A YOUNG WOMAN BURIED ALIVE.—A friend gives us the account of a most terrible case of the burial of a handsome young lady at Jacksonville, Illinois.—Some time last summer a young lady seventeen years of age, suffering with the toothache, went to bed with a small vial of chloroform for the purpose of quieting her teeth. In the morning she was found to all appearances dead, which was confirmed by the opinions of several physicians who were called and examined her body. She was then buried. A few days since her relatives were about to remove from Jacksonville, having located in another State, and had the remains of the young lady exhumed for the purpose of taking them to their new home. Curiosity prompted the opening of the coffin, when they were horror-stricken on finding the corpse turned over, both hands full of hair and her clothing torn to shreds, revealing the terrible truth that the young lady had placed her in a deep trance, the awakening from which was in her coffin and grave. The lady was engaged to be married at the time of her supposed death. A more heart-rending case we never remember to have read or heard of.—Indianapolis Journal.
