

The Mariettian.

MARIETTA, PA.

Saturday Morning, November 17, 1886.

A short time ago an old friend of Secretary Seward wrote to him that Hon. John Hickman "had publicly denounced President Johnson and Secretary Seward as drunkards and completely under the control of a vile and vicious female." The writer after stating the case in detail, intimated an expectation that the charge would be authoritatively contradicted. Mr. Seward, however, stood on "high ground," replied that "I am not appointed or authorized to vindicate the President against personal calumnies," and contented himself with saying that uncharitable views had always been taken of him by those opposed to him, and he always expected it.

The Lady's Friend and Saturday Evening Post, the former published by Deacon & Peterson and the latter by H. Peterson & Co., 317 Walnut street, Philadelphia, offer great inducements to subscribe to these valuable publications. Capital new stories are announced, written by Mrs. Henry Wood, Emerson Bennett, and other well known writers. Either can be had, together with a large premium engraving, for \$2.50, or one copy, each, of the Post and Lady's Friend for \$4.00.

It was said in the hearing of a New Jersey Quaker lady that Mr. Johnson threatened to kick out all office holders who do not also hold "my policy." "But, John," she inquired with delightful naivete, "but John, can he do it? Does he think he can stand on one leg long enough to kick anybody?"

On Sunday morning, two brothers named Baker were out shooting in Oolchester, Conn. One of them raised his gun to fire at a bird, when his brother stepped in front of him and received the whole charge, causing almost instant death, but not before he had time to exonerate his brother from any blame.

The Supreme Court of Indiana by a unanimous vote, on the 31st ult., decided that the 13th article of the State Constitution, called the "black article," which forbids negroes from coming into the State, to be in conflict with the Constitution of the United States; and as such to be null and void.

There is at present being exhibited in Ireland a boy of enormous size; who was born November 7, 1849. He weighs 512 pounds, measures across the shoulders 1 yard and 2 inches, 73 inches around the waist, 30 round the calf of the leg, 22 around the muscle of the arm and above a yard around the thigh.

Henry J. Raymond was educated at the Genesee Wesleyan Seminary, New York, and the students of the institution lately investigated the records to find which of the rival secret societies he belonged to. They were rather amused than astonished to find his name on the rolls of both.

Who will say that the world doesn't move, since Massachusetts has elected two black men to the Legislature, and the New York city democracy a black leg and prize fighter—John Morrissey—to Congress. There is, however, not enough of either stripe to do any harm.

Mr. Avery has refused to surrender the office of U. S. Assessor for Sacramento District to John Bigler, who has a commission from the President, on the ground that the President's nomination required confirmation by the U. S. Senate. The matter has been referred to Washington.

The Empress of Mexico, now called the princess Carlotta, is said to be afflicted with a religious monomania, always bewailing the injuries done to the church in Mexico, and that her case is hopeless of cure. It is said the unfortunate lady has attempted suicide by jumping from a window.

It is reported that Mr. John Hopkins, the richest man now in Baltimore, proposes to present to that city, for a public park, his splendid country seat of six hundred acres on the Harford road.

Dr. Robinson of Utah, Superintendent of the only Christian Sabbath School in Salt Lake city, was murdered by Mormons on the 24th ult.

It is understood that the Canadian Government has refused to commit the sentences of the convicted Renais Lynch and McMahon.

The Harrisburg Telegraph says there will be six hundred new houses erected in that city the ensuing year.

PETERSON'S MAGAZINE.—We again the receipt of this popular Lady's Magazine for December. It is a splendid number. The title page alone is worth the price of the number. For many years "Peterson's Magazine," in consequence of its merit and cheapness, has had a larger circulation than any other monthly in the United States. In 1887 it will be greatly improved: the reading matter will be increased, and each number will contain a double size steel fashion plate elegantly colored, with from four to six figures—making "Peterson's" the cheapest in the world. The terms will remain two dollars a year to single subscribers. To clubs it is cheaper, still, viz: five copies for \$8.00, eight copies for \$12.00, or fourteen copies for \$20.00. To every person getting up a club (at these rates) the Publisher will send an extra copy gratis. Specimens sent (if written for) to those wishing to get up clubs. Address, post paid, Charles J. Peterson, 306 Chestnut Street, Philadelphia.

Decedent's Estates.—In the Supreme Court of Connecticut there has recently been decided a curious case. A man and his wife having been killed by a railroad accident, the heirs of each brought suit and recovered \$4000 in each case. The money obtained for the death of his wife went to her heirs, and the question before the Supreme Court was whether the \$4000 recovered by the death of the man should go to his or his wife's heirs. She having survived him a few hours, the court decided that the wife's heirs should have the money.

A counterfeit one dollar bill of the ordinary greenback issue is in circulation which is wonderfully calculated to deceive. It would be taken by almost any one not an expert, particularly if a little soiled or by evening light. The chief points of difference from the genuine 1's are in the wrinkled and battered condition of Chief Justice Chase's handsome physiognomy, and the inferiority of the lathework around the large figure 1's. Beware of this dangerous counterfeit.

Gov. Martin has appointed Colonel John A. Wright and Colonel James Worrell, two of the most eminent civil engineers of the State, as commissioners to examine the boom in the Susquehanna river at Williamsport, and report as to the expediency of granting to the company to whom it belongs the additional privileges conferred by a bill passed by the last Legislature, and which is still in the hands of the Executive. His action in the premises will be governed by the report of the commissioners.

John Olston, a confederate soldier supposed to have been killed at Murfreesboro, Tenn., turned up at Nashville last week, and found his wife wedded to a federal soldier and rejoicing in a new Yankee baby. He did not dig his fingers into the wet earth, like Enoch Arden, he offered to settle the matter for two cows, and this not being agreed to he made threats and was arrested and put under bonds. If this is not a "hard case," we don't understand the meaning of the term.

Two large bloodhounds that served as watchers at Libby Prison and Andersonville, are now exhibited at New Haven, Conn. One of the dogs, a Russian bloodhound, is probably the largest dog in the world. He measures 7 feet and 3 1/2 inches from tail to nose and weighs 208 pounds. He has no superfluous fat to give him weight, but is muscular and active in due proportion to his size. The other is a Cuban bloodhound which did duty at Andersonville, in the inhuman service of the rebels.

The students of a New York college recently perpetrated a funny joke upon one of the college magnates, who is as absent minded as he is learned. Being in the habit of reading a chapter of the Bible in course to them every day, the students by changing the mark kept him reading the 18th chapter of Acts for a whole week.

Thirty-three years ago a girl left her mother in New Bedford, Mass., and went away to seek her living. News of her mother's death subsequently reached her, and she resolved to remain away. Recently she heard that her mother was still alive, and returned to greet her after an absence of a common life time.

Twenty years ago British gold was sent over here to defeat a protective tariff. It is more important to the capitalists of England that the rebel debt should be paid them than a protective tariff should be defeated. Hence their anxiety to prevent the adoption of the constitutional amendment.

The embalmed face of the great Cardinal Richelieu has just been discovered in Brittany, and deposited in the Ministry of Public Instruction in Paris, subject to the Emperor's orders. The flesh is as black as ebony, but the red hair, moustache, imperial and eyebrows are unimpaired.

News in Brief.
A lot of rowdies undertook to break up a religious meeting in South Fork, Ritchie county, West Virginia, a few days ago. Some of the brethren pitched in and cleaned them out, on the principle as one of them expressed it, "That it was as honorable to fight for the Methodist church as it was to pray for it."

A young man named Wilson was brutally murdered by another named Harper, at Ottoville, Mo., a few days since, while riding home with his wife, who had married him in preference to Harper. Harper was terribly enraged, and after shooting Wilson, beat him over the head till life was extinct.

The Baltimore Gazette makes complainingly that Gov. Swann made a requisition upon Gen. Canby for troops to prevent the arrest of the new Police Commissioners and was refused. It also condemns General Grant for publicly denouncing Governor Swann's course as unwise. These may be taken as indications that army officers will not readily be made tools of by the President.

A SHARP WOMAN.—In Baltimore, a few days since, a well dressed female entered a shoe store, and after trying on several pairs of shoes, selected three which she desired to be sent to her house by the shop boy, when she would make a final selection and return the two remaining pairs, with the pay for the third. The request was complied with, and the female left the store, followed by the boy. After proceeding a few squares, she discovered she had left her basket in the store, and asking the boy to run back for it, kindly volunteered to hold the bundle until his return. The boy started back, but on reaching the store, found no basket, and on repairing to the spot where he had left the female, found no female.

Meredith P. Gentry died in Nashville, Tenn., on the 2d inst. Mr. Gentry was a Whig member of Congress in 1853 from that State, and was regarded as an able man. When the hydra-headed monster, Secession, reared its horrid point, he went with it. He possessed great wealth, which mostly consisted in slaves, but lost all when emancipation was proclaimed. He was the Whig candidate for Governor of Tennessee, against Andrew Johnson, some years since, and was beaten. In 1853, when in Congress, he was for a while under the ban of suspicion, but the whip of the slave drivers brought him in and he made a first rate pro-slavery speech. He went into the rebellion afterwards.

Rev. George T. Williams, rector of an Episcopal church at Suffolk, Va., was arrested on Friday in Broadway, New York, on a charge of picking a lady's pocket in a stage. Special Notices.
BUTTSBURGH, May 10th, 1866.
Messrs. Hostetter & Smith:
GENTLEMEN:—During a visit to the West, last fall, I contracted chills and fever, which brought me to my bed, and finally terminated in typhoid fever, and confined me to my room for several months, during which time I was physically prostrated. I almost despaired of ever recovering my health; having almost entirely lost my appetite for days, not being able to eat a morsel, added to which I was distressed with a reeling sensation in my head, and passed many sleepless nights—all from debility caused by my prostrate condition, brought about by fever. At this stage of my condition a friend recommended me to use your celebrated Stomach Bitters, but being morally opposed to the use of stimulants in any form, I at first declined, but afterwards yielded my prejudices, and, after taking the medicine for several weeks, my appetite returned, and with it I am rapidly regaining my former strength and vigor. My sleep (from the loss of which I have suffered much) has never been better than it is now, and the reeling sensation (before alluded to) has entirely left me. My bowels which were much constipated and irregular, are now quite natural, and, in fact, I am glad to say that I feel myself a new man; and tender you this testimonial of my appreciation of your valuable preparation in order that others, suffering as I have, may avail themselves of its virtues, which, I believe, kept me from enjoying so long a period. I may also add that my physician, after seeing the beneficial effect of your Bitters on me, recommended that I use them regularly. Yours, very respectfully,
E. BOURNE, 45 Market-st.

A HUSBAND.—How often we hear this expression from persons reading advertisements of Patent Medicines, and in nine cases out of ten they may be right. It is over 19 years since I introduced my medicine, the Venetian Liniment to the public. I had no money to advertise it, so I left it for sale with a few druggists and storekeepers through a small section of country, many taking it with great reluctance; but I told them to let any one have it, and if it did not do all I stated on my pamphlet, "he need pay for it." In some stores two or three bottles were taken on trial by persons present. I was, by many, thought crazy, and that would be the last they would see of me. But I knew my medicine was no humbug. In about two months I began to receive orders for more Liniment, some calling it my valuable Liniment, who had refused to sign a receipt when I left it at their store. Now my sales are millions of bottles yearly, and all for cash. I warrant it superior to any other medicine for the cure of Croup, Diarrhea, Dysentery, Colic, Vomiting, Spasms, and Sea sickness, as an internal remedy. It is perfectly innocent to take internally, see each accompanying each bottle,—and externally, for Chronic Rheumatism, Headache, Mumps, Frosted Feet, Bruises, pain, Old Sores, Swellings, Sore Throats, &c., &c. Sold by all the Druggists. Depot 55 Cortland street, N. Y.

To CONSUMPTIVES.—The advertiser having been restored to health in a few weeks by a very simple remedy, after having suffered several years, with a severe lung affection, and that dread disease, Consumption, is anxious to make known to his fellow-sufferers the means of cure. To all who desire it, he will send a copy of the prescription, free of charge, with the directions for preparing and using the same, which they will find a sure cure for Consumption, Asthma, Coughs, Bronchitis, Colds, and all throat and lung affections. The only object of the advertiser in sending the prescription is to benefit the afflicted and spread information which he conceives to be invaluable, and he hopes every sufferer will try his remedy, as it will cost them nothing, and may prove a blessing. Parties wishing the prescription, FREE, by return mail, will please address
Rev. EDWARD A. WILSON, Williamsburg, Kings County, New York. [1]

MARCHING OR!—Constantly advancing in public favor, throughout the United States, the British Colonies, and Spanish America, and needing no flourish of Trumpets to proclaim its success, that standard article, Cristadoro's hair dye is now far ahead of any preparation of its class. People of fashion at length thoroughly understand the terrible consequences entailed by the use of metallic and caustic preparations, and admit the superiority of this famous vegetable dye, manufactured by J. CRISTADORO, 6 Astor House, New York. Sold by all Druggists. Applied by all Hair-Dressers. (N)

ERRORS OF YOUTH.—A gentleman who suffered for years from Nervous Debility, Premature Decay, and all the effects of youthful indiscretion, will, for the sake of suffering humanity, send free to all who need it, the recipe and directions for making the simple remedy by which he was cured.
