

The Mariettian.

MARIETTA, PA.

Saturday Morning, January 19, 1867.

Pennsylvania, now, that the Hon. Simon Cameron has been chosen Senator from this state, against our protest as well as against the protest of many others, we are pleased to have it in our power to print the following endorsement of him by the *New-York Tribune*: "Gen. Cameron has been a zealous, efficient Republican since the party was formed, is thoroughly devoted to the policy of Protection to Home Industry, and, while Secretary of war under Mr. Lincoln, was one of the first men in high place to recognize and proclaim the truth that Slavery and the Rebellion must stand or fall together. He was first chosen to the Senate in 1857, and served therein until called to a seat in Mr. Lincoln's Cabinet. We have not concealed our convictions that the eminent abilities, sturdy independence, and life-long devotion to Universal Freedom, of Thaddeus Stevens, preeminently qualified him for this high position, but General Cameron will prove an able, industrious and useful Senator."

A bill has been introduced into Congress to organize the militia of the country, and to form a National Guard. The latter, it is proposed, shall be composed of two regiments of infantry in every State and Territory. This provision, according to present circumstances would give a total of ninety regiments, of, we presume, one thousand men each. The plan will go before the Military Committee, which may propose some other scheme. Congress has power to organize a national militia, and some movement in that direction is needed.

A fashionable young lady of Louisville, Ky., and a noted beauty, suddenly faded to a pale, sad spectre of her former self. No cause could be assigned, and at length she was watched narrowly and was observed to rise in the night and in her night dress proceed to an arbor in the garden and sit for a long time. Her father, becoming alarmed, approached and spoke to her, when she discovered that she was in a somnambulic state.

The inauguration of John W. Geary, as Governor of Pennsylvania, took place at Harrisburg, on Tuesday last, at noon. The occasion was, in many respects, very grand. After the inauguration of the Governor, the Hon. Simon Cameron was chosen United States Senator, by both houses on the first ballot.

In looking over the committees of the House, we find Armstrong on Ways and Means; Penions and Gratuities; and Education. Roath on Roads and Bridges; Corporations and Military. Stehman on Railroads; Corporations; Compare Bills and Accounts. Steacy on Compare Bills; Agriculture; Library and Banks.

Gov. Geary took formal possession of the Executive Department on Wednesday morning, Gov. Curtin having, according to the usual custom, vacated the day before the inauguration. Gov. Curtin and family have gone to Philadelphia and Gov. Geary will take possession of the Executive Mansion on Front street, on Monday next.

President Johnson, on the 6th of January joined with the Democrats and personally attended the celebration of the battle of New Orleans, in Washington city, and made an animal with very long ears of himself in giving a toast. He desired to imitate President Jackson, but it "was no go."

Gen. Tom Thumb and family are in Manchester, England. A local journal declares that "Mrs. Stratton is a perfect little lady to all appearances, and those who know her best say she is so in reality. She possesses a clever woman's mastery of the art of dress, and her jewels are very rich."

The act conferring the right of suffrage on negroes in the District of Columbia is officially published. It is accompanied by the certificate of the Secretary of the Senate and Clerk of the House, stating that it had passed into a law, notwithstanding the President's veto.

The chair that President Lincoln occupied in Ford's theatre at the time of his assassination, has been presented to Secretary Browning, who has transferred it to the Museum of the Interior Department.

Lynch and McMahon, sentenced in Canada, to be hung, for their Fenianism, have had their sentences commuted to 20 years in the penitentiary.

A nugget of gold weighing one pound, was turned out of the Chaudron, Canada, Gold-Mining District, a few days since.

Fast young men's motto—meet, drink.

The district suffrage bill vetoed by the President, and which was so promptly passed over the veto by the Senate on Monday of last week, was passed by the House on Wednesday, by the constitutional majority of two thirds, and is therefore the law of the land as though it had received the President's sanction. This is the first instance in the country in which the suffrage has been conferred upon colored men upon the same terms as upon white men. The colored population of the District is already quite numerous, and this will undoubtedly increase it by inducing migration thither from Maryland and Virginia. With this law carried into effect, the Democratic party will become a permanent minority in the District, and the colored people will at once be able to command school facilities for the education of their children.

The Governors of Delaware and Maryland recommend to their respective Legislatures to reject the Constitutional Amendment.

A resolution ratifying on behalf of the State of Ohio the proposed amendment to the Constitution of the United States has passed in the Senate and House of Representatives by large majorities.

The Legislature of the State of Missouri has ratified the Amendment.

The Legislature of the State of New York has ratified the amendment.

Gov. Bullock recommends its ratification to the Legislature of the State of Massachusetts, and it will no doubt take place in a few days.

The Legislature of Pennsylvania will follow suit in a few days.

In the matter of George Kunkel and George Bergner, tax-payers of Harrisburg, Pa., who brought an action against the City Council, to restrain them from paying from the public funds any bills contracted by them in entertaining the President and his party, while "swinging round the circle" in that city, the court, on January 3rd, decided that the City Council had no right to either appropriate or expend the money of the tax-payers for any such entertainment.

Our young friends—and old ones too—who are anxious to learn how many weddings a married couple may lawfully have, will be pleased to know that one year after marriage comes the paper wedding; five years after marriage the wooden wedding; ten years, the tin wedding; twenty-five years, the silver wedding; fifty years, the golden wedding; and seventy-five years, the diamond wedding.

Senator Roberts, of Texas, paints a horrible picture of affairs in that State. He says that twenty-seven hundred freed men have been murdered within a year, and the persecution of the unfortunate blacks is so fearful that they are praying for a restoration of slavery as a protection against the murderous hate of the reconstructed white rebels.

The measures adopted by the New Hampshire Legislature to encourage and protect the breeding of fish are likely to be successful. The salmon spawn deposited in Baker's River some time ago is doing well, hatching having commenced, and it is believed the rivers will in a few years be abundantly supplied with both salmon and shad as in olden times.

Head Centre Stephens has been deposed and General Gleason appointed in his stead. Stephens instead of going to Ireland is said to be somewhere around New York. Many of the poor Irish dupes now like to know what has become of the large sums of money he has collected. Thus ends the great Fenian bubble.

Certain Kentucky Democratic organs are talking of nominating the notorious Basil Duke for Governor, and a Memphis paper calls on the party to honor itself by electing him. Of what sort is the loyalty of a party that "honors" itself, by putting forward such a rebel as its representative man.

Gen. Grant's carriage ran over a little boy at Auburn, during the recent "swinging around," and hurt the lad so badly as to require amputation of a leg. The boy is getting better and the General has promised to be his friend through life.

The railroads of this country employ two hundred thousand men, and at least a million of men, women and children depend for their support upon the railroad interest.

The several hundred New England women who went on the Mercer expedition to Oregon have all been located—with husbands. So says a Pacific correspondent.

Roscoe Conklin has received the caucus nomination of the Republicans of the New York Legislature for United States Senator. He will be elected.

The terms of fourteen United States Senators expire with the present Congress, viz: Messrs. Cowan, Pennsylvania; McDougall, of California; Nesmith, of Oregon; Davis, of Kentucky; Sherman, of Ohio; Foster, of Connecticut; Kirkwood, of Iowa; Trumble, of Illinois; Edmonds, of Vermont; Pomeroy and Ross, of Kansas; Cresswell of Maryland; Brown, of Missouri; Foote, of New Hampshire; Harris, of New York; Lane, of Indiana; Howe, of Wisconsin, and Nye, of Nevada. To fill these vacancies, elections have thus far been held as follows: Sherman, re-elected; Ferry, in place of Foster; Justin S. Morrill, in place of Edmonds; and Harlan, in place of Kirkwood; their politics being the same as those of the retiring Senators.

Mrs. Mary Angell Young is the first living and legal wife of Brigham Young. She is a native of New York, and is reported to be a fine looking, intelligent woman. She is large, portly and dignified. Her hair is well sprinkled with the frosts of age; her clear, hazel eyes and melancholy countenance indicate a soul where sorrow reigns supreme. She has been much attached to her husband, and his infidelity has made deep inroads upon her mind. Her deep seated melancholy often produces flights of insanity, which increase with her declining years.

The French company who have chartered the *Great Eastern* as a tender to the Great Exhibition, are to pay, it is said, about \$57,000 for the year, beside a share of the fitting up amounting to about \$133,000, making \$190,000 in all. Six hundred men are now employed on this work, and the ship is to be ready to proceed to New York on the 5th of March, and to return on her first trip early in April. The price of passage for the round trip will be \$190; so that the first thousand passengers—one third of a full load—will settle the "rent." She will run from Brest or Cherbourg.

The war in Austria is not yet over and General Benedek has found an opportunity to win one victory. He fought a duel on December 13th, with Count Clam Gallas, who figured in this country as an aid-de-camp to General McClellan, and who was badly beaten at Sadowa. The latter in his apology for his defeat reflected on Benedek, who challenged him. Clam Gallas being a notoriously good pistol shot, sabres were substituted and the fight took place with those weapons. Benedek gave the Count two severe cuts and thus satisfied his wounded honor.

John Goldsmith died at his residence in Eaton, Ohio, on the 23d of December, at the age of 91. He had lived on the same spot for 60 years, had been a resident of Ohio for 70 years, a church member for nearly 60 years, had served in the war of 1812, and leaves a wife aged 90, with whom he had lived over 66 years.

The Duke of Augustenburg, Queen Victoria's latest son-in-law, has ceded his rights in Schleswig and Holstein to Prussia, and will reside at his royal wife's home in England. With the exception of the alliance with Prince Frederick William of Prussia, Queen Victoria's matrimonial ventures have not been highly successful or creditable to her as a match-maker.

A Charleston, S. C., letter says Many of the sons of families, formerly wealthy, and still proud, fill the place of conductors on the cars, and seem rejoiced to obtain a paying occupation. The City Police force, too, is filled up with young men of respectable connections, who before the war would have deemed themselves too good for many a less humble vocation.

Hiram Woodruff, the trainer of trotting horses, has used them for years and recommends them to his friends. Col. Philo. P. Bush, of the "Jerome Race Course," Fordham, N. He has over 20 running horses in his charge, and for the last three years has used no other medicine for them. He has kindly permitted me to refer any one to him. Over 1000 other references can be seen at the depot. Sold by all the Druggists and Saddlers. Price 25 cents per box. Depot 56 Cortland street, New York. [23-71.]

Sold by all druggists.

DR. SCHENCK'S PULMONIC SYRUP. This great medicine cured Dr. J. H. Schenck, the proprietor of Pulmonary Consumption, when it had assumed its most formidable aspect, and when speedy death appeared to be inevitable. His physicians pronounced his case incurable, when he commenced the use of this simple but powerful remedy. His health was restored in a very short time, and so return of the disease has been apprehended, for all the symptoms quickly disappeared, and his present weight is more than two hundred pounds.

Since his recovery, he has devoted his attention exclusively to the cure of Consumption and the diseases which are usually complicated with it, and the cures effected by his medicines have been very numerous and truly wonderful. Dr. Schenck's professional visits to several of the larger cities weekly, where he has a large concourse of patients, and it is truly astonishing to see poor consumptives that have to be lifted out of their carriages, and in a few months, healthy, robust persons. Dr. Schenck's Pulmonic Syrup, Sea-weed Tonic and Mandrake Pills are generally all required in curing Consumption. Full directions accompany each, so that any one can take them without seeing Dr. Schenck, but when it is convenient it is best to see him. He gives advice free, but for a thorough examination with his Respirometer his fee is three dollars.

Please observe, when purchasing, that the two likenesses of the Doctor—one when in the last stage of Consumption, and the other as he now is, in perfect health—are on the Government stamp.

The trade supplied on usual terms. Indiscreetness to caricature society a grey, sandy or curly head, when five minutes would render it as attractive as Nature could have made it, in her happiest mood. Manufactured by J. INVIGORATE THE RESPONSIBLE ORGAN.—The stomach is the responsible organ of the system. If the digestion is imperfect, every member, every gland, every muscle, every nerve and fibre is more or less out of order. All the fluids are depraved. The brain is clouded. The spirits are depressed. All dyspeptic know this to be the truth. It is not, however, half the truth. Columns would be required to enumerate the pains and penalties of dyspepsia, nor could any pen do them justice. Tens of thousands feel them; no man can describe them.

Can they be prevented? Can they be relieved? Can they be banished at once and forever? Unquestionably they can. No dyspeptic has ever taken "Hostetter's Stomach Bitters" in vain. Believe no one who says the complaint is incurable. The great remedial stomachic will eradicate it—it is eradicating it in thousands of cases over which medical practitioners have shaken their heads ominously, saying "Nothing can be done." The faculty has its fallacies. One of them is that Indigestion is the most difficult of all the ordinary ailments of mankind to combat and submit. This is a mistake. Nothing can be easier than to conquer it, if the true specific be administered. This vegetable combination which has become famous throughout the civilized world as Hostetter's Stomach Bitters is an antidote to the disease which has never been known to fail, and fortunately it is everywhere procurable. If you wish to feel with the dyspepsia, try the pharmacopoeia prescriptions. If you want to root it out and prevent its recurrence, take the Bitters daily. There is no discount on the testimony in its favor if there is a man or woman who has ever tried it for Indigestion without being benefited, the fact has not transpired. Universal, uncontradicted praise avouches its wonderful tonic virtues.
