

The Mariettian.

MARIETTA, PA.: Saturday Morning, February 9, 1867.

The people of Osceola, says the Bellefonte (Pa.) Press, were considerably startled on Saturday last by the finding of a human skeleton, about two miles from that place.

We learn from a tabular statement appended to the report of Auditor-General Hartranft, of this State, that \$96,626, of the so called "Relief Notes" that were issued by the banks of this Commonwealth as a loan to the State in 1841, are still unredeemed, and remain in circulation or are lost.

A most shocking sight was presented in the river in front of Cairo on the 21st ultimo. The dead body of a man had become frozen fast in the floating ice, and when it had passed Cairo, there had gathered an immense flock of sea gulls around the corpse, and they were feeding off it and fighting over it.

Mrs. Emily Mactavish, the daughter of Richard Caton, and granddaughter of Charles Carroll, of Carrollton, one of the signers of the Declaration of Independence, died at her residence, No. 86 Cathedral street, Baltimore, at the advanced age of 74 years.

Ladies may change their minds it is universally agreed. A lady living somewhere in New York State recently availed herself of this privilege. She became prejudiced against her husband through the influence of a lover, who furnished her the money to procure a divorce and then married her.

We learn from an exchange that the Methodist centenary collection now reaches nearly \$4,000,000. This is one of the greatest achievements of the past year, and is an argument in favor of the voluntary system of sustaining religious worship in our country, which churchmen in other lands will wonder at but cannot answer.

With all that has been said about the indolence and worthlessness of the negroes, there are only two freedmen drawings in Nashville, Tennessee. Where one colored person applies to the Bureau or city authorities for relief, there are at least half a dozen indigent whites who are to be seen on the same mission.

The Smyrna Times is decidedly opposed to the impeachment of the President. It thinks it will do no good and merely make a martyr of him, while the better plan would be to leave him alone and give him enough rope to hang himself.

Mrs. F. W. Lander, formerly Miss Davenport, is playing in Washington city. Forrest is to follow.

ONE CENT DAMAGES.—A case has just been tried before the Maine Supreme Court in which the plaintiff, Nathaniel W. Morse, sued to recover damages of Martin D. Ward and thirteen other citizens, for alleged personal injuries. It appeared from the evidence that the plaintiff was a notorious secessionist during the rebellion, and, upon hearing of the assassination of President Lincoln, said he was glad of it—that Booth was a brave fellow and he gloried in his spunk, and hoped he would escape. These statements were publicly made; and the defendants hearing of them, went in a body to his house for the purpose of compelling him to take them back. Morse saw them coming and attempted to escape to the woods, but was overtaken, brought back and compelled to recant what he had said, and to take the flag of the United States in his hand and cheer it. For this, he brought an action of trespass. The trial occupied about three days, and the jury returned a verdict of one cent, which was immediately paid by the deposit of one copper cent with the clerk. The jury was composed of gentlemen from all parts of the county.

Jack Rand, who was arrested in Albany last week, on a charge of being one of the persons engaged in the Lord bond robbery, to the amount of \$1,800,000, which was committed in New York last March, has been brought to New York and locked up in the Tombs for trial, he having been already indicted by the Grand Jury. This fellow Rand is probably the most accomplished bank thief and robber on this continent. He has been known to the police as a thief for the last forty years. He has served several terms in various prisons, the last time he was committed being five years to the State prison at Trenton, N. J., for having robbed one of the banks of that State.

Mrs. Annie Ashley the wife of Ashley, member of Congress, has been arrested in that city charged with threatening to shoot a woman who gave the name of Martha Cunningham. The complainant alleges that Mrs. Ashley threatened to shoot her if she saw her walking with Ashley M. C., and afterwards said that she would shoot her wherever she met her. It is alleged that the cause of the difficulty was not altogether unfounded jealousy on the part of the M. C.'s wife. Mrs. Ashley gave bail to appear in the Police Court and answer to the charge.

Some time ago, some Indians who saw several women baptized by immersion in the river at St. Joseph, Mo., a hole being cut in the ice for the purpose, imagined that the ceremony, which they could not understand, was to make them good, afterward brought their squaws, cut another hole in the ice near by, and gave them a ducking, in spite of their remonstrances.

The trial of Mrs. Lena Miller, for the murder of her husband, Xavier Miller, by poison, was concluded in the Clearfield county court, a few days since, the jury returning a verdict of "Guilty of murder in the first degree." Sentence has been deferred until the March term, the woman's counsel having moved for a new trial.

Special Notices.

CONSUMPTION curable by Dr. Schenk's Medicines. To cure Consumption, the system must be prepared so that the lungs will heal. To accomplish this, the liver and stomach must first be cleansed and an appetite created for good wholesome food, which, by these medicines, will be digested properly, and good healthy blood made; thus building up the constitution. Schenk's Mandrake Pills cleanse the stomach of all bilious or mucous accumulations; and, by using the Sea Weed Tonic in connection, the appetite is restored.

Schenk's Pulmonic Syrup is nutritious as well as medicinal, and, by using the three remedies, all impurities are expelled from the system, and good, wholesome blood made, which will repel all disease. If patients will take these medicines according to directions, Consumption very frequently in its last stages yields readily to their action. Take the pills frequently, to cleanse the liver and stomach. It does not follow that because the bowels are not costive they are not required, for sometimes in diarrhea they are necessary. The stomach must be kept healthy, and an appetite created to allow the Pulmonic Syrup to act on the respiratory organs properly and allay any irritation. Then all that is required to perform a permanent cure is, to prevent taking cold; exercise about the rooms as much as possible, eat all the richest food—fat meat, game, and, in fact, anything the appetite craves; but be particular and masticate well. [2]

LADIES OF DELICATE CONSTITUTION AND uncertain health are strenuously advised to throw aside the nauseous and useless preparations with which they are accustomed to drug themselves, and test the hygeian, body-and-mind-strengthening virtues of Hostetter's Celebrated Stomach Bitters. In all the complaints and disabilities arising from various causes, they will find this cheering, refreshing and invigorating preparation of extraordinary efficacy. Its regulating properties are wonderful, and as a remedy, for the languor, nausea, tremors, convulsions, hysteria, &c., which often accompany the development of womanhood, it has no equal among the prescriptions of the faculty or advertised medicines. For the many distressing feelings which usher in and often follow the period of maternity, and also for the painful and dangerous symptoms which sometimes accompany "change of life," Hostetter's Bitters are earnestly recommended. No other restorative seems to suit so well the constitutions and the organization of the feeble sex. In all cases of Female Debility, where there is a want of brisk vital action, the bitters produce a most important change—relieving local weakness, and re-establishing the general health.

TO OWNERS OF HORSES AND CATTLE.—Tobias' Derby Condition Powders are warranted superior to any others, or no pay, for the cure of Distemper, Worms, Bots, Coughs, Hide-bound, Colds, &c., in Horses; and Coughs, Colds, Loss of Milk, Black Tongue, Horn Distemper, &c., in Cattle. These Powders were formerly put up by Simpson I. Tobias, son of Dr. Tobias, and, since his death, the demand has been so great for them, that Dr. Tobias has continued to manufacture them.—They are perfectly safe and innocent; no need of stopping the working of your animals.—They increase the appetite, give a fine coat, cleanse the stomach and urinary organs; also increase the milk of cows. Try them, and you will never be without them. Hiram Woodruff, the trainer of trotting horses, has used them for years and recommends them to his friends. Col. Philo P. Bush, of the "Jerome Race Course," Fordham, N. Y., would not use them until he was told of what they are composed, since which he is never without them. He has over 20 running horses in his charge, and for the last three years has used no other medicine for them.—He has kindly permitted me to refer any one to him. Over 1000 other references can be seen at the depot. Sold by all the Druggists and Saddlers. Price 25 cents per box. Depot 56 Cortland street, New York. [23-71]

The Head of a Comet, according to Milton, is rendered ten-fold more terrible by its "Horrid Hair," and their are thousands of fiery human heads which might be rendered charming, by simply changing their tint to a mellow brown, or a perfectly natural black, with CRISTADORO'S HAIR DYE. It is ridiculous to carry into society a grey, sandy or carotly head, when five minutes would render it as attractive as Nature could have made it in her happiest mood. Manufactured by J. CRISTADORO, 6 Astor House, N. Y. Sold by all Druggists. Applied by all Hair Dressers.

CHOICE Lot of Books for children called Indestructible Pleasure Books; School and Paper Books, Stationary, Pens, Pen holders &c., at DR. LANDIS.

Important to Young Men and Teachers.

Every young man, whatever may be his future calling in life, will find a thorough and practical business education his greatest aid to success. Such a course may be had by all, at the expense and time necessary for a thorough preparation can readily be spared from the earnings of every industrious youth in the country. Three months only are necessary for a preparation that shall introduce any farmer's son, teacher or mechanic, into a business position that shall bring him a good salary, and that may lead him on to a business success. At Philadelphia, Pa., a system of instruction has been introduced into J. C. Mumford's Business and Telegraph College that must be thoroughly practical, and work a revolution in commercial instruction in all schools having pupils enough so that it may be introduced. Unfortunately this system of instruction can only be carried out in a few of the larger schools in the United States, as it requires for its successful operation a great number of students in daily attendance. This course is receiving the encouragement and enthusiastic support of the leading business men and educators throughout the country, and is drawing for this College patronage from nearly every State in the Union. The practical arrangement of every department makes it profitable for young men to come hundreds of miles to enjoy its advantages, as at no other school in the country can equal advantages be had for business education.

REV. ALEXANDER CLARK, Editor of Clarke's School Visitor, in a notice of that institution, said:—"The Commercial College of J. C. Mumford combines in its plan more practicalities, and better disciplines its students for successful business than any similar institution with which I am acquainted in the city, and but one in our whole country in any wise compares with it, and that one pursues a method somewhat the same but perhaps not so fully developed.

Such a report from Rev. Alexander Clark is strong evidence of the character and standing of this school. This College from its plan of instruction, invites the attention of the masses, and as it issues many publications explanatory of its working, which are mailed free of charge, we suggest that those interested in education send an application for circulars, as they will no doubt be furnished immediately on receipt of request. Address, J. C. Mumford, Philadelphia, Penna.
