Hon. Henry J. Raymond declines being a candidate for re-election to Congress. His letter concludes as follows:

I am greatly obliged to you for your request that I would allow my name to be used as a candidate for re-election. But there are many considerations which would render this unwise.

My past action does not command the approval of a large body among those who originally gave me their votes; and apart from such approval, so far as it can be had consistently with proper independence of personal opinion, a seat in Congress ceases to have for me any attraction, or to offer any opportunity for useful public service, and I shall best consult my own self-respect, as well as the sentiments of my constituents and the interests of the Union cause, by withdrawing my name from the canvass altogether.

Mr. Clymer, when Senator, voted to pay the interest on the public debt of this State in gold and silver, while the soldier was paid in currency. A large portion of our State debt is held by the English shipbuilders, the Laird Brothers. These are the men who built vessels for the rebel navy, and it seems Mr. Clymer was anxious to reward them for the services they rendered the confederacy. It cost the State of Pennsylvania over two million of dollars to pay the interest on its debt in specie instead of in currency.

Gonzales and Pellicies, convicted of the murder of Otero in Brooklyn, have made partial confessions of their own guilt, but claim that Viele, the principal witness against them, was the man who really planned and helped to execute the murder for which they suffer the death penalty.

The fact that Hiester Clymer has failed to take successful issue with the great truths and guarantees of the new or fifteenth article of the National Constitution, and is forced to confine himself to the negro question, is an overwhelming augury of defeat to him and success to us.

The Southern Union men, our only friends in the recently insurrectionary States are waiting with agony to hear whether Pennsylvania will decide in favor of Andrew Johnson and Jefferson Davis, their foresword and confederated foes.

The London Times thinks that the politicians will plunge the United States into another civil war before the next Presidential election.

The clerks at the White House have been forbidden by the President to furnish lists of appointments to the representatives of the press.

The mammoth Canada cheese is to be exhibited at the Paris Exhibition.

A New "Dodor."—The wife of a merchant was walking a few days since in the Rue du Faubourg, Saint Antoine, Paris, when a young girl, about thirteen, threw herself on her neck, exclaiming: "Oh! my dear aunt!" The lady released herself from the embrace, telling the child that she was mistaken. "Ah!" said the girl in a sorrowful tone, looking attentively at the lady, "I see I have made a mistake," and she went away as if to hide her confusion. Not long after the lady missed her purse, and all at once the idea struck her that the child might have taken it. She accordingly returned, and after a long search discovered the child in a wine shop, with her father and mother. They were all arrested, and the purse was found on the mother.

REVOLVING PISTOLS.—It is stated that at Dresden there is a revolving pistol more than two hundred years old, and having six barrels, to each of which the flint-lock adjusts itself by turning on a pivot. A similar weapon was on exhibition at the New York World's Fair in 1853, and belonged to a collection of ancient arms brought from the Tower of London. The American Artisan calls it the "patent revolver." It is a subsequent adaptation of the principle of these pistols, that his patent was not for the revolving cylinder, but for making it self-revolving by the act of cocking the hammer.

BORAX IN WASHINGTON.—In Belgium and Holland linen is prepared beautifully, because the washerwomen used refined borax instead of soda, as a washing powder. One large handful of borax is used to every ten gallons of boiling water, and the saving in soap is said to be one-half. For laces and cambrics an extra quantity is used. Borax does not injure the linen, and it softens the hardest water. A teaspoonful of borax added to an ordinary sized kettle of hard water, in which it is allowed to boil, will effectually soften the water.

There is a rivalry between Lowell and Fall River, Massachusetts, each place striving for the first place in the matter of manufactures. It has been claimed for the last mentioned place, that by the first of January next, it will have 428,000 spindles running; whereas the Courier of Lowell declares that in that city the incorporated companies had on the first of last January 437,420 spindles running, besides numerous private enterprises.

Grant and Farragut have both expressed to Gen. Cox, of Ohio, their utter disapproval of the President's policy, and heartily commended that of Congress. Both gentlemen said substantially that they were participants in the President's campaign tour by express instructions, and not from any inclinations on their part. The conversations were not strictly private, for several parties were present.

A woman in Charleston, S. C., begged for eighty dollars to bury her husband. A benevolent lady visited her home to take her the money. In a darkened apartment lay the corpse, the widow was crying and everything looked very melancholy. She left the eighty dollars and departed, forgetting her parcel. Returning she found the corpse carefully counting the money.

Senator Cowan, the renegade, has been repudiated at home. A meeting was held some time ago at his home in Westmoreland, and he asked the privilege of addressing his old friends which was promptly rejected. Let Cowan like Senator Lane of Kansas, rather, shoot himself than face the friends whom he has betrayed and disgraced!

At a meeting of officers of the National Union Johnson Club, held recently, it was stated by Mr. Cornelius Wendell that the club was in debt to the amount of \$31,000, and that he intended to assess the members of the cabinet, specifying them by name, \$5,000 each, and another member \$2,500.

The New Haven Historical Society has Benedict Arnold's account book, and the sign of the store in which he did business before the Revolution. The inscription on it reads, "B. Arnold, druggist bookseller, &c., from London: Sibi tunc ique."

It is said to be dangerous to be working where there is a sewing machine near a window during a thunderstorm. It is also dangerous to the hearts of one sex to be near some sewing machines when there is no thunderstorm.

Mr. Pillsbury, the defeated Copperhead candidate for Governor of Maine, has just been appointed to a pension agency in that State. Pay said to be \$3,000.

If you have lost a father, son, brother or dear friend in the war, remember that the rebels caused that loss, and that the Copperheads appear before the people as their open champions.

Gold mining is carried on to quite an extent and with good results, in the State of Vermont.

The booksellers of Atlanta, Ga., refuse to sell Harper's Weekly, on account of its bitterness toward the south.

PUBLIC SLAUGHTER HOUSE.—The Board of Health of New York having pronounced against the policy of permitting slaughter houses to remain in that city, very large abattoir buildings have been put up at Communipaw bay, New Jersey. They are now finished, and during the present week they were inspected by a large company of gentlemen. They pronounce the establishment complete for the purpose intended, every available improvement being introduced, and there being ample accommodations for a large number of butchers. The slaughter-house has facilities by which twelve hundred bullocks, three thousand sheep, and fifteen hundred hogs can be slaughtered daily. There is a very large ice-house, for storing the meat in warm weather. There are also large tanks, engines and machinery for the melting of fats, storage of hides and skins, and other arrangements which assist economy and cleanliness. The whole affair is constructed for utility, and it is claimed that butchers can realize much more from the cattle, etc., which they kill through the arrangements of the abattoir, than in any other way.

A CHARMING EXPERIENCE.—A man named Costello, known as the "Snake Charmer," gave an exhibition of his power over dangerous reptiles at the American Theatre, in Buffalo, Tuesday night, and after the performance was over was descending the stairs with a number of rattlesnakes inside his shirt, and around his person, when one of them, forgetting his charms, bit him. He was surrounded by a dense crowd at the time, and it is supposed that in the press one of the snakes was hurt, and becoming irate, revenged itself on him. He received prompt medical attendance, but the poisoned flesh became very much swollen, his mind became deranged, and the lock jaw set in. At last accounts he was improving.

Jephtha M. Gorman, at Corunna, Mich., attempted last week to perform on a tight rope stretched from the roof of a house to the cupola of the court house. He accomplished several feats and finally undertook to balance himself on his back on the rope, and sliding off head downwards, to catch the rope under his knees, and hang thus suspended. In executing this he lost his presence of mind until he felt the rope touch his heels. He then exerted himself to keep from falling head downwards. He tried to turn so as to alight on his feet, but only partially succeeded. He fell a distance of forty feet on his hip and back on the hard ground. His spinal column was injured, his limbs paralyzed, and it was not expected that he would recover.

A most distressing affair took place in Indianapolis on Saturday. A young man by the name of Leonidas Johnson, aged about 17 years, was shot and instantly killed by his room-mate. Johnson had risen during the night and gone out, and on returning, in opening the door, was mistaken for a burglar by his room mate, who drew a pistol and fired. The ball passed through young Johnson's head, and he fell dead on the spot.

It appears that only four persons were killed outright at Johnston, Pa., by the accident during the President's visit; but several of the 350 injured cannot survive. Besides \$1700 subscribed in aid of the sufferers, at a late meeting of the citizens of Johnston, it was resolved that each merchant, professional man, mechanic and laborer should give them one day's wages.

O. C. Hinsdale, of Cleveland, Ohio after experimenting many years, has discovered the process of making Russia sheet iron, which has so long been kept a secret in Russia. A company called the "American Sheet and Boiler Plate Company," is to be organized in that city, for the purpose of manufacturing the "Hinsdale Iron."

Remember that Gen. Geary raised the 28th Penn'a. regiment, at his own expense—\$27,000! What has Mr. Clymer done? Will the Democracy tell us? He voted against raising the pay of soldiers, against their having the right to vote, and against legalizing the paying of bounties.

An Italian modeler named Alexander A. Urania, shot and killed his employer, Peter Fanari, in Elm street, New York city. After committing the deed he attempted to fly, but upon being closely pursued he stopped, and placing the revolver to his head, blew his own brains out.

In the Johnstown accident 22 persons had each one leg broken; 4 both legs broken; 14 each a collar bone or arm; 2 each a leg and an arm; 1 both a thigh and shoulder; 2 had noses broken.

Special Notices.

MALARIA EVERYWHERE.—Rarely has there been a season so fruitful as this of malarial diseases. Not only on the parishes and in the valleys of the West; not merely in all the old haunts of Fever and Ague and Bilious Remittent; Fever have these prostrating diseases been unusually violent; but they have extended to towns and cities never before infested with them, and have ascended the mountains and attacked thousands of people supposed to have been placed by the laws of Nature above their reach. Hence we are compelled to admit that a fatal element pervades the universal air this season, and should at once resort to the only approved preventive of its consequences, Hostetter's Stomach Bitters, a tonic so potent, an anti-septic so perfect, an alterative so irresistible, and a stimulant so pure, that it enables the human system to resist and baffle all the predisposing causes of disease. With the confidence that one clothed in incombustible garments might move among blazing buildings, the man who arms himself against malaria with this powerful defensive medicine may walk a fever-scorched district fearless of its insalubrious atmosphere. The intermittents and remittents at present so general in all parts of the country may be but the forerunners of a deadlier scourge now on its way westward from the far East. Prepare the system with Hostetter's Bitters for a successful battle with the mephitic causes of all epidemics. Be wise in time. Sold everywhere.—New York World, Nov. 6, 1865.

To CONSUMPTIVES.—The advertiser having been restored to health in a few weeks by a very simple remedy, after having suffered several years, with a severe lung affection, and that dread disease, Consumption, is anxious to make known to his fellow-sufferers the means of cure. To all who desire it, he will send a copy of the prescription, free of charge, with the directions for preparing and using the same, which they will find a sure cure for Consumption, Asthma, Coughs, Bronchitis, Colds, and all throat and lung affections.

The only object of the advertiser in sending the prescription is to benefit the afflicted and spread information which he conceives to be invaluable, and he hopes every sufferer will try his remedy, as it will cost them nothing, and may prove a blessing.

Parties wishing the prescription, FREE, to return mail, will please address Rev. EDWARD A. WILSON, Williamsburg, Kings County, New-York.

BLACK AS A CROW, a few years since, was many a splendid head that is now grey or grizzled. Why not restore to the yet unwrinkled brow its raven honors? Five minutes effects the splendid transformation. In less time than a rifleman would take to Load and Fire three times, the grayest head may be made darker than the Raven's wing. No matter of what undesirable tint the hair or whiskers or beard may be, the change to a superb and perfectly natural black or brown is accomplished by one application of CHRISTADORO'S HAIR DYE, without staining the skin or injuring the filaments.

Manufactured by J. CHRISTADORO, 6 Astor House, New-York. Sold by all Druggists. Applied by all Hair-dressers.
