

The Mariettian.

MARIETTA, PA.

Saturday Morning, December 15, 1866.

Nine beautiful young ladies re-nounced the world and took the veil at a convent in Montreal, last week. P. S. —Ladies who take the veil are always said to be beautiful, but we do not believe it. On the contrary, we guess they are either horrid ugly, deformed, scrofulous, or wanted to marry somebody who wouldn't have them. If, by any mistake or rather whim, any one somewhat pretty should happen to get into a convent, they always flee from it after a short trial.

Mrs. James, of Chicago, was about to be married, and received from an unknown source a glass jar containing the dead body of an infant preserved in alcohol. Mrs. James fainted. A note with the disgusting present read: "I am in search of P. Clark. Will my future stepmother tell me where to find him?" P. Clark was her affianced, but from whence the pickled babe was spirited and expressed from, is a Chicago mystery.

A St. Louis saloon keeper named John McMama, while partially intoxicated on Sunday night, threw a small single-barreled pistol across the room, feeling vexed at his wife for a small matter. The pistol struck a chair and was discharged, the ball striking his wife killing her instantly. His family relations had always been of a pleasant nature, and the coroner's jury returned a verdict exonerating him from blame.

Ex-Governor Dennison has written a letter to a friend in Washington, in which he condemns the impeachment project, and favors the constitutional amendment, and if the South rejects it, would employ a policy which will break their stubbornness. Mr. Dennison believes that not a third of the Cabinet concur with the President, and can not see how the disaffected members can avoid resigning.

The Rev. Dr. Priestly, who was recently excommunicated from a Presbyterian Church in Pittsburgh, for adultery and other misdemeanors, is soon to come before another tribunal to answer the charge of an injured wife who asks for divorce, not only on the ground of improper intimacy, but for shameful abuse, for violent and abusive language too disgusting for publication.

The wife of a man in St. Louis, who had left home for a two weeks' absence, immediately sued him for a divorce on the ground of desertion, offering another man as witness. The divorce was granted, the woman married this witness, and at the end of two weeks the husband returned and caused them both to be arrested for perjury and conspiracy. Sharp practice all around.

Mrs. Mary E. Rice, a teacher in one of the Charlestown schools, resigned her position a few days since, for the purpose of being united in marriage to a young man from the west. The ceremony was to have taken place on Friday, but on Saturday last she took suddenly ill, and died on Sunday. Her affianced arrived just in time to bid her a long farewell.

Rev. W. D. Seigfried, a Baptist minister in Philadelphia, who was charged with unministerial conduct by a woman in Philadelphia, has been acquitted by the Court of Quarter Sessions in Philadelphia. The prosecutrix did not appear, it being supposed that she ran away to avoid a suit against her for perjury.

The Bangor Whig estimates that during the present season, the manufacture of lumber in Maine will reach 600,000,000 feet. The total value is not less than \$15,000,000—to which must be added the value of the short lumber—shingles, clapboards, laths, pickets, &c., from \$3,000,000 to \$4,000,000 more.

It is announced in a letter from Japan, that upon the death of the late Teyoon "ten high dignitaries demanded the unspeakable favor of being allowed to rip themselves up in honor of the deceased ruler. Five only were deemed worthy, the others not being sufficiently noble to receive it."

Mr. Leonard Jerome, the millionaire sportsman of New York, has undertaken, as his last exploit, for a heavy wager, standing on the bare backs of two horses, to drive four in hand around Jerome Park. The feat will be attempted in a few days, and excites much interest.

A wife in New Orleans sued for a divorce and obtained it on the established testimony that a piece of belt ribbon and a hairpin belonging to another woman was found in the plaintiff's bed room.

It is said that Forrest has bid good-bye to the stage.

"The Scientific American," which is the leading journal of its kind in America, will enter its 22d year on the first of the year, when it will be greatly enlarged without increasing the subscription price, which is \$3 per annum; \$1.50 for six months; \$1 for 4 months. Clubs of ten and upwards, \$2.50, always in advance. Specimen numbers sent free. Now is the time to subscribe, so as to begin with the new volume. So widely a circulated journal needs no commendation from us—enough that it stands at the head of its class. Address MUNN & CO., 37 Park Row, New York.

On the 17th ult., the Rev. Andrew Steward and his wife, of the German Reformed Church, were received into the Catholic Church, at Hagerstown, Md., by the pastor of St. Mary's Church the Rev. Edmund Didier. For a number of years past Mr. Steward was pastor of the German Reformed Church at Barksitesville, in this valley, but a short time since he relinquished his clerical duties there, and in his farewell sermon announced the change in his religious views.

A panther has been prowling around the vicinity of Florida, Monroe, and Readsboro, Mass., for some time past. He has killed in all over one hundred sheep and five calves for the farmers in the above towns. Traps have been set for him, and the hunters have been out, but he cannot be caught. He kills the sheep by biting them through the skull.

Rumors are beginning to circulate of a change in the State Department. It is now said that the Hon. Reverdy Johnson is likely soon to take the position of Secretary of State. At all events, it is pretty certain that something has gone wrong recently, for it is generally whispered in diplomatic circles that Mr. Seward will soon retire.

Edward J. Crosscut, of Berlin, Vt., has been out of health for several years, and during that time has been under the care of several physicians, none of whom could determine the nature of his malady. A few days since, after severe physicking, a striped snake of the common variety came from him, which measured 85 inches in length.

A citizen of Louisville named Bramback has sued the city corporation for damages in the sum of \$25,000, alleging that the death of his wife and daughter by cholera were caused by negligence upon the part of the authorities, alleging that if they had properly graded the streets, the deaths in that vicinity would never have occurred.

A mass meeting of welcome to Congress was held on Monday in Washington. Judge Carter delivered the address of welcome, and was replied to by Speaker Colfax. In the evening there was a banquet, General Walbridge presiding, at which Hon. Thaddeus Stevens made a speech strongly denouncing the President.

In the city of New York there are 70 separate establishments engaged in the manufacture of pianos, and the weekly product is from 250 to 300 instruments. The whole number manufactured annually in the United States is between 35,000 and 40,000, surpassing considerably the product of any other nation.

The man who gave the information which led to the arrest of John H. Surratt is a French Canadian named St. Marie. He was formerly a Union soldier and served in the Papal Zouaves. Both he and Surratt were in love with the same lady in Washington, and St. Marie betrayed Surratt through jealousy.

Iron is not imperishable. Iron houses, iron bridges, etc., must yield to the corroding touch of time. An English paper states that forty tons of iron rust was recently scraped from the great iron tubular bridge over the Menai Straits.

A calico ball was given in Petersburg, Va., on Thursday evening, which was attended by the "first families" of the city. The ladies all appeared in calico dresses and white aprons, which were subsequently given to the poor.

Mrs. Ward, of Utica, N. Y., jumped from her carriage, the horses being, as she thought, about to run away; her hoops caught on the springs of the vehicle; she was dragged a mile and a half over a stone road and killed.

It is rumored that Reverdy Johnson will take a seat in the Cabinet, and that the Democrats will elect Governor Swank to the unexpired term of two years in the United States Senate.

James Welch was brutally murdered on Sunday night, at New London, Conn. Before his death he testified that Thomas Daley was the man who stabbed him. Daley was arrested.

General W. D. Whipple, Chief of General Thomas' staff, has returned from a southern inspecting tour, and reports the feeling against the north and northerners daily growing worse.

Why was Herod's wife like a Fenian organization? Because she had a head sent her.

Steps have been taken towards contesting the seats of Messrs. Archer and Phelps, Congressmen elect from Baltimore, on the ground that they were returned by a disloyal vote.

The illness of Miss Anna E. Dickinson, at Rockford, Illinois, will oblige her to cancel all her Western engagements for this season. She will return to Philadelphia as soon as sufficiently recovered to bear the journey.

In Savannah, a one-armed Confederate soldier, who sells newspapers, recently sold in a few weeks 1,000 spelling books. Eight hundred were bought by freedmen, an interesting evidence of their desire to obtain education.

In view of the rumor that Confederate notes are again coming into circulation in the remote South, the Mobile Times says, "We can add that Mobile wood dealers will take them even—cord for cord. If it be treason, make the most of it."

A story comes from Wisconsin that Senator Doolittle has so changed since his conversion to "my policy," that the family dog did not recognize him, and no petting or feeding could induce the quadruped to give even a wag of welcome.

The Herald's Washington special despatch says: "It is believed here that after the adoption of the suffrage bill for the District, the city charter will be taken away and Washington will be governed by a board of four commissioners appointed by the President."

Slidell, the once famous rebel Minister to France and one of our most active enemies in Europe, recently applied to the Government for pardon through Mr. Bigelow, Minister at Paris. The reply of the Government was that no intercourse or correspondence of any kind could be held with Mr. Slidell.

A case of prolonged lethargy has occurred near Yvetot, France. A young man aged twenty, has now been sleeping for about three weeks. Gruel and a small quantity of wine are passed down his throat every day. His respiration and pulse are regular. He is said to have lain in a similar state for a fortnight three years back.

Nearly two thousand Germans now leave Europe every week for the United States, in the Bremen and Hamburg mail steamers. A company is established at Copenhagen, to encourage the emigration of Danes, Norwegians and Swedes to the United States. The children of all these emigrants are taught the English language as their mother tongue.

The Young Men's Johnson Club, in Washington, it is announced has been turned into a temperance society, since the election. This shows a commendable zeal for the interests of A. J. It is gratifying to see them giving their efforts the direction in which their patron has most need and will be most likely to be benefited. We have no knowledge whether Mr. Johnson has ever been a member of this club. We trust he will soon join.

Advices from Franklin, Pa., state that C. V. Culver now held in custody here by the civil law, was brought before Judge Trunkley, recently, on a writ of habeas corpus, and asked to be discharged on the ground that he was a member of the Thirty-ninth Congress from the Twentieth Congressional district of Pennsylvania. After able arguments by counsel on both sides, Judge Trunkley decided that a member of Congress was not entitled to his privilege when held for an indictable offense.

It is rumored that a company has been organized by Charles A. Dana for the publication of a new morning newspaper. It is said he has purchased the Herald establishment with its presses and printing material, and that the first number of the new paper will be issued in February, when it is anticipated, the Herald will occupy its quarters on Broadway. Upwards of \$460,000 have been subscribed for the new enterprise. N. Y. paper.

A monstrous gun, the third ever made of such monstrous size, has just been finished at Knapp's great cannon foundry, Pittsburgh, Pa. Its weight is 115,200 pounds, its length 243 inches, its diameter 64 inches, its bore 20 inches wide and 210 inches long, and it shoots a ball that weighs a thousand pounds, and requires 80 pounds of powder to load it. The cost of such a gun is \$30,000.

A Washington despatch announces that the Senate will pass, by a two-thirds vote, bills for the admission of Colorado and Nebraska into the Union. The rapid extension of one of the eastern branches of the Pacific railway through Nebraska is hastening its development, and Colorado will soon be reached by the branch that is being constructed through Kansas.

There is the best authority for saying that the President has positively determined not to interfere in the case of Jefferson Davis by ordering his release on parole, but that he will remain where he is until arrangements can be made for his trial, some time during the coming spring.

In the municipal election held in the city of Hartford, Conn., on Monday the Republican ticket was elected by an average majority of 194. This is a Republican gain of nearly 700 over the Spring election, when the city voted Democratic by 479 majority.

Arthur Kammag, a candidate for Parliament from Wexford, Ireland, was born without arms or legs, but is a very smart fellow. He is a fine orator, a splendid yachtsman, and, strapped in a sort of bowl on his horse, rides like a fender after the hounds.

Reasons why the American Watch Made at WALTHAM, Mass., IS THE BEST.

It is made on the best principle. Its frame is composed of solid plates. No jar can interfere with the harmony of its workings and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness) and is therefore perfectly uniform. The Watch is what all mechanism should be—accurate, simple, strong and economical. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "ancient," "lepines" and "English Patent Levers," are perfectly well aware of the truth of this statement.

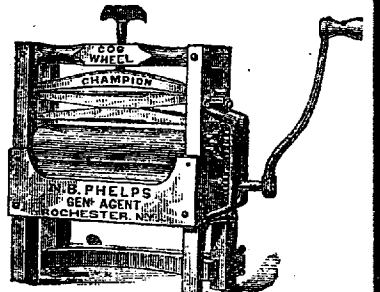

At the beginning of our enterprise, more than ten years ago, it was our first object to make a thoroughly good low priced watch for the million, to take the place of these foreign impositions; the refuse of foreign factories, which were entirely unsuitable at home and perfectly worthless everywhere.

How well we have accomplished this, may be understood from the fact that after so many years of public trial, we now make more than half of all the watches sold in the United States, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very highest grade known to Chronometry, unequalled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We have erected an addition to our main building, and have filled it with the best workmen in our service. New machines and appliances have been constructed which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the finest imported cronometers. We do not pretend to sell our watches for less money than foreign watches, but we do assert without fear of contradiction that for the same money our product is incomparably superior. All our watches, of whatever grade, are fully warranted, and this warranty is good at all times against us or our agents in all parts of the world.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.
