THE REAL VALPAU FRMALE PILLS!

[.WARRANTED PRENCH.]

These Pills, so celebrated many years ago in Paris, for the relief of female irregularities, and afterwards so notorious for their criminal employment in the practice of abortion, are now offered for sale for the first time in America. They have been kept in comparative obscurity from the fact that the originator, Dr. VALPAU, is a Physician in Paris, of great wealth and strict conscientious principles, and has withhold them from general use. Lest they has withheld them from general use, lest they should be employed for unlawful purposes. In overcoming female obstructions they seem to be truly empirient, bursting open the flood gates from whatever cause may have stopped them; but they are offered to the public only for legitimate uses, and all agents are forbidden to sell them when it is understood that the object is unlawful. For sale by Dr. F. Hinkle, Marietta; P. A.

Pole Sale by Dr. R. Hinkie, Marietta; P. A. Pyle, Mountjoy; H. D. Parry and R. Williams, Columbia, and druggists generally.

HISTORY OF THE

GREAT REBELLION! THE late rebellion stands out peculiar and extraordinary in human events; and the magnificent scale upon which the war has been conducted, constitute it one of the grandest and most brilliant chapters of the world's

history.
Mr. Headley, of all writers, is perhaps best qualified to portray the the stupendous features of the mighty contest. His previous works on less momentous themes have placed him in the first position, as a graphic and powhim in the first position, as a graphic and powerful deleniator of war scenes and characters,
and the magnitude and grandeur of the present subject, impart to his pen the fire and vigor of a yet more exacted inspiration, and fur
nish ample scope for the highest exhibition of
his peculiar genius for military description.
Under his powerful pen the stirring scenes of
the War pass in review with the vividness and
distinctness of a present and living reality;
while his great talent for condensation enables him to embody everything of importance bles him to embody everything of importance in a compass just suited to the public want. From no other source can so clear and comprehensive an impression of the grand march of events be obtained, so easily and agreeably as from Mr. Headley's work.

Other histories have been jesued before

Other histories have been issued before Grant's Report and other official documents were submitted to the government, and there-fore unreliable. Mr. Headley has delayed the completion of this till those documents so esential to authenticity and correctness could

It is reduced to a pulverized condition, ready for immediate use, and without loss of its highly nitregenous fertilizing properties. Its universal application to all crops and soils, and its durability and active qualities,

well known to be all that agriculturists Can disire.

CHEMICAL COMPOST. This Fertilizer is largely composed of animal matter, such as ment, bone, fish, leather, hair and wool, together with chemicals and inorganic fertilizers, which decompose the mass, and re-

tain the nitrogenous elements.

It is a very valuable fertilizer for field crops generally, and especially for potatoes and

garden purposes.

Its excellent qualities, strength and cheapness, have made it very popular with all who

COMPOSITE FERTILIZER. This high ly phosphatic fertilizer, is particularly adapted for the cultivation of Trees, Fruits, Lawns and Flowers. It will promote a very vigorous and healthy growth of wood and fruit, and largely increase the quantity and perfect the maturity of the fruit. For hot-house and household plants and flowers, it will be found an indispensable article to secure their greatest perfection. It will prevent and cure diseased conditions of the peach and grape, and is excellent for grass and lawns.
It is composed of such elements as make it adapted to the growth of all kinds of crops in all kinds of soils.

The formula or method of combining its constituent fertilizing ingredients have received the highest approval of eminent chemists and scientific agriculturists.

PHOSPHATE OF LIME. The Agricultu-ral Chemical Company manufacture a Phosphate of Lime in accordance with a new and valuable formula, by which a very supe-tion article is produced, so far as to be afforded at a less price than other manufacturers charge. Practical tests have proved that its value, as fertilizer, is equal to the best Phosphate of Lime in the market.

the CHRONICLE possesses peculiar advantages to aid the common cause. Having been conducted almost within the sound of the rebel cannon during all the war, and therefore fully understanding the intrigues and projects of the traitors, it will not fear to speak out boldly in response to and in reflection of the sentiments of the free millions of America, and will defend them and their interests against all opposition, come from what quar-terit may, Since the meeting of the present Congress of the United States, and the enunciation of that thorough policy which has com-manded the admiration and gratitude of the people, the Chronicle has maintained its position "solitary and alone." Traduced and misrepresented as these majorities have been, the Chronicle as their sincere and fearless defender, has been assailed with equal virulence than those which astounded the civilized world and shook the Republic to its founda-tion. These will demand extraordinary ener-

gy and fidelity on the part of the public lead ers, whether in Congress or the press.

The Weekly Chronicle is beautifully printed in querto form. During the session of the present Congress, which promises to be a protracted one, the subjects debated will excite universal interest, and as they will be frankly and thoroughly examined and discussed in the Chronicle, as in both branches of Congress, this journal cannot fail to be a most useful and popular visitor to all loyal circles. I therefore cheerfully invoke the aid of the friends of the cause in the different States and Territories.

to the Mercantile community, by DR. J. H. S CHENCK,
THE GREAT LUNG DOCTOR OF PHILADELPHIA.

OFFICE N. Y. AND GALENA LEADCO.,
No. 28 Nassasu St., New York, June 1, 1865.
DR. J. H. SCHENCK—Dear Sir:—For over fifteen years I have been troubled with a severe cough, and usually two or three times a year with more or less hemorrhage, which together, for the last few years, has kept me thin in flesh and too weak to do business of any kind witnout suffering. In August last I had a very severe hemorrhage, and, according to a very severe hemorrhage, and, according to the judgement of a good New York physician, I was classed as beyond the reach of medicine and was advised to be prepared, so far as proand was advised to be prepared, so far as property matters were concerned, to leave at short notice. The physician (and my good friends) said that the first cold I took must prove fatal. Early in January I took a severe cold, and fortunately was occupying rooms at No. 32 BOND STREET, directly over your office. I think about the 16th of January I procured a bottle of your Pulmonia Navy and commenced taking it fresh ic Syrup and commenced taking it freely My feet and limbs were very much swollen ic Syrup and commenced taking it freely. My feet and limbs were very much swollen, and all the symptoms of a speady death seemed to accompany my cold. I sent for my former physician, and stated to him that I was taking your medicine, and after showing them to him, and having tasted of them &c., he replied: "You can take them if you, like they will do you no harm." He said: "You know what I told you last summer, and I say the same now, if you have any business to close up, do not put it off." He said to other friends that he "could see no hope for me," and my friends and relations concluded my time had come. At this time I was taking freely of you medicine, but had not seen you. The doctor called a few times, and found me (much to his surprise, he said,) improving, and he could not understand why. My faith was increasing in your medicines, and I had a wish to have you examine my case, and see what you had to say. When you first came to my room and made the examination, you gave me but little encouragement, but on the contrary, expressed said doubts of my ever being helped out of my then seeming difficulties. The second time that you called, finding me still gaining, you gave me encouragement, saying, "my symptoms were improving me still gaining, you gave me encourage-ment, saying, "my symptoms were improv-ing; the Pulmonic Syrup, Sea-weed Tonic and Mandrake Pills had acted like a charm." and Mandrake Pills had acted like a charm."
My circulation, my cough, my appetite, all began to improve, and I could walk about my room a little. You visited me nearly every Tuesday, and found me improving, and told me not to go out of my room until the first day of May. I took no cold while under your treatment, my appetite became first-rate, and you told me to eat everything I wished of a nutritious nature, and to exercise about the room as much as rossible. I followed your room as much as possible. I followed your advice, and to the surprise of my old physician and friends, I seem much better than I have been for several years, and breathe better than I ever expected a person could with one lung the left being completely dried up. I fee

very grateful to you, and consider your advice and medicines invaluable. Yours, truly, T. S. SHELDON.

DR. SCHENCK-Dear Sir : - About two years ago I was taken with a very troublesome cough and a pain in my breast; seven or eight months passed away without my doing anything for myself. Then I applied to a physician, who attended me for about three The necessity of maintaining the fruits of our great victory, and of strengthening these eternal principles upon which alone republican liberty can safely rest, will give extraordinary vitality to approaching political contests. Stationed here at the National Capital, the CHRONICLE nossesses neguliar adventage of the contest of the co al times my friends came to see me and wit ness my exitinto the spirit-world. I was confined to my bed two months at one time. My breathing was exceedingly short. I gave up several times all hope of getting better; and as regarded getting well, that was entirely out of the question. And to think this day I am well and hearty! I was advised by some of my friends to try Dr. Schench's Medicines. I accordingly bought bottle after bottle, until I reached the ninth; then I found a decided change in my cough for the better. I suffered severely from palpitation of the heart, and two severely from palpitation of the heart, and two

weeksafter I commenced taking your medicine this difficulty ceased.

When I first went to Dr. Schenck's office it was with difficulty that I could get up into his reception room, I was so weak and so swelled; my skin was as sallow as though I had the jaundier. I felt dull, however all releases. ice: I felt dull, heavy, and and injustice. But it has been honored with the approval of the loyal people in all parts of the country. For the first time in the history of the Government, a prosperous weekly newspaper, opposed to human slavery, fully committed to the poicey and doctrines of the radical men of the Republic, has been firmly cstabilished in the District of Columbia. We are not the threshold of events not less important than those which astounded the civilized world and shook the Republic to its foundation. To show what great power the medicines have in purifying my system, and to show how bad I was diseased, beside all the bile that passed my bowels, and the great quantities of phiegm and matter I expectorated, I broke out all over in large boils, that would continue to gather and run for about six weeks, and I had at one time over twenty-five boils. There nothing of the kind, now, and boils. I have nothing of the kind now, and feel like another person altogether. I can safely say that I have not enjoyed such health for five years as I do now, and cannot praise you and your medicines enough. May God abundantly bless and preserve you! is the sincere desire of one who has been so wonderful ly relieved through your agency; and if any one desires to know with regard to the truthfulness of this report, if they will call upon any of my friends, or upon me, No. 4 Dryden Place, near Thompson street, below Cadwalader, Philadelphia, they will be perfectly satisfied with the validity of the case.
