A cable dispatch announces the death of Charles F. Browne, at Southampton, England. To the American people he was well known as "Artemus Ward," a humorous lecturer and writer and perhaps no literary character was ever so popular in this country as he was. Mr. Browne was a native of Maine; but at an early age removed to Cleveland, Ohio, where he obtained the position of local editor on the Plaindealer, a paper published at that place. Here he wrote his first letter, which soon became popular from its broad humor and grotesque spelling. He afterwards removed to New York and edited for a time a short lived comic paper called Vanity Fair, at the same time delivering lectures and writing his humorous letters. Some months ago he made an engagement with Punch, and started for England, where disease overtook him and caused his early death. Mr. Browne was a young man not exceeding thirty years, and was noted for his amiability of character and warm open-heartedness.

The Lynchburg (Va.) Republican says that "a Federal officer belonging to the garrison of that place was met a few days ago while riding about the suburbs by a rusty looking specimen, who came forward and offered to 'surrender.' The officer asked him if he had killed anybody or done any mischief of any kind. The specimen said he had deserted the Confederate army in 1861, but had heard of General Lee's amnesty proclamation while hiding about in the mountains, and had come forward to give himself up, and be returned to service. Great surprise and consternation seized upon the specimen when he learned there was no Southern army, no Southern cause, and that all the battle flags had been folded and put away. The specimen was treated to a dose of amnesty oath and a pair of blue breeches, and went on his way rejoicing to North Carolina, in which 'district' was his home when he left it six years ago.

A terrible case of hydrophobia is chronicled in the Detroit papers. A little daughter of Mr. Alfred Woodbury, of the town of Greenfield, Mich., was bitten, some time ago, by a dog, but no symptoms of hydrophobia were at first shown. At length the poison, which, acting as a subcutaneous injection, permeated every tissue of the system, broke out in a severe form, causing the most intense suffering. A consultation was held by physicians, who decided that, as the sufferer could not possibly survive, every consideration of humanity demanded that her sufferings be ended by some means, in accordance with which, during a severe prostration, the child was smothered to death.

Our neighbors, the Canadians, are very apprehensive of another Fenian invasion, and are very busy strengthening the exposed posts along the frontier. And we should suppose there was some reason for it as the Fenians are very active just now, which seems to mean something. Our Government is also on the alert to preserve our neutrality as they are also sending troops to the frontier. On Wednesday nine ear loads of troops went up the Hudson railroad. The men were fully equipped, and had with them all the necessary baggage for a campaign. They went to Oswego and are undoubtedly intended to operate against any movement of Fenians which may be attempted on the borders.

Treasurer Spinner's custody of the gold belonging to the Richmond banks is likely to prove irksome to him. A party from New Orleans now claims the gold, and visited the Treasury in the hope of being able to carry it away with them. Failing to annihilate the Treasurer and obtain the gold, they asked to see it, in order that they might identify it, but they were assured that if they could not describe the coin without seeing it, they could not describe it at all, for he should not allow them to go near it.

A Hannibal paper tells of a gentleman of that city who has been presented with his third pair of twins in twelve years. His first wife gave birth to two pair, two boys and two girls, at intervals of four years. A municipal election is to be held in Newbern, North Carolina this week. General Sickles, Commander of the Department, who takes a statesmanlike view of the situation, and the duties of his office, has issued an order, announcing that under the recent acts of Congress, the negroes have become enfranchised citizens, and that their votes must be received at the polls on equal terms with those of the whites. A radical ticket is in nomination which will receive their unanimous support, and the loyal men of the town have no doubt that they will be able to win an easy and substantial victory.

PERUVIAN SYRUP.—A protected solution of the Protocid of Iron, supplies the Blood with its life element, iron, giving strength, vigor and new life to the whole system.

If the thousands who are suffering from Dyspepsia, Debility, Female Weaknesses, &c., would but test the virtues of the Peruvian Syrup, the effect would not only astonish themselves but would please all their friends; for instead of feeling cross, "all gone" and miserable, they would be cheerful, vigorous and active.

A DISTINGUISHED JURIST WRITES

TO A FRIEND AS FOLLOWS:

I have tried the Peruvian Syrup, and the result fully sustains your prediction. It has made a new man of me, infused into my system new vigor and energy; I am no longer tremulous and debilitated, as when you last saw me, but stronger, heartier, and with larger capacity for labor, mental and physical, than at any time during the last five years.

Thousands have been changed by the use of this remedy from weak, sickly, suffering creatures, to strong, healthy, and happy men and women; and invalids cannot reasonably hesitate to give it a trial.

The genuine has "PERUVIAN SYRUP" blown in the glass. A 32 page pamphlet will be sent free.
