THE REAL VALPAU FEMALE PILLS! NWARRANTED FRENCH. 7

These Pills, so celebrated many years ago in Pans, for the relief of female irregularities, and afterwards so notorious for their criminal employment in the practice of abortion, are now offered for sale for the first time in America. They have been kept in comparative obscurity from the fact that the originator, Dr. VALPAU, is a Physician in Paris of great wealth and strict conscientious principles, and has withheld them from general use, leat they should be employed for unlawful purposes. In overcoming female obstructions they seem to be truly omnipitent, bursting open the flood gates from whatever cause may have stopped them; but they are offered to the public only for legitimate uses, and all agents are forbid-

CONSUMPTIVES,

KEAD WHAT DR. SCHENCK IS DOING. DR. J. H. SCHENCK.

DEAR SIR:—I feel it a duty I owe to you, and to all who are suffering under the diseases known as Consumption and Liver Compiaint, to let them know what great benefits I have received from your Pulmonic Syrup and Sea-weed Tonic in so short a time. By the blessing of God it has cured me thus far.

Dr. Schenck, I will now make my statement to you, as follows:—About eighteen months upo I was attacked with a severa cough, and it settled on my lungs; I could not retain anything I ate, and suffered with not retain anything I ate, and suffered with evening fevers and night sweats. I was very much reduced. The whites of my eyes were very yellow; likewise my skin; my appetite all gone, and unable to digest what I did eat; bowels swollen, irregular and costive. I was very low spirited, and had such violent spells of coughing when I lay down at night and when I arose in the morning that they would last one or two hours.

when I arose in the morning that they would last one or two hours.

I then would be nearly exhausted, and was entirely unable to lie on my left side. I cannot describe my wretched suffering as I would wish to do. Every organ in my body was diseased or deranged. Such was my situation at this time, and I was confined to my bed from the last of February, 1862, to June 1802, not able to sit up. I had the best of medical attendance the whole of the time. My cough was so very bad that it racked me very much. I at this time raised a large quantity of thick, yellow, offensive matter, sometimes with blood yellow, offensive matter, sometimes with blood and it was generally accompanied by nauses, and a furred and thick coated tongue. At the time of coughing so badly I would have sharp, shooting pains in my left side and hearf, night sweats, and soreness all through my whole chest; had much inward fever, pain in my back and under my shoulder blades and in the small of my back, and at times so severe that it would throw me into spasms. Now my physician gave me up to die. Others I had, and the best of them, but they could do noth-ing for me, and at that time I was nothing but skin and bone. I then was nothing but skin and bone. I then was in the western part of Missouri. In June last we left there for the kast, and in August last we came to New York, and I was so reduce I that I could only walk a little with my husband's help. After I had been here a short time the sat water breen trace. ter breeze made me feel much better for a time and then I had again to call a physician for aid. We had four of the best physicians of New York on the diseases of the lungs, and doctors of all kinds, but of no awail. They said I was past cure, and that my lungs were too far gone for any one to cure me. But at this time I was on my feet shout the buse this time I was on my feet about the house, not able to do much of anything. In November last I grery worse, and the consumption diarrhes set in and lasted about eight weeks. We had tried all and everything that I could grasp at like a dying person for my disease— consumption and liver complaint—but of no

In January, 1863, I was brought down again on my bed, and was not expected to live the night out. My husband stayed at my side, and other friends, and they all gave me up to die. At this time every one who saw me did not think I would ever leave my bed a living woman. The first night I was attacked with spasms, and was deranged most of the time. A friend, Mrs. Harris, came to see me the last of the week, and brought the see me the last of the week, and brought the Sunday Mercary. In it was an account of a great cure performed by Dr. Schenck. She read it to me, and it was so much like my disease that I asked my husband to go and see him for me. At this time I had given up all hopes of ever getting well again, and made my peace with God, to be ready whenever he called for me.

On the 27th of January, 1865, my husband called on Er. Schenck, 32 Bond street, New York, and stated to him my case, with a request for him to call and see me, which he did, and examined me with the respirometer. When he was about to go I asked him if he

When he was about to go I asked him if he could cure me? His reply was: "I cannot tell, both lungs are diseased, and the bronchial tubes are affected on both sides." And yet he seemed to think there were lungs enough left to effect a cure if the diarrhea could be stopped. He said in order to do this, he would have to give me Mandtake Pills in small doses at first, to carry off the morbid matter, and then, with astringents, he hoped to check it, which he did, but the constant coughing, n, which he did, but the constant coughing, night sweats, and diarrhea had prostrated me no that he was afraid my vital powers were too much prostrated ever to rally, and yet he seemed to think if I could live to get enough Pulmonic Syrup through my system to cause expectoration there were lungs enough left for me to recover. He wished me to try the Pulmonic Syrup and Samped Tonic at once Pulmonic Syrup and Seaweed Tonic at once, no good. The first week it seemed to give me strength, so that on Sunday after I sat up in bed and ate hearty for a sick woman; but the next week I lost all hope and wished my husband not to give me any more medicine.

Ju the doctor had warned him of this, and when the medicine was clearing out the system it made them feel somewhat restless, and to persevere; and he insisted on my taking it; and now I feel the benefit of it. For after eight days I began to gain my strength, and, with the exception of a cold that put me back some, I have been gaining strength of body, my cough is going away, and all my pains are gone; no soreness of the bedy, my bowels are regular, and my breath is sweet, and I thank God that I am now going about, and sew and read as well as ever I could. I have taken sixteen bottles of the medicine, eight of each. I now have a good appetite and test well at night; my cough does not trouble me in getting up or lying down. I would here say to the afflicted with consumption or liver complaint, that Dr. Schenck is no humbug You can rely on what he says. Delay not; it is dangerous to trifle with these diseases. If

you would be cured, go at once; and any one wishing to know the facts as herein stated can call at my residence, 117 West Houston atreet, New York city. atreet, New York city.

HEADLEY'S HISTORY OF THE

GREAT REBELLION! THE late rebellion stands out peculiar and A extraordinary in human even's; and the magnificent scale upon which the war has neen conducted, constitute it one of the grandest and most brilliant chapters of the world's

histo y.

Mr. Headley, of all writers, is perhaps best qualified to portray the the stupendous features of the mighty contest. His previous works on less momentous themes have placed him in the first position, as a graphic and powerful deleniator of war scenes and characters, and the magnitude and grandeur of the present subject, impart to his peu the fire and vigor of a yet more exacted inspiration, and fur hish ample scope for the highest exhibition of his peculiar genius for military description. his peculiar genius for military description. Under his powerful pen the stirring scenes of the War pass in review with the vividness and distinctness of a present and living reality; while his great talent for condensation enables him to embody everything of importance in a compass just suited to the public want. From no other source can so clear and comprehensive an impression of the grand march of events be obtained, so easily and agreeably as from Mr. Headley's work. Other histories have been issued before

AN IMPROVED LANTERN.

THIS is the most desirable Lantern in the market. It burns Coal Oil without a Chimney, emitting neither smoke nor smell. It gives a pure white light.

It stands quick motions in any direction. The flame is required from the auticle.

The flame is regulated from the outside. It is neat and compact in form and size. It is free from solder in the upper parts, and is otherwise very substantial in its structure.
