MARIETTA, PA:

Saturday Morning, April 20, 1867.

STATE CONVENTION .- At a meeting of the Union State Central Committee held at Harrisburg on Tuesday afternoon, the 26th day of June was fixed as the day for holding the Union State Convention It will meet on that day at Williamsport.

The Legislature has passed a bill abolishing the former State taxes upon money and other personal property, and substituting in their place a levy of \$300, 000 upon the county authorities. This sum is to be apportioned among the respective counties according to the assessed value of the property therein, and will be paid out of the county tax. The State tax upon real estate was removed a year or two ago, and now the whole system of direct taxation for State purposes is a thing of the past. Sufficient revenue to pay current expenses and interest is obtained from banks railroad companies, and other money-making institutions.

One day last week five men were crossing the Susquehanna in a small beat, below Binghampton, N. Y., when one of them jumped overboard, exclaiming that he was not going to cross in a boat when he could swim as well. The boat was capsized in the efforts of his comrades to return the man to the boat, and four of the five men were drowned.

An abandoned woman of Chicago. named Mary Brandon, on Tuesday afternoon murdered the little daughter of one of her neighbors, by drowning her in a cistern. She also tried to destroy the daughter of another neighbor. The only reason assigned for the crime is the fact that these neighbors had refused to recognize or associate with the wretched woman.

Among the bills just signed by the Governor of Pennsylvania is one incorporating a society for "the prevention of cruelty to animals." Similar societies have been instituted in many places, and their object must ealist the sympathies of the residents of large cities, where the sad spectacle of over driven and worn- three of these bottles picked up on the occurrence.

The Democratic papers throughout the State allege that among the many sins of the late Legislature, the Republican majority increased the pay of members. This is not so. The House the appropriation bill, leaving the pay as heretofore at \$1000 for the session.

Thomas A. Stirling, of New York city, was arrested on Wednesday last at his residence in Hamilton street. Brooklyn, by the United States detectives, on a charge of forgery. His modus operandi was to send letters to prominent merchante, and in this way to obtain their signatures to be used to forged checks.

silly proposition to run Grant for President and Lee for Vice President in 1868. Such a proposition is scarcely worth serious mention, for we know the loyal people of the country would not for a moment harbor it. How long does any one suppose Grant would live as President with Lee as Vice President? We have had some experience of the danger of having a national man for President and a tool of the South for Vice President. The man who runs for Vice President on the Union ticket next time must be above suspicion. We want no more Tylers, Fillmores or Johnsons.

Some weeks since an account of the blowing up of Table Rock by the Canadian authorities was published, the object being to prevent any accidents from future falls of the rock. A hole was drilled and a charge of powder placed in it, but it seems the usual packing was omitted or wrongly arranged. The natural consequence is that though the powder burned very piettily, Table Rock still stands unharmed. A few pieces were detached and fell, which probably led to the belief that the whole mass was blown off.

When the people of the house reached the scene the mother and her two children were dead.

A wise enactment was passed by the Legislature, which may not be generally known. It provides that any person "who shall receive from minors, un known or irresponsible parties, any acrap iron, lead or metal, shall be sentenced to pay a fine not exceeding \$500, and undergo an imprisonment of not more than one year, or both, or either." This makes it criminal to buy or receive from such parties, irrespective whether it was stolen or not, and removes from children the temptation to pilfer.

To THE MARTYRS OF LIVER CO LAINT. -Among the wonderful medical properties which have rendered Hostetter's Stomach is paid \$3 a day, the salary of the best ing preparations of the age, its anti-bilious virtues are not the least remarkable. No words can do justice to its marvelous effect upon the diseased liver. Perhaps the simple words of a convalescent sufferer, who describes it as "going to the right spot," tells it as clearly as may be. It does go right to the spot. It operates directly upon the disordered organ, and whether unduly active or in a state of paralysis, restores it to a condition of health. The sickness at the Stomach, pain between the shoulders and in the right. side, yellow suffusion of the skin, costiveness, drowsiness and languor, dimness of sight, colic; palpitation of the heart, dry cough, low fever, and other symptoms which indicate the various phases of acute and chronic liver complaint, are and all promptly relieved, and finally removed, by the action of this famous preparation which is at once the best of correctives, the gentlest and most genial of aperients, an infallible regulator, and a powerful restorative. Persons of a bilious habit, who use the bitters as a protective medicine, will never suffer the pains and penalties of Liver disease or Bilious Remittent Fever.

Consumption curable by Dr. Schenck, Medicines. To cure Consumption, the system must be prepared so that the lungs will heal, To accomplish this, the liver and stomach must first be cleansed and an appetite created for good wholesome food, which, by these medicines, will be digested properly, and good healthy blood made; thus building up the constitution. Schenck's Mandrake Pills cleanse the stemach of all bilious or mucons accumulations; and, by using the Sea Weed Tonic in connection, the appetite is restored.

Schench's Pulmonic Syrup is nutricious as well as medicinal, and, by naing the three remedies, all impurities are expelled from the system, and good, wholesome blood made, which will repel all disease. If patients will take these medicines according to directions, Consumption very frequently in its last stages yields readily to their action. Take the pills frequently, to cleanse the liver and stomach. It does not follow that because the bowels are not costive they are not required, for sometimes in diarrhea they are necessary. The stomach must be kept healthy, and an appetite created to allow the Pulmonic Syrup to act on the respiratory organs properly and allay any irritation. Then all that is required to perform a permanent cure is, to prevent taking colo; exercise about the rooms as much as possible, eat all the richest food-fat meat, game, and, in fact, anything the appetite craves but be particular and masticate well. Wistar's Balsam of Wild Cherry cures Coughs, colds, bronchitis, astlima, croup, whooping cough, qui.sy, and the numerous as well as dangerous diseases of t ethroat, chest and lungs, prevailing in our changeable climate at all seasons of the year; few are fortunate enough to escape their baneful influence, How important then to have at hand a certain antidote to all these complaints. Experience proves that this exists in Wister's Ralsam to an extent not found in any other remedy; however severe the suffering, the application of this soothing, healing and worderful Balsam at once vanquishes the disease and restores the sufferer to wonted health.

Mr. John Bunto, Of BALDWIN, CHEMUNG COUNTY: N. Y .-

"I was urged by a neighbor to get one bottle of the Balsam for my wife, being assur'd by him that in case it did not produce good effects be would pay for the bottle himself On the strength of such practical evidence of its merits, I procured a bottle. My wife at this time was so low with what the physicians termed Seated Consumption, as to be unable to raise herself from the bed, coughing stantly, and raising more or less blood. I commenced giving the Balsam as directed, and was so much pleased with its operation that I obtained another bottle, and continued giving it. Before this bottle was entirely used, she ceased coughing and was strong enough to sit up. The fifth bottle entirely restored her to health, doing that which several Physicians had tri d to do but had failed."
