMPROVED LANTERN. THIS is the most desirable Lantern in the market. It burns Coal Oil without a chimney, emitting neither smoke nor smell. It gives a pure white light. It stands quick motions in any direction. The flame is regulated from the outside. It is neat and compact in form and size. It is neat and compact in form and size.

It is free from solder in the upper parts, and is otherwise very substantial in its structure. *PRICE, ONE DOLLAR.* For sale at JOHN SPANGLER'S
