SPECIAL NOTICES. MALARIA EVERWHERE.—Rarely has there been a season so fruitful as this of malarious diseases. Not only on the parishes and in the valleys of the West; not merely in all the old haunts of Fever and Ague and Malaria cases being unusually virulent; but they have extended to towns and cities never before feasted with them, and have ascended the mountains and attacked thousands of people supposed to have been placed by the laws of Nature above their reach. Hence we are compelled to admit that a fatal element prevades the universal air this season, and should at once resort to the only approved preventive. Hostetter's Stomach Bitter, a tonic so potent, an anti-septic so perfect, an alterative so irrefragable, and a stimulant so pure, that it enables the human system to resist and baffle all the predisposing causes of disease. With the confidence that one clothed in incandescent garments might have among blazing buildings, the man who wears himself against malaria with this powerful defensive medicine may walk a fever-scorched district fearless of its insalubrious atmosphere. The interments and restitutes at present in general in all parts of the country may be the forerunners of a deadlier scourge now on its way westward from the far East. Prepare the system with Hostetter's Bitter for a successful battle with the mephitic causes of all epidemics. Be wise in time. Sold everywhere.—New York World, Nov. 6, 1885.
