THE REAL VALPAU FEMALE PILLS [WARRANTED FRENCH.]

These Pills, so celebrated many years ago in Paris, for the relief of female irregularities, and afterwards so notorious for their criminal employment in the practice of abortion, are now offered for sale for the first time in America. They have been kept in comparative obscurity from the fact that the originator, Dr. VALPAU, is a Physician in Paris, of great wealth and strict conscientious principles, and has withheld them from general use, lest they should be employed for unlawful purposes. In overcoming female obstructions they seem to be truly omnipitent, bursting open the flood gates from whatever cause may have stopped them; but they are offered to the public only for legitimate uses, and all agents are forbidden to sell them when it is understood that the object is unlawful.

CONSUMPTIVES,

KEAD WHAT DR. SCHENCK IS DOING. DR. J. H. SCHENCK.

¹ DR. J. H. SCHENCK. DEAR Str. --- I feel it a duly I owe to you, and to all who are suffering under the diseases known as Consumption and Liver Complant, to let them know what great benefits I have received from your Pulmonic Syrup and Sea-weed Tonic in so short a time. By the bless-ing of God it has cured me thus far. Dr. Schenck, I will now make my state-ment to you, as follows:-- About eighteen

ment to you, as follows:-About eighteen mouths ago I was attacked with a severe cough, aud it settled on my lungs; I could not retain anything I ate, and suffered with evening fevers and night sweats. I was very much reduced. The whites of my eyes were very yellow; likewise my skin; my appetite all gone, and unable to digest what I did eat; an gone, and that is a block of high what is the extra bowels swollen, irregular and costive I was very low spirited, and had such violent spells of coughing when I hay down at hight and when I arose in the morning that they would last one or two hours. I then would be nearly exhausted, and was entirely upphle the field I can.

I then would be hearly exhausted, and was entirely unable to lie on my left side. I can-not describe my wretched suffering as I would wish to do. Every organ in my body was dis-eased or deranged. Such was my situation at this time, and I was confined to my bed from the last of February, 1862, to June 1862, not able to sit up. I had the best of medical at-tendance the whole of the time. My cough was so ware had that it resided me very much was so very bad that it racked me very much. I at this time raised a large quantity of thick, yellow, offensive matter, sometimes with blood

the small of my back, and at times so severe the small of my back, and at times so severe that it would throw me into spasms. Now my physician gave me up to die. Others I had, and the best of them, but they could do noth-ing for me, and at that time I was nothing but skin and bone I then was in the western part of Missouri. In June last we left there for the East, and in August last we came to New York, and I was so reduce I that I could New York, and I was so reduce t that I could only walk a little with my husband's heip. After I had been here a short time the sait water breeze made me feel much better for a time and then I had again to call a physician for aid. We had four of the best physicians of New York on the diseases of the lungs, and doctors of all kinds, but of no avail. They said I was past cure, and that my lungs were too far gone for any one to cure me. But at this time I was on my feet about the house, not able to do much of anything. In Novem-ber last I grew worso, and the consumption diarrnea set in and lasted about eight weeks. We had tried all and everything that I could grasp at like a dying person for my diseaseconsumption and liver complaint-but of no

avail. In January, 1863, I was brought down again on my bed, and was not expected to live the night out. My husband stayed at my side, and other friends, and they all gave me up to die. At this time every one who saw me did not think I would ever leave my bed a living woman. The first night I was at-tacked with spasms, and was deranged most of the time A friend, Mrs. Harris, came to see me the last of the week, and brought the Sunday Mercury. In it was an account of a avail. see me the last of the week, and brought the Sunday Mercury. In it was an account of a great cure performed by Dr. Schenck. She read it to me, and it was so much like my disease that I asked my husband to go and see him for me. At this time I had given up all hopes of ever getting well again, and made my peace with God, to be ready whenever he called for me.

called for me. On the 27th of January, 1865, my husband called on Dr. Schenck, 32 Bond street, New York, and stated to him my case, with a re-quest for him to call and see me, which he did, and examined me with the respirometer. When he was about to go I asked him if he could cure me? His reply was: "I cannot tell, both lungs are diseased, and the brouchi-al tubes are affected on both sides." And yet he seemed to think there were lungs enough left to effect a cure if the diarrhea could be stopped. He said in order to do this, he would have to give me Mandrake Pills in small doses at first, to carry off the morbid matter, and then, with astringents, he hoped to check it, which he did, but the constant coughing, night sweats, and diarnhea had prostrated me so that he was afraid my vital powers were too much prostrated over to rally, and yet he seemed to think if I could live to get enough Pulmonic Syrup through my system to cause expectoration there were lungs enough left for me to recover. He wished me to try the the object is unlawful. For sale by Dr. F. Hinkle, Marietta; P. A. Pyle, Mountjoy; H. D. Parry and R. Wil-liams, Columbia, and druggists generally.
