Meade, \$7,717; Maj. Gen. Sheridan, \$7,717; Maj. Gen. Thomas, \$7,717; Brig. Gen. McDowell, \$5,517; Brig. Gen. Rosecrans, \$5,517; Colonels, \$4,500; Lieut. An exchange says that if people planting orchards would give strict orders to mark the north side of trees with red chalk before they are taken up, and when set out to have the tree put in the ground with its north side to the north, in its natural position, a large proportion would live. Ignoring this law of nature is one cause of so many transplanted trees dying. If the north side is exposed to the south, the heat of the sun is too great for that side of the tree to bear, and therefore it dries up and decays.

A correspondent of a Northern journal, writing from Georgia, says many of the people of that State are perfectly satisfied with reconstruction on any basis, that leaves to rebels the privilege of holding their lands and earning a living. They feel that if the South had been victorious, much harsher terms would have been imposed upon the North than those embraced in the late legislation of Congress.

Advices from below state that the town of De Soto, opposite Vicksburg, was suddenly inundated a few days since. Some eighty to one hundred negroes were drowned. The people of Vicksburg made strenuous efforts to rescue the poor creatures, but could only reach such as had secured temporary places of safety. The town was occupied exclusively by negroes.

Mr. Davis, the keeper of the animals at Barnum's Museum, while assisting in the play of the Christian Martyr, a few evenings since, was severely injured by the furious assault of one of the leopards attached to the menagerie. He succeeded in conquering the infuriated beast, and though weak from the effect of his wounds, resumed his dramatic labors in a few days.

The General McCullum, an iron war steamer, designed for the service of the Mexican liberals, sailed from New York on Sunday for Tampico, Mexico, with two full batteries of artillery, ten thousand stands of small arms, four tons of powder and a large quantity of fixed ammunition on board. The vessel also carried several officers of the liberal army.

A Maine paper asserts that the oldest Mason in the country are Nathaniel Fullerton of Bellows Falls, Vermont, who is 92 years of age, and Moses Wingate of Haverhill, Mass., aged 98, who has been a Mason 64 years. To these may be added John Foster of Boston, nearly 95 years of age, who has been a Mason 67 years.

The Philadelphia Press is again enlarged and is now printed on a new Hoe eight cylinder press, capable of printing twenty thousand copies per hour. It makes a neat, clean, appearance, and is one of the best printed papers in the country. We are glad to see this evidence of its prosperity.

The body of a Miss Goodenough has been found buried in her father's cellar, at Randon, Vt., and her father has been arrested on suspicion of having murdered her. The unfortunate girl, who had been missing for some time, was of unsound mind and only 18 years of age.

A two year old steer belonging to William Nelson, of Wales, Hampden county, Massachusetts, which was recently killed, had two hearts, enclosed in separate apartments, with arteries running from each. This is said to be the first instance of this kind on record.

Judge Smith, of Centerville, Michigan, left all his property, amounting to \$40,000, to the trustees of the Kalamazoo College. His wife disputed the will, and the courts have just decided in her favor, and against its validity.

The latest returns of the Connecticut election shows that the Democratic State ticket has received about 700 majority. The Legislature will be Republican by a small majority in each house.

It is considered an original if not a romantic style of wedding for a couple to get married as one did last week in Maine. They rode in a sleigh upon the ice in Arastook river, and the ceremony was performed as they sat in the sleigh, with the robes tucked snugly in around them.

A few days since a lady out West, who was doing the "martyr" at a table, narrowly escaped being made a martyr in fact. A "pile" was lighted at what was thought a safe distance from the "martyr," but the flames proved hotter than was expected, and her dress, arms and hands were badly burned before she could be untied from the "stake."

The march of the franchise and the franchised has been again witnessed in the streets of Richmond. The colored people there celebrated its evacuation by the rebels by a large procession. The fact goes to show that they are intelligent and loyal enough to recognize their friends. They will not vote for ex-rebels after celebrating the defeat of rebellion.

A gentleman in Portland, Me., lost an envelope on the street containing \$300, on last Monday week. Several people passing, supposing it to be an April Fool joke, kicked it and poked it, but no one lifted it up until a boy came along, took it up and developed its contents, which were returned to the owner.

No MORE RACING.—The managers of the Pennsylvania State Agricultural Society, have recently resolved to offer no more premiums for fast horses, and there is a strong feeling in favor of excluding all monstrosities, mountebanks and side shows from their exhibition grounds hereafter. This is all right but it will very much detract from the excitement and interest of the Fair, and prove a losing game so far as money is concerned. People who go to these Fairs like to see the "animals." As for the side shows, a Fair would be a very tame affair without something of the sort.

There is much talk in Paris in regard to the approaching marriage of an American lady, of large income and highly respectable connections, with her stalwart Italian courier. The lady has just returned from a tour in Italy, where the untiring attentions of the courier, his vigilance over the lady's safety, his broken English, and his romantic singing completely took the grateful heart of the lady by surprise. We learn that the lady's eldest son has arrived in Paris for the express purpose of preventing the marriage if possible.

The Memphis Bulletin has the following: We could scour the pine woods of Mississippi and Alabama tomorrow, and drive before us hundreds and thousands of active, stalwart young white laborers, who are wasting their time in utter and entire idleness, because they are too proud and lazy to work. Many of the families to which these young vagabonds belong are in a starving condition, some of them being the actual recipients of charity from the Freedmen's Bureau.

The largest room in the world, under a single roof, and unbroken by pillars or other obstructions, is at St. Petersburg, Russia. It is 650 feet in length, and 150 in breadth. By daylight it is used for military displays, and a battalion can conveniently manoeuvre in it. In the evening it is often converted into a vast ball-room, when it is warmed by 16 prodigious stoves, and 20,000 wax tapers are required to light it properly. The roof of this great structure is a single arch of iron.

Special Notices.

To THE MARRIERS OF LIVER COMPLAINT.—Among the wonderful medical properties which have rendered Hostetter's Stomach Bitters pre-eminent among the health-restoring preparations of the age, its anti-bilious virtues are not the least remarkable. No words can do justice to its marvelous effect upon the diseased liver. Perhaps the simple words of a convalescent sufferer, who describes it as "going to the right spot," tells it as clearly as may be. It does go right to the spot. It operates directly upon the disordered organ, and whether unduly active or in a state of paralysis, restores it to a condition of health. The sickness at the Stomach, pain between the shoulders and in the right side, yellow suffusion of the skin, costiveness, growliness and languor, dimness of sight, colic, palpitation of the heart, dry cough, low fever, and other symptoms which indicate the various phases of acute and chronic liver complaint, are and all promptly relieved, and finally removed, by the action of this famous preparation which is at once the best of correctives, the gentlest and most genial of aperients, an infallible regulator, and a powerful restorative. Persons of a bilious habit, who use the Bitters as a protective medicine, will never suffer the pains and penalties of Liver disease or Bilious Remittent Fever.

To OWNERS OF HORSES.—Thousands of horses die yearly from Colic. This need not be. Dr. Tobias' Venetian Horse Liniment will positively cure every case, it given when first taken. The cost is only one dollar. Every owner of a horse should have a bottle in his stable, ready for use. It is warranted superior to anything else for the cure of Cut's Wind Galls, Swellings, Sore Throat, Sprains, Bruises, Old Sores, &c. This Liniment is no new remedy. It has been used and approved of for 19 years by the first horsemen in the country. Given to an overdriven horse, it acts like a magic. Orders are constantly received from the racing stables of England for it. The celebrated Hiram Woodruff, of trotting fame, has used it for years, and says it is far superior to any other he has tried. He kindly permits me to refer to him. His address is East New York, Long Island. Recollect, Dr. Tobias' Venetian Horse Liniment is put up in pint bottles. Take no other. Sold by all the Druggists and Saddlers.
