the following statement for the benefit of the afflicted.

Dear Sirs:—Having realized in my family important benefits from the use of your valuable preparation—Wistars's Balsam of Wild Cherry—it affords me pleasure to recommend it to the public. Some eight years ago one of my daughters seemed to be in a decline, and little hopes of her recovery were entertained. I then procured a bottle of your excellent Balsam, and before she had taken the whole of the contents of the bottle there was a great improvement in her health. I have, in my individual case made Irequent use of your valuable medicine, and have always been benefitted by it. Jacob Sechler.

SYMPTOMS. The symptoms of Catarrh are at first very slight. Persons find that they have a cold, that they have frequent attacks, and are more sensitive to the changes of temperature. In this condition the nose may be dry; or a slight discharge, thin and acrid, afterwards thick and

adhesive, may ensue.

As the disease becomes chronic, the dischar-

As the disease becomes chronic, the discharges are increased in quantity and changed in quality; they are now thick and heavy, and are hawked or coughed off. The secretions are offensive, causing a bad breath; the voice thick and nasal; the eyes are veak; the sense of smell is lessened or destroyed; deafness frequently takes place.

Another common and important symptom of Catarrh is, that the person is obliged to clear his throat in the morning of a stick or slimy mucous, which has fallen from the head during the night. When this takes place, the person may be sure that his disease is on its way to the lungs, and should lose no time in arresting it.

MARIETTA ACADEMY,

South West Corner of Market Square.

This Academy is situated on the banks of the Susquehanny, in the pleasant Borough of Marietta, Lancaster county, Pa. It contains about 3000 inhabitants and four Evangelical churches of different denominations, to which parents can have a choice in sending their youth. The Pennsylvania Railroad Company run four Passenger Trains through the place daily, making it easy of access from all parts of the State, which renders it peculiarly desirable to parents who may wish to send their sons and daughters from home to be educated.

The present Principal feels greatly encouraged at the patronage extended toward this South West Corner of Market Square,

aged at the patronage extended toward this enterprise, that he is determined that nothing shall be left undone to make it one of the best schools in the State for obtaining a thorough education.

The branches taught embrace all those of a thorough English and Classical education, together with French and German, Drawing, Painting, Vocal and Instrumental Music.

Every branch will be taught in the most horough manner.
Whilst the principal will constantly aim to

make thorough scholars, he still deems it no less important to inculcate moral and religious principles. He pledges his best exertions to secure the present and future welfare of those committed to his charge.

Lectures upon scientific subjects, will be deligious hereafter the session.

Lectures upon scientific subjects, will be de-livered before the students during the session. Terms:—The School Year is divided into two sessions of twenty-two weeks each. CONSUMPTIVES,

Dr. Schenck, I will now make my state-ment to you, as follows:—About eighteen months ago I was attacked with a severe cough, and it settled on my lungs; I could not retain anything I ate, and suffered with evening fevers and night sweats. I was very much reduced. The whites of my eyes were very yellow; likewise my skin; my appetite all gone, and unable to digest what I did eat; howels swollen irregular and costive. I was bowels swollen, irregular and costive. I was very low spirited, and had such violent spells of coughing when I lay down at night and when I arose in the morning that they would bet ages tree beauty.

of coughing when I lay down at night and when I arose in the morning that they would last one or two hours.

I then would be nearly exhausted, and was entirely unable to lie on my left side. I cannot describe my wretched suffering as I would wish to do. Every organ in my body was diseased or deranged. Such was my situation at this time, and I was confined to my bed from the last of February, 1862, to June 1862, not able to sit up. I had the best of medical attendance the whole of the time. My cough was so very bad that it racked me very much. I at this time raised a large quantity of thick, yellow, offensive matter, sometimes with blood and it was generally accompanied by nausea, and a furred and thick coated tongue. At the time of coughing so badly I would have sharp, shooting pains in my left side and heart, night sweats, and soreness all through my whole chest; had much inward fever, pain in my back and under my shoulder blades and in the small of my back, and at times so severe that it would throw me into spasms. Now my physician gave me up to die. Others I had, and the best of them, but they could do nothe my physician gave me up to die. Others I had, and the best of them, but they could do nothing for me, and at that time I was nothing but skin and bone. I then was in the western part of Missouri. In June last we left there for the East, and in August last we came to for the East, and in August last we came to New York, and I was so reduce I that I could only walk a little with my husband's help. After I had been here a short time the sait water breeze made me feel much better for a time and then I had again to call a physician for aid. We had four of the best physicians of New York on the diseases of the lungs, and doctors of all kinds, but of no avail. They said I was past cure, and that my lungs were too far gone for any one to cure me. But at this time I was on my feet about the house, not able to do much of anything. In November last I grew worse, and the consumption diarrhea set in and lasted about eight weeks. We had tried all and everything that I could grasp at like a dying person for my disease—consumption and liver complaint—but of no avail.

avail.

In January, 1863, I was brought down again on my bed, and was not expected to live the night out. My husband stayed at my side, and other friends, and they all gave me up to die. At this time every one who saw me did not think I would ever leave my bed a living woman. The first night I was attacked with spasms, and was deranged most of the time. A friend, Mrs. Harris, came to see me the last of the week, and brought the Sunday Mercury. In it was an account of a see me the last of the week, and brought the Sunday Mercury. In it was an account of a great cure performed by Dr. Schenck. She read it to me, and it was so much like my disease that I asked my husband to go and see him for me. At this time I had given up all hopes of ever getting well again, and made my peace with God, to be ready whenever he called for me.

On the 27th of January, 1865, my husband called on Dr. Schenck, 32 Hond street, New York, and stated to him my case, with a request for him to call and see line, which he did, and examined me with the respironcheter.

quest for him to call and see 'me, which he did, and examined me with the respirometer. When he was about to go I asked him if he could cure me? His teply was: "I cannot tell, both lungs are diseased, and the bronchial tubes are affected on both sides." And yet he seemed to think there were lungs enough left to effect a cure if the diarrhea could be stonged. He said in order to do this ke would stopped. He said in order to do this, he would have to give me Mandrake Pills in small doses at first, to carry off the morbid matter, doses at first, to early on the motion maker, and then, with astringents, he hoped to check it, which he did, but the constant coughing, night sweats, and diarrhea had prostrated me so that he was afraid my vital powers were so that he was alraid my vital powers were too much prostrated ever to raily, and yet he seemed to think if I could live to get enough Pulmonic Syrup through my system to cause expectoration there were lungs enough left for me to recover. He wished me to try the Pulmonic Syrup and Scaweed Tonic at once, saying it would do me no harm, if it did me no road. The first week it scemed to give no good. The first week it seemed to give me strength, so that on Sunday after I sat up in bed and ate hearty for a sick woman; but the next week I lost all hope and wished my the next week I lost all hope and wished my husband not to give me any more medicine. Do the doctor had warned him of this, and when the medicine was clearing out the system it made them feel somewhat restless, and to persevere; and he insisted on my taking it; and now I feel the benefit of it. For after eight days I began to gain my strength, and, with the exception of a cold that put me back some, I have been gaining strength of body, my cough is going away, and all my pains are gone; no soreness of the bedy, my bowels are regular, and my breath is sweet, and I thank God that I am now going about, and sew and read as well as ever I could. I have taken sixteen bottles of the medicine, eight of each. read as well as ever 1 could. I have taken sixteen bottles of the medicine, eight of each. I now have a good appetite and lest well at night; my cough does not trouble me in getting up or lying down.
